New stuff has been added to the Shameless Unabashed Trading Page at
http://www.ParisMtnSignCo.com/Trading.htm

Some prices also been reduced.

Cheers and Happy New Year

Alpha 2000 UHF Transceiver RPTR

Alpha 2000 (originally IMTS mobile telephones, Harris RF)
UHF freq. Range 405 to 512 mhz;
Full duplex FM;
Separate Rx,Tx phased locked VCO's
Freq. Tol. 5ppm or 2ppm;
Receiver sensitivity .25 to .5 uv for 12 db sinad;
Uhf rf power output 30 to 45 watts (w/o duplexer)(Duplexer not
supplied);
Unit modified for separate Rx, Tx input/output connectors
Requires 13.8 vDC at, 8 amps max UHF;
Frequencies programmed into IC chip, 128 channels max;
Unit refurbushed, aligned, working ;
Upgraded with ULIB board (universal logic interface board)
ULIB is capable of 128 chan. binary selection by internal dip switch
or externally with bcd lines or 16 chan selection by 16 lines, plus
Rx Tx audio interfacing, COR line, PTT line and TCS adaptable;
Realigned to amateur freq's, 440 mhz bands.

Needs an addition of a external Controller , Antenna's(2) or duplxer
(1ant) for full repeater operation.

Can program for repeater freq's. before shipment up to 10 chan.
(Programming requires a programmer capable of programming a 74S472
chip)
Additional cost for greater than 10 chan. Up to 128 is additional
$1.00 per channel

Photo's available, contact by E mail ; waldrgrmllr@wwdb.cc

Price each: $250.00

Each radio includes:
     All schematics/prints of each board assembly and main
interconnections
     Power cable/connector 6-10 ft.
     Tx PLL option information
        Connector/pins for external control cable
     Freq. Prom information programming
     All covers and shields, top/bottom covers's and key
        Technical/Help/Parts/bd assy's, resource contacts

Will ship UPS/FedX   ground to USA. Addresses only
Will accept Money Order/Cashers Checks, Certified check,

Total payment will be price plus shipping plus Extra freq. Progm'g if
any.

I have a PK-232 in good condition, for sale. It is the heathkit version
of the PK-232. It works fine but, is not something I am using in my
shack. I use Kantronics gear.

It comes with two TNC to radio cables as well as the scope cable and the
power cable connector, as well as another cable who's purpose is
unknown. The roms say 1988 though I have no idea the significance of
that. I also have the 'Y' data cable somewhere and I'll throw that in
if I can find it (cost me $35.00 just for the cable!)

I'd like $80.00 plus shipping. Email with questions and I'll try to
answer though I really know very little about this unit beyond what is
mentioned here as I got it as a part of a collection of gear (a packet
station) from another ham and was interested in the other parts, not the
tnc but it was a package deal. I was going to use the TNC but decided
to stick with gear I know (Kantronics)

I have a Ten Tec Keyer that was part of the Century line. I previously
sold the two Century 21s but somehow missed the fact that I had a keyer
too. I'd like $35.00 plus shipping.

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. The radio has given flawless service. The LCD is clear. It has the DTMF mic and does ctcss tones. It comes with the radio, mic, power cord, and the mobile mount with quick release.

A few specs for those interested. 2 meter FM mobile radio, 45 watts output. 10 memories, and scan. It does not have the optional tone board.

I would like $95 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

I am going to try to save myself the headache of selling these on eBay where they will surely command a higher price than I expect (I am constantly suprised by what stuff sells for there.)

I have two Motorolla remote handset/monitors in fair to good condition. They show wear but are not damaged. That is why only fair to good. They are black bakelite and very heavy construction. There is a red transmit light on the side and volume and PL controls on the front.

Both units were working when removed from service several years ago.

A picture of one unit (they are pretty much the same) is located at http://www.eskimo.com/~ghopper/mphone1.jpg The photo shows the unit in all it's dusty glory! It was manufactured in 1963 but still looks like the height of Motorolla technology. Actually the units are pretty cool and I was going to use them for a remote in my office for a 2m rig I keep in our wiring closet but I ended up buying a rig with a remote head

that uses a 4 wire interface and decided I liked that option better.

I consider offers but I'm inclined not to let them go for any less than
$25.00 each since I had an antique dealer offer me that much.

Hi there,
I am interested in the radio.
what freq.'s does it recieve?..
Is it possible for a pic?
Thanks-Russ

I have a Kenwood TH-42AT 440Mhz HT that my wife was using until she got
a F-6. The TH-42AT works fine and comes with the radio, antenna, manual,
handstrap, protective cover, DC power cable (for charging -- we bought
the radio used and it didn't come with a charger), and 3 Ni-cad
batteries. The batteries all hold varying amounts of charge. I'd like to
get $175 plus shipping for the whole package.

Update !!! I discovered a BC-17 charger and a older, non-kenwood
shoulder mic I will include in the package. Make me an offer. I'd like
to sell this stuff.

HI THe top part of my isopole broke from the nosecone up, the part that has
the screws in it to attach to the mast. Sure would hate to throw the entire
antenna away because of it. If anyone has one please contact me at
K4IBF@hotmail.com.

Thanks for your time. Monty

I have a PK-232 in good condition, for sale. It is the heathkit version of the PK-232. It works fine but, is not something I am using in my shack. I use Kantronics gear.

It comes with two TNC to radio cables as well as the scope cable and the power cable connector, as well as another cable who's purpose is unknown. The roms say 1988 though I have no idea the significance of that. I also have the 'Y' data cable somewhere and I'll throw that in if I can find it (cost me $35.00 just for the cable!)

I'd like $80.00 plus shipping. Email with questions and I'll try to answer though I really know very little about this unit beyond what is mentioned here as I got it as a part of a collection of gear (a packet station) from another ham and was interested in the other parts, not the tnc but it was a package deal. I was going to use the TNC but decided to stick with gear I know (Kantronics).

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. The radio has given flawless service. The LCD is clear. It has the DTMF mic and does ctcss tones. It comes with the radio, mic, power cord, and the mobile mount with quick release.

A few specs for those interested. 2 meter FM mobile radio, 45 watts output. 10 memories, and scan. It does not have the optional tone board.

I would like $95 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

Ever consider suicide as an alternative to your meaningless existence?

AFAIK, Kevin's a straight-up guy with lots of good RF parts that usually
sell for great prices. I've bought from him before and been very happy
with the transaction.

I have 2 HT's I never use.. got my license to fly 53mhz radio control
planes. These units have been sitting in a drawer, charged every 3 months,
and are in excellent shape. Have hand mic's for both.

I'd like to sell.. can anyone give me an idea of what they are worth.. I
don't want to "give away" but I don't use them either.

Thanks

Scott

I missed the original, and happen to need a few.
What's the length, and how much per?

I'm using these in a window-box, so I need about half an inch or better wall thickness.

The FT-530 can be fixed to scan the CELLULAR BAND and it is more
valuable because of this. Excellent all around 2M and 440 rig.

Do a search on Ebay. If there is one for sale it will give you an idea
of what it is worth!

Les, AA4F

I have a TV-R7000 video adapter for the Icom R-7000 receiver.
Would lilke to do some trading. Not interested in cash transactions.
My interests include ham radio, computers and woodworking.
Make me an offer.

I'm searching for a power transformer for a Palomar 300a amp. This is
the seperate unit that plugs into the back of the amp. If you've got one
on the shelf, e-mail me, lets see if we can make a deal.

*** RF Attenuators ***

Heavily built RF Attenuator, adjustable between 0-50dB in 10dB steps. 8" flying leads w/one terminated in a BNC Bulkhead female and the other with an N Male
connector.   Looks like it should be good to at least 1 GHz. 3 1/2" diameter by 4" deep overall and weighs about 4 pounds each. There are tapped holes in the front frame for
panel mounting. No manufacturer is indicated. A 3/8" shaft adjusts by pulling (with a
spring return) and turning so there is no chance of inadvertent resetting. No knob
nor dial is included. $25

Mfg. Unknown, 0-59 dB 50 ohm RF attenuator -- about 3" diameter by 6" long overall with concentric knobs (10db & 1 dB steps) & side mounted TNC connectors. -- $35

Telonic TB-50A 0-10dB 50 ohm RF attenuator -- 3" diameter by 3" deep w/ side mounted BNC connectors. $20

6 dB low power pads with N connectors, male on one end, female on the other.
Approx. 1"x1"x3" overall. 2 available $10 ea.

All of the above plus shipping, if necessary, naturally.

******* Panel Meters ********

Analog Devices AD2004 4½ Digit LED 2 (1.9999) volt Panel Meter; NOS w/
data sheet $40

Datel DM-3100L-7089 3½ Digit LED Panel meter; range & condition
unknown. $10

FLW Model 204B2, ER2 & model 204B-2D1,ER2,01 digital panel meters
w/internal 120VAC power supply. 4 digit display plus a minus sign; 3½ or
full 4 digits ?? Full scale unknown-- $25 pair

GE 50-283013MTMT1 3" thin edgewise panel meter 10V scale NOS in old box
-- $15

GE DW-44 2" round 8A RF Ammeters w/ internal thermocouple $15 ea

GE 50-240001AAAA1 2" round 100000 Hour Running Time meters 120VAC 60Hz
NOS $20 ea

A.W. Haydon miniature 10000 Hour running time meter. Case is about 1/2"
square (exclsive of mounting flange) by 1" deep. 115VAC 400Hz NOS $15

Hobbs 120 VAC 60Hz 99999.99 (Yes, displays down to 100th's!) Hour running
time meter about 1" high by 2" wide rectangular with triangular shaped
mounting ears. New $20 ea
See the top meter displayed on the link below except that the only
screening on the front of the units I have is the 1/10 hour pointer:
http://www.hobbs-corp.com/cat1_hr7.html

Motorola 52B892096 3½" Square Meter (movement actually made by Simpson).
This is some kind of tuning (or deviation?) meter with a 12 pin
connector
(like a 9 pin miniature tube outline plus 3 extra pins in the center)
wired to the meter. $15

Simpson Model 45 3" round VU meter $20

Simpson 3" sq modern plastic 500-0-500ua movement w/ 50-0-50 scale -- $10

Triplett 320-G 3½" rectangular. 50-0-50 ua -- $15
Triplett 321T 1 Amp DC 3.5" Round meter NIB -- $20
Triplett 327T 10 Volt DC 3" Square meter NIB -- $20

Westinghouse 3½" Square RX-35 series meters, used -- $10 each

15 VDC 20 VAC 35KV (2mA full scale on this last unit)

Westinghouse 2" round 9A RF Ammeters w/ internal thermocouple $15 ea

Weston 301 3" square 3A RF Ammeter (requires external thermocouple that I don't have) $7

All of the above plus shipping, if necessary, naturally.

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF F-M-F Tees   -- $2 ea

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

N Female Chassis Mount connectors with gold (plated/flashed) PC style center
pin (entends about 1/8" back from the insulator). Connex brand -- $1ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

  Below are all new crimp on connectors, with all hardware, in individual
plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics
   KC-59-642-M06 BNC Cable Male   -- $1 ea
   KA-59-385-M06 TNC Cable Male   -- $1 ea
   KA-19-43 TNC Bulkhead Female   -- $1 ea

***   Coax Antenna Relay ****

Dow-Key DK-60 style   110 VAC coil -- $30 (last one)

(3) UHF connectors. Somewhat old looking on the outside but,
I popped the inspection port and all the contacts are all happy -- goes
"clunk" upon application of the appropriate voltage.

All of the above plus shipping, if necessary, naturally.

Sierra Electronics model 164B Bi-Directional Power / SWR meter (looks just
like a URM-120) with 181-A-1000 element -- covers 200-1000 MHz with four

power ranges: 10W, 50W, 100W & 500W full scale. Case is in good condition finished in "Howard Hughes" (light) green -- leather carrying strap is in very good condition. N connectors (M&F) -- $100

Teaberry model TB 6503 HF SWR / Power meter. 100W / 10W ranges FWD & REF power plus SWR. UHF connectors. $7

TEI model 28-200 relative power / SWR / Field strength meter -- screw in whip antenna is missing. UHF connectors. $10

All of the above plus shipping, if necessary, naturally.

*** Crystals and Oscillator ***

CTS Knights JKTO-47 970-2602 -- 1MHz ovenized oscillator
also bears Collins part number: 292-0308-010. Looks new, w/data sheet.
   Original cost was $325!   now only $50

James Knights Glass octal base (tube style) crystals
  Type G9   97 KHz (split electrodes) -- $20
  Type G9A 1 MHz -- $20

Signal Corps octal cased Crystals -- $15 ea
DC-9AJ 1000KC
DC-9D 1000KC
DC-15A 200KC

FT-241 -- 200 KC $10 ea

Motorola B5490303P2 Crystal ovens, octal base $5 ea

US Army Signal Corps dual compartmented crystal case CS-137
with complete set of 120 FT-243 crystals -- channels 270 (5675 kc)
through channel 389 (8650 kc) inclusive; all checked good! $250

FT-243 -- 1000 1500 2000 2500 5000 5350(10.7 marker) 10000 -- $7 ea

Bliley AX-2 (FT-243 pin spacing) -- 3974.0 14125.2 $3 ea
CR-1A -- 5910 Kc, 7580 Kc-- $3 ea
DC-35 (large) crystal 3870 kc -- $5

FT-243 crystals -- $2 ea, 10 for $15, or $30 for all

1640.93 2506 2550 2637 3093 4035 4190 4280 4450 4495

11915.416(5) 12652.92(2) 12878.33 13108.33(2) 13633.33(short pins)
13683.33 39814.815 47045(2) 47946.666 KHz

HC-49 / CR-81 (small case modern) crystals -- $2 ea
18.350 39.7222 40.220 40.300 40.680 47.250 50.31388 61.250 MHz
152R4500(FTM-15) 152T450 157R710 457T2875 452R40 457T40(16.94074)
Pair marked CH26 T&R KSS9GO ($6 pair)

Assorted larger cases
41.7 128 141.480 744 KHz -- $7 ea

VHF crystals -- Take all below for $25

Crystal pairs $5 pair
HW-202 Crystals
  146.37 T & 146.97 R
  147.345 T & 147.945 R

TR2200 Crystals
  146.37 T 146.97 R

TR2200A Crystals
  147.345 T 147.945 R

Two Meter HC-6 & SC-17 Crystals $3 ea

x24 Transmit Crystals
  KHz /   MHz
6036.66 / 144.88 (2)
6061.666 / 145.48
6083.750 / 146.01
6121.250   / 146.91
6122.5 / 146.94
6148.750 / 147.57

HC-6 for some Motorola Receiver
11348333 / 144.88
11398.333 / 145.48 (2)
11492.5 / 146.61

SC-17 for something

26982   / 146.91
27114 / 147.57

An HC-6 Pair
  144R89 145T49 one pin cut short on each

All of the above plus shipping, if necessary, naturally.

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth
far less... later. Here are some items from the estate stuff I've been
selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included!   A few of these devices come with schematics, mostly not.   The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $4

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $4

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $4

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 432. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $10

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $10

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $15

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $20

All of the above plus shipping, if necessary, naturally.

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth far less... later. Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included! A few of these devices come with schematics, mostly not. The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $4

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $4

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $4

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 432. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $10

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $10

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $15

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $20

All of the above plus shipping, if necessary, naturally.

Hi.

Saw the messages about swap sites, this is a copy of an e-mail that I
got, thought some of you would be interested, they not only let you
swap for other items it there is nothing you can think that you want
in return, you can always ask for a small amount of money in exchange.

"A new exciting online entertainment swap shop is now live!
Why not check it out and register, also we need your swap submisions,
the site is brand new and needs to get kick started. use of the site
is totally free so you have nothing to lose by submitting any items.

See ya there!

The disc4disc team."

*** Vintage Electronic Manuals (original unless noted) ***

Ampex
   Model 351 Tape Recorder $20
   Model 600 Tape Recorder $20
   Mddel 601 Tape Recorder (copy) $15

Army / Airforce / Navy
   AN/APS-13 Airborne Radar (1944) $20
   AN/URM25D Signal Gen (partial copy) $10
   BC-314G Receiver (schematic copy only) $2
   BC-344D Receiver (schematic copy only) $2
   SCR-211 A-T plus AA-AL Frequency Meter $25
   SCR-522 A/T2 SCR 542 A/T2
    (cover badly worn -- insides ok) $25
   TM11-825 TWT PB-50A Transmitter (1944) $25
   LM-14 Frequency Indictor (1943) $20
   Hughes HTR-12A/C HTR-13A/C Radar $30
   Hughes Aircraft Unit 24 MA-1,
    F-106A computer maint. manual $30

B&K
   415 Sweep/Marker Generator $10

Central Electronics
   20A SSB Exciter partial manual copy
      plus (original?) schematic $20

Concord Data Systems
   224 Autodial Modem $5

Collins
   32S-1 Transmitter $50
   520 5430 00 Vernier Tuning Knob $5

Echo
   516-107 Test-Master $3

Federal Telephone and Radio
   FT-125-B25A $15

Fluke
   8022B DMM $7

Gonset
   10-11 Meter Converter Sams Manual $4
   3037 & 3038 2 Meter Tuner $2

G[illegible]rler
   UT-345 AFC / UT-343 FM Tuner $7

Hallicrafters HA-1 "TO" Keyer (copy) $3

Heathkit
   Radio Amateur Logbook (unused) $10
   309C RF Probe $5
   A-9C Audio Amplifier $10
   AG-9 Audio Generator $7
   CM-1073 Auto Tune-up Meter $5

   FM-3 FM Tuner $7
   FM-4 FM Tuner $7

   IM-17 Solid State Voltmeter $7

   O-11 Oscilloscope $10

   SA2500 Antenna tuner (new) $40

   TC-2 Tube Checker $7
   V-6 VTVM $5
   VL-1180 VHF Amplifier $7
   WA-P2 Preamplifier $7

Hewlett Packard
   150A/AR Oscilloscope $7
   152 Dual Trace Amplifier $4

   204C/204D Oscillator $25

   400A VTVM $4
   400C VTVM $4
   400D/H VTVM $7
   400D/H/L VTVM $10
   410B VTVM $10

   3455A Digital Voltmeter (operation) $10
   5340A Frequency Counter (comb bound copy) $40
   7035B X-Y Recorder $25

   8556A Spectrum Analyzer LF unit $45
   8672A Synthesized Generator $100

Lear

P-10B Marine/Broadcast Rcvr $5

Magnecord
M-30 Tape Recorder &Sams manual $10
PT6-A Tape Deck $5
PT6-JA Amplifier $5
PT6-P Mixer-Amp $5
PT6-R Rack Amplifier $5
Parts/Price list (1966) $10
Parts/Price list (1971) $10

JW Miller
Model 350 Service Test Oscillator $3

Motorola
Motran (136-174 MHz) FM transceiver instructions, schematics 68P81044A10 (2 books) $20

Motran (150.8-174 MHz) FM transceiver instructions, service/schematics 68P81040A45 (2 books) $20

Motran (150.8-174 MHz) FM transceiver service manual (copy) 68P81041A15 $10

Model X53GJV-1091A Two-Way FM Radio (160-174 MHz) service manual (copy) $10

Pilot Super Wasp Data Sheet #7
K-100 Battery Type kit assembly & operation manual (copy) $5

Radio Shack
CT-101 Cell Phone Owners Manual $5
CT-101 Cell Phone Service Manual $15
SA-10 Stereo Amplifier $2

RCA
WR-64B Color Bar Generator(copy) $5
5-E 5KW AM Broadcast Xmtr $40

Sabotronics
2000 DMM $7

Signal One
CX7A (partial copy -- schematics mostly) $10

Teac
MV-550 VCR Service Manual $20
MV-800 VCR Owners Manual $5

Tektronix
FG503 Function Generator $25
FG504 Funct Gen. (SN <40000) $30
PS503A Power Supply

(back cover missing) $20

Western Electric
81A Amplifier $7

Yaesu
FT-101 service manual -- not quite complete copy
though it looks like includes all the "real" service info, plus
a dozen or so FT newsletters (copies) (1974-76) $30

FT-101E / FT101 ES (in Japanese) $10

All of the above plus shipping, if necessary, naturally.

********** Old Knobs **********

These are all used, most have set screws, with nothing worse than minor scuffs and smudges and fit 1/4" shafts, unless noted.

Dakaware
    1-1/16" Knurled Knob -- $3
     1-1/16" Knurled Knob w/ 1.5" skirt w/ white indicator line -- $5ea
     1-1/16" Knurled Knob w/ 2" skirt marked 0-10 -- $8
     1-5/8" Knurled Knob w/ 2-1/16" skirt & unfilled indicator line -- $8
     2-3/8" Knurled Knob w/ white vinyl pointer at skirt level -- $12 ea
     2-3/8" Knurled Knob w/ 3" skirt & unfilled indicator line -- $12
     2-1/16" skirt only -- $2

   Short (1-3/16")pointer knob w/ white indicator line $1 ea
   Long (2") pointer knob w/ white indicator line $1.50

Harry Davies
   #1206 1-3/8" knobs -- $4 ea
   Short (1-3/16")pointer knob unfilled indicator line -- Not sure if this is Davies... There are a box of these -- 2/$1 ea

Hewlett Packard (70's vintage)1-5/8" spinner knob w/ 3/8" bushing -- $10

Kenwood 5CM diameter knobs that look like they are from a Kenwood TS-830 (main tuning knob) or similar
   "Stock" knob -- $7
    One that's been backfilled with shot to give it some heft -- $7
    The plastic spinner version -- $15

Kurz-Kasch

#308 1-1/8" knob -- $4
#308 1-1/8" knob w/ 1-3/4" brite metal skirt with 100 graduations and tens indicated in black -- $8
#309 1-5/8" knob w/ metal spinner and 2-1/4" black metal skirt with 100 graduations and tens indicated in white -- $12
#309? (may not be KK) 1-5/8" knob w/ plastic spinner and 2-1/4" metal skirt with 100 graduations and tens indicated -- $12

#310 2-3/8" knob -- hub drilled out to 3/8" -- $8
#310 2-3/8" knob w/metal spinner shaft -- $12 ea
#311 2-1/16" skirted knob (some of the white lines are need refilling on these) -- $8ea
#380 1.5" skirted knob -- $5

These look like what was on some '60's Hammarlund, Eico & Knight Kit stuff
#642 1.5" skirted knob -- $5
#S-645 .75" skirted knob w/indicator line -- $5
#647 1" skirted knob w/indicator line -- $5 ea
#653 1.5" skirted knob w/indicator line -- $5 ea

Millen? (has a logo that looks like a "M" with an "I" superimposed at the center) #309 3-1/2" Handwheel style knobs as seen on the SX-28, if I recall correctly.
These are all in need of minor plastic surgery -- two have chips out the skirt where the set screw goes and one has had it's center drilled through... perhaps, to make a concentric assembly??
$10 ea.

National HRT 2-1/16" diameter
Black, trim rings somewhat tarnished -- $5 ea
Gray, trim ring shiny like new -- $10

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- good condtion, $25 ea

There are also many knobs from 1960's Tektronix and Hewlett Packard oscilloscopes, if anyone has any need, please inquire.

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $10 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages.

$7

101 Ways to Use your VOM & VTVM by Middleton -- Howard W Sams. Good condition 144 pages. $5

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $4

RCA HB-3 Tube Handbook
  Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors.   The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $150

RCA Transistor Manual SC-13, 1967. Good condition 540 pages. $10

Having Fun with Transistors by Buckwalter -- Howard W Sams. Good condition 127 pages. $5

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106.   143 pages. $50

Allied Electronics Data Handbook. Lots of formulas. Water damage on cover and about 1/2" into edges, no pages stuck. 1962. $2

Understanding Transistors by Allied Radio. 1962 First Edition, first printing. Good condition 96 pages. $10

Heathkit Catalogs
   1954, 55, 56, 57, 58, 59 &
   Fall-Winter '62-63,
   Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $25

40 Uses for Germanium Diodes by Sylvania Electric Products. First edition, first printing, 1951. Cover separated, some writing on cover & frontspiece, otherwise good condition. 47 pages. $7

Electronic Shortcuts for Hobbyists by Sylvania Electric Products. Second edition, first printing, 1951. Cover separated, otherwise good condition. 35 pages. $7

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $7

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $5

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $15

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $15

Reference Data for Radio Engineers by Federal Telephone & Radio Corp. Lots of realllly useful info about tubes & formulas in this small format hardbound book -- Good condition small part of frontspiece, probably where owner's was stamped, missing. 200 pages. $25

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $7

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $15

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $15

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $20

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $10

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $15

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $7

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
-- a little smudging on the back cover and two middle pages torn on the
edge but, otherwise in fine condition. There is a sticker from the
(original?)
owner on the first inside page. 85 pages, the last 10 or so of which are
receiving and transmitter tube data from the era. $15

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $4

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
tools, machinery, and construction projects.
128 pages $4

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten
note glued to the frontspiece stating that it belongs in the radio room of
the USS Maryland (which was moored just inshore of the USS Oklahoma on the
first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first
two chapters missing up to page 24, otherwise good, no writing nor torn
pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $7

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a
little worn at edges and on spine otherwise excellent, no writing nor torn
pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $4

Official Radio Service Manual 1930, originally published by Gernsback
Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $15

All of the above plus shipping, if necessary, naturally.

*** Oil & plastic capacitors ***

Three section 8uF (common return) 600 VDC "oil" caps, 5", 3.5" x 2.25" used --
$10 ea

10uF 1000VDC NTK caps, 5", 3.5" x 2.25" w/ mounting ears used -- $10 ea

1uF 7500VDC GE "oil" caps 4"x4"x2" plus about 2" worth of insulator/trerminal
on top $10 ea

*** Electrolytic Capacitors ***

Filter Cap Assemblies: Eight CDE 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

Below are mostly NOS & range from 10-30 years old. Many of these parts are in qty 2-6.

Axial Leaded

210uF@35V -- $.25

Hello, we have the following HF amplfiers available, all require 13.8 volts, DC, need 25 watts in for full output, have three power levels, and a switchable +25db receive pre-amplifier. They are designed after the older

Palomar Electronics units when they were in business.
Check out or web page at: http://www.geocities.com/hamsupplies/index.html
Palomar 250: 169.99

Palomar 450: 269.99

Palomar 600: 399.99

All come with a one year warranty, and shipped to your door. We are a PayPal verified user.

I am Going to Florida so I need some spending cash. Trades welcome as well
as offers.
GE MPA VHF System. Aegis encrypted with like new battery and rapid charger.
This is my personal radio and I use it for a ham radio and scanner. $350.00
GE MPD UHF standard model 48 channel alpha-numeric display. Nice with little
wear. Good battery. $100.00
GE KPC 300 VHF 16 channel scan. good condition with good battery and
charger. $175.00
GE MPS VHF 12 channel Like new with new battery, antenna, and charger.
$95.00
GE MPS VHF 12 channel Set of 4 that talk to each other and all have new

batteries and antennas. All in a rapid rack charger. $400.00
GE PCS VHF 136.-150. 2 channel. I have this on ham frequencies now with battery and rapid charger. $75.00
Midland 70-336B VHF 8 channel 35 watt mobiles with mics. I have 3 of these. $75.00 each
Mastr II Repeater 75 watt in 30" deskmate cabinet. 35 amp power supply and 4 can decibel pas and reject duplexer. Has metering card and factory encode card. com card for talking through the remote. $750.00
Mastr II 75 watt mobile has uhs pre-amp. Painted handle. $75.00
Mastr II Control cable, 8 channel. $8.00 each less the more you want.
Mastr II control head. for mobile repeater operation. $5.00 each
Mastr II mic. $5.00 each less the more you take.
Mastr II tone boards. $5.00 each
Mastr Exec II Mobile extender VHF for UHF Mastr II $20.00 each
Mastr Exec II Mobile extender VHF for UHF Ranger (Ericsson marked) $75.00
Mobile Repeater cable for Mastr II $10.00 each.
Mobile Repeater cable for Delta or Ranger. $30.00 each
GE Voter in special rack with extra rec. cards and test cable. $300.00
Extra Panasonic HHC and power supply for GE suitcase programmer. $60.00
GE MPA, MPD etc. Speaker Mics. $25.00 each
GE MPA, MPD Public safety Mics. $35.00 each
GE PCS speaker Mic. $25.00
GE PCS Universal Rapid chargers. $35.00 each
GE MPA Standard chargers. $20.00
GE MPA Rapid chargers. $30.00
GE MPI chargers with wall transformer. $10.00 each
GE white Versatones 103.5, 162.2, 173.8, 179.9, 186.2, and 203.5. $4.00 each
I need 88.5 and 151.4
GE Mastr II Icoms EC $5.00 each and 2c $12.00 each I do not have many left.
Motorola S1350C wattmeter with 10 watt 500-1000 MHz element. $75.00
Motorola P110 VHF 2 channel with charger needs battery. $150.00
Astatic D104 Mic. Looks new Black base and mic head. $35.00
Want list
Programming cable for Johnson Scorpion portable.
Extra Data module for GE suitcase programmer.
Copies or original data proms for MPS to go in the suitcase programmer.
Dual band Ham mobiles. UHF mobiles that will go in the ham band.
Terms
All prices are plus shipping from 40201. All Items are used unless noted and only have a no DOA warranty. E-mail for any question (You do not have to phone to be serious about buying from me)

The "Electronic Shortcuts For Hobbyists" origionally cost 25 cents!
Diode book about the same,
Don't you think $7.00 each is a little much!

```

Mike/keypad from any radio wanted. Wanto to use it rarely with a Alinco HT

I know, I know, I'll have to supply juice to pad &, perhaps, mic preamp.

Diag. of jack on radio where it once plugged wud be a big help.

Thanks for attention es 73s

   Marty AA4RM

I have an SB-401/ SB-303 pair that has been sitting around for a while.
Is there someone in Canada (I'm in Ottawa) that can go over these things
and bring them right back to spec?

Thanks,
Rob

Rob,
    I don't think there are any places specializing in Heath Kit equipment any more. There used to be, but that was a few years ago.
If you have the construction manuals, the alignment procedures aren't
really that bad, you might do it your self, with minimum equipment.
    I hope that helps a little...
            'Doc

Or even better yet, which is a suggestion I give to ALL reading this posting: Donate your "read" or extra copies to anywhere there is a waiting room with magazines like a doctors office or lawyers office and many other similar places. If people had the opportunity to look through some of the magazines that are available, it might just peak their interest a little, and cause them to investigate further a hobby that is percieved by the public as a dead, antiquated hobby.

(we all know that the hobby is still alive though)

Rob -

I do not know what "Doc" is referring to.
HeathKit support and repair work is still readily available, from a number of sources (I am not aware of a Canadian firm, however).

Manuals for many kits are still available directly from HeathKit

Heathkit (which is still in business for educational systems,etc.) refers
past kit owners to:

RTO Electronics In Benton Harbor, MI (has extensive HeathKit parts
collection)
http://www.rtoham.com/

Here is the KB9JJA's HeathKit web site:
http://members.accessus.net/~dwentz/kb9jja/heathkit/

NC Total Electronics has a number of parts:
http://www.nctotalelectronics.com/

Here is the HeathKit board for equipment owners:
http://members3.boardhost.com/heath32a/

The Heathkit Shop
http://www.theheathkitshop.com/

Reference Page
http://www.heathkits.com/new_collection.html

Heathkit parts (New Old Stock - NOS) .. you have to inquire he does not have
the thousands of boxes
inventoried for the Internet.
http://www.multi-volti.com/

There are others, but this is a "start"

Also, do a Goggle search (hey its the Internet and search engines are the
card catalogs)
on "Heathkit" and "repair" you should get a number of other web pages

Easy to do with the manuals. If you tackle it be sure to heat the coils a LITTLE bit to free up the slugs before trying to turn them. (I've been there)

Radio Shack HTX-400 Mini HT for the 70cm band, in EXCELLENT condition! 200mw
or 1 w output (w/ 9vdc input), covers 430-450Mhz TX, 420-470 RX, 47 CTCSS
tones. To find out more about this incredible little unit, check out the
following link:
http://support.radioshack.com/support_electronics/doc61/61410.htm
 Only used once for a few hours. I received a dual bander as a gift
and no longer need this radio. No visible scratches. Runs off 2-AA
Batteries. I have the original box, manual, carrying strap, belt clip..
everything it originally came with! You must be at least a technician class
licensee to transmit on this radio. I can provide a picture to anyone
interested. Original retail in 2000 Radio Shack Catalog $199. Asking $50 +
shipping,

interesting trades considered.....

Looking to purchase a base (base with some mobilility if possible) HF
and all band tranceiver that will grow as I get my Ham tickets (up to
Extra). What would be the best transceivers to look at in the $1700
and below range.

Thanks
Collin

OK, that's it. Out of room and some of this stuff has to go.

I have a small stack of CQ mags that you can have for about $6
shipping-handling CONUS. Otherwise, trash bin. Perhaps someone who doesn't
subscribe would like to read them. I'll give it a week to see what happens.

1998 march, may and june
1999 march
2000 june, july, sept, oct, nov, dec
2001 jan, feb, mar, apr, may, july

I have more around here but I want to see if there is any reason to catalog
them for someone else's use, or just toss.

If what you have is a scanner..... stop back at your radio shack and they
have a book called Police Call..... it has just about every frequency YOU
are ever gonna need. If all fails they MAY have a local list also. Find
out if you have a ham radio club in the area, the members may also be into
scanning also and have lists of thier own.

Ryan

I'm looking for a Heath DX-60 transmitter and HR-10 receiver in good to

excellent working condition and also good to excellent physical condition.
Please email asking price and pics if possible. If in the Detroit, Flint,
Saginaw metro area I'll come to look at them.   Thanks! Mark

Hi all,

I'd like to go to some hamfests as they are a good way to pick up
equipment and supplies for my workshop. Is there a newsgroup or website
where they are announced?

Thanks.

Hi,
I have a TH-205AT Kenwood radio and have no manual for it. Can anyone
with the same tell me how to program PL tones on this radio.

Thanks.

Sure, go to "http://www.arrl.org" and click on the link to "Hamfests".
You can do a search by state. I see 4 in Washington, 2 in Oregon, and
1 in BC. I go to every hamfest that I can.

'm looking for manuals for the Tektronix Type 110, Tektronix 514 or
514AD scope,
and General Radio 544B. Anyone have any of these they'd be willing to
part with ?

Thanks

Phil (reply to : phil@vaxxine.com)

No just one steve....try the qsk switch or, check to see youve got closure
onthe rig side and that center to ground keys the Titan....if both are so,
you should be fine...seems like I had to turn the qsk on or something
similar...cant remember..73 murray

I have an Icom IC-P2AT for sale. This radio does NOT transmit. I bought it
in an auction and was told otherwise, so I am selling the radio AS-IS to
recover some of my loss. Included in the sale is the HT and the BP-111
battery. Also included are BP-113 battery, Icom HM-46 speaker mike, Icom
operating manual and both the wall charger (BC-74A) and the Icom CP-12 12V

adapter. I can hear the radio when I transmit next to my mobile, however I don't get any measurement on my watt meter and it won't bring up the local repeater. The radio does receive very well and has a broad extended receive. I have pictures which can be seen at http://members.home.net/malone1956/Icom_HT.htm .

I'll answer all questions as well as I can. Make an offer.

73's
Richard

I have for sale a Kenwood TS-870 S. The rig is in excellent condition, I
have the original shipping boxes and hand mic. I have the manual some where
around, but I haven't found it as of yet. but I will go to the Kenwood
website download and print the manual if worst comes to worst.

Price $1100 plus shipping

If you would like to include the Kenwood PS-52 Power supply which is also in excellent condition.

add $150 plus shipping. I will not sell the power supply until rig is sold.

Kenwood VS-2 Voice unit $65 shipped

Kenwood DRU-3A Digital Recording Unit $75 shipped

Kenwood SP-31 Speaker   2 @ $75 each plus shipping

Sell as a package for $1500 shipped.

If interested, please e-mail me direct.

K4FFA@home.com

1988, 89, 90, 91, 92, 93, 94 QST in hard plastic magazine cases. Not binders, these are similar to the cases used on library shelves for loose magazines. They about $4 each when purchased new and are the right height for QST.

Complete years, good condition. $10/year plus shipping ($6) from New Orleans.
These are
not binders but library style magazine cases each holding one year.

Late '70's vintage likely Military, probably airborne, VHF power amplifier
assembly. It consists of 7 almost identical amplifier assemblies clustered
around a
central housing that has splitter combiner networks which are plugged
onto each end with a bunch of SMB connectors. There are TNC's for the
main in's & outs.   I think it was originally configured as one amp,
driving two, driving four boards. The complete assembly measures 7.5" x 5"
x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer
covers
are mostly missing. Each amplifier is a push pull design -- they appear to

be
50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would
guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W.   And there is no manufacturer name -- probably went with the outer cover. Six of the stages are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. Think of it as 7 amplifier boards @ $10 ea --
Bare PCB's would cost as much! -- $70

plus shipping, if necessary, naturally.

***** Power Supplies, Inverter, UPS *****

Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached 2 wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse. There is a relay that switches the 3 voltage outputs. They have a six-pin SIL output connector and come with a matching cable to pigtails. The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay). Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.
$12 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General
    Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

    Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $20 ea (4 available)

    Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

NPC Model 12-115. 12VDC - 115 VAC 200W Square Wave inverter. Black case w/ gold anodized front panel measures 7"x7"x5" high. 10 lbs. shipping wgt. $20

International Instrumentation Model PUP-200. 200W computer style UPS. Off white case measures 15"x8"x6" high. Requires 24V worth of lead acid batteries, not included. 18 lbs. shipping wgt. $25

SAFT Model SPS400-117. 400W computer style UPS. Light tan case measures 11"x12"x6" high. Requires 24V worth of lead acid batteries, not included. 20 lbs. shipping wgt. $40

All of the above plus shipping, if necessary, naturally.

*** SWITCHES ***

Radio Switch 86 series 6PDT (3 DPDT wafers) RF style switch used good -- $30

General Electric WW2 vintage (has that BC-375 look) 6 position RF style switch.
  Very solid detents! Used, excellent. $10

Switchcraft lever switches -- all have black round knobs unless noted
     8PDT (#60024L) NIB -- $5

     Three pos. 2 form B momentary (#3035) NOS -- $2
     Three pos., 2 form F momentary (3000 series) used -- $2ea
     Three pos., 3 form A momentary each side (3000 series) NOS, white rect. knob -- $3

     Three pos., 2 form C momentary (#130312) NOS -- $2ea
     Three pos., 2 form C (#130312L) NOS -- $3
     Three pos., 3 form A momentary each side (13000 series) NOS, red rect. knob -- $3
     Three pos., 2 fom C (DPDT) each side (#160312) NOS -- $3

C&K 8121 SPST miniature pushbutton switch -- 1A 120VAC silver contacts NOS $1 ea

Dialight 570-31 3PDT miniature toggle switch with 5/8" long handle -- 5A 125 VAC NOS $4 ea

Grayhill 46YY2159 Sealed Pushbutton switches, RFE -- These were SPDT but, the NC lead has been cut off flush with housing. The NO & COM terminals are cut short like they were removed from a PCB. Nice metal shaft has about .2" travel. No button nor hardware, 1/4" mounting thread. And there are a bunch of them -- 10/$1

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things **********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S 300pF 15KV $200 with standard puller, later manufacture (blue)
UCSL-750 750pF 3KV $125 with standard puller
UCSL-1000 1000pF 3KV $125 with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $80

---Fixed vacuum caps--

Jennings VC-12 12pF 20KV $20
Jennings 50pF 86KV $86
Western Elec 100pF 5KV $30 (This one hi-pot checked @ 14KV)

--- Vacuum Relays --

Old "T" style vacuum relays, the coil slips over one leg
of the glass enclosed contact assembly -- One of the contacts has a Penta Labs
part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum
relay mounted on top of a small (2"x3"x4") metal enclosure. There is a

15 pin Jones connector on the side of the box. I believe that there are
some auxiliary contacts in the box in addition to the vacuum relay.
28VDC. $15

All of the above plus shipping, if necessary, naturally.

***** B&W Air Dux coils *****

These are all shiny NOS, 10" lengths, unless noted otherwise

#2408T 3" dia, 8TPI, #14 wire -- $30

#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center. NIB $25

#1604T 2" dia, 4TPI, #12 wire, slight tarnish $20

#1208T 1.5" dia, 6TPI, #12 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #16 wire, somewhat tarnished $20

#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

These are all somewhat tarnished NOS partial lengths

#1008T 1.25" dia, 8 TPI, #16 wire, 8" long -- $12
#1016T 1.25" dia, 16 TPI, #20 wire, 8" long -- $12
#1032T 1.25" dia, 32 TPI, #24 wire, 5" long -- $10

and a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
including plastic center support, used somewhat tarnished but, no turns soldered $30

All of the above plus shipping, if necessary, naturally.

******* MICROWAVE *******

Hughes M-band balanced mixer assemblies which have WR-75 flanges
on the RF & Oscillator inputs and wire terminals on the IF outputs. $25 ea

Avantek SD7-0738N GaAs Fet Preamp. 3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments
noted on label. $50

Rantec FU-301 Filter? or Delay Line?? at some GHz ...I don't know.
N connectors -- 7 3/4" x 3 3/4" x 1" overall. $10

Display (or paperweight) Traveling Wave Tube. The tube was cut in half and
encased in clear resin. 15" x 4" x 1.5" thick. There are some scratches on
the resin surface which I think could be buffed out. $50

And a similar display piece of just the cathode assembly from a
larger Traveling Wave Tube. 3.5" x3.5" x 1.25" thick $25

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $30 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $50 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $20 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163 4 pcs $20 all

All of the above plus shipping, if necessary, naturally.

********** Air Variable Capacitors ********

Cardwell enclosed 7 section variable capacitor assembly for/from some receiver -- The sections measure: 210, 210, 105, 105, 105, 100 & 75 pF. The unit is about 12" long and 3" square with a right angle drive mounted in the center and a 30 turn scale. This looks to be NOS (nothing ever soldered to...) but, it is a mite tarnished on the outside from being stored forever. There is also a (Mil?) number on the unit: SC3188A. $30

Johnson T9-5 minature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, "shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea.

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $20 pair

..and a whole bunch of used Neutralizing capacitors as listed below $5 ea or take 'em all for $25.

Bud NC-853 (2 available)
NC-1000 (2 available)

Hammurlund N-10 (ceramic repaired)

National NC-800 (old version - ceramic repaired)
NC-800 (later version)
NC-150

Johnson 150-375

Millen (part no. unknown) w/ 2-5/32" disks
(part no. unknown) piston style

Unknown Mfgr w/ 2" disks

All of the above plus shipping, if necessary, naturally.

FS: Five pieces of radio control equipment

Airtronics Vector VT2P 75 MHz R/C transmitter -- Channel 64.

KO Propo EX-5 27 MHz R/C transmitter on 27.045 Mhz... I think

JR Remote Control / Circus Hobbies Unlimited Series FM transmitter module (only) -- 72.550 MHz

JR Remote Control / Circus Hobbies Unlimited Series 8 Channel Receiver NER-J128M -- 72.4 MHz

JR Remote Control / Circus Hobbies 9 Channel Receiver NER-529X -- 72.550 MHz

I checked the top two transmitters and they output on a spectrum analyzer. I have no way to check the receivers -- they may be NOS; the antennas appear to have never been uncoiled.

I don't think that these units are interoperable. The top two transmitters look like they are for use with cars and the bottom two receivers seem to have nomenclature that would suggest model planes.

Asking $100 for the lot, plus shipping if necessary, naturally.

With overtime becoming abundant over the holiday season for me, I am actually going to have some extra cash to spend on something other than bills!

I am looking for either a 6 meter FM only rig or 6 meter all-mode rig, preferably a mobile configured rig, or a "base" model capable of recieving 12-13.8vDC from my auto. Please feel free to email me with what you have for sale. Appearance not as important as long as the display is readable, and the information around any dials or buttons is discernable. The radio MUST BE 100% fully operational as it was designed to be.

Thanks,
Ryan KC8PMX

Radio Shack HTX-400 Mini HT for the 70cm band, in EXCELLENT condition! 200mw
or 1 w output (w/ 9vdc input), covers 430-450Mhz TX, 420-470 RX, 47 CTCSS
tones. Only used once for a few hours. I received a dual bander as a gift
and no longer need this radio. No visible scratches. Runs off 2-AA

Batteries. I have the original box, manual, carrying strap, belt clip..
everything it originally came with. You must be at least a technician class
licensee to transmit on this radio. I can provide a picture to anyone
interested. Original retail in 2000 Radio Shack Catalog $199. Asking $75 +
shipping, interesting trades considered.....

For sale, very good Gonset GSB100 transmitter. New power supply with Peter
Dahl transformer. Front panel very good, 9+
Asking $325.00 and pictures available for the asking. This is a real nice
transmitter that will look good on your desk. Plug it in, add a mic and be
on the air. This one is easily in collectable condition.

I have a second one, not as nice looking. Works great! Asking $175.00
Picture can be seen by following my link on QRZ to my web page. Just go to

K5VSE.
Both do not include shipping. Manuals included. Both have been on the air recently.
email: wb6vse@ipa.net

All:

Yep, the screen is broken on my Toshiba 110CS Satellite Laptop and I would like to replace it instead of chunking the whole thing in the trash.

If you have a 110CS that is broken and has a usable screen, please contact me by email.

Thanks,

Al

FOR SALE:

AKAI model M8 REEL-TO-REEL, Stereo tape deck in excellent condition.

This is a classic commercial quality unit with seperate
left and right amplifiers, metering and electronics.

The case, including the cover, is in great shape as are the
mechanical and electronics. The gray tolex/vinyl covering is in
beautiful condition and the deck works fine, other than the rewind
does not run.

Pictures available on request.

Will sell for $75.00 plus shipping

beautiful condition and the deck works fine, other than the rewind
does not run.

Pictures available on request.

Will sell for $75.00 plus shipping

I just biught a brand new RC3 from HRO for $350.00. AES also sells
for that. Why not return it? I also have the vx5r, great radio and
your price is good on that one. Good luck.

Bob j.

FOR SALE:

HAND-CRANKED MAGNETO GENERATOR! Produces
120V AC. These will provide about 20-30 Watts depending on
your cranking speed!

The size is about 3" diameter and 3" deep with retracting handle.
Fluke freq meter shows around 20 Hz on one pair of terminals and
around 60 Hz on another.
You can mount these behind a sturdy front panel with a single
hole and the large nut provided.

Will sell for $25.00 each plus $6.50 USA shipping

Picture available

People have been selling this surplus item for years online - except
the price keeps moving around. What exactly are they from? Old
meggers? They seem a bit useless.

They are telephone ringer generators. That is about all they are good for. Used in field telephones ?? or the
old phone systems before the dial telephone.

For Sale: Hallicrafter S-38B. Plays on all bands, but has the following
problems: poor sensitivity and BFO on at all times. Has a few scratches,
paint is worn in places, and dial glass (plastic) has hairline cracks.
No dents, however. Has original knobs. See picture at:
http://members.home.com/sebring38/s38.jpg and
http://members.home.com/sebring38/s38back.jpg

Matthew:

Most tv antennas that recieve VHF channels are Log Periodic Dipole Arrays (LPDA). Basically, there are multiple driven elements on a boom, each of which is a dipole. Their length decreases by some constant factor, like 0.9. So, if the first dipole is 3 feet on each side, the next is 2.7 feet, then 2.43 feet, etc. The dipoles are fed by a single fee line, and alternating dipoles are fed out of phase. I know this explanation is inadequate, so maybe you should check out http://www.cebik.com/lpd.html for some explanations and diagrams.

To design your own LPDA, you can use one of the spreadsheet programs available on the web. At the very least, you need to know the frequency range for the design, i.e., for channels 2 to 13. I don't have that on hand. Again, the web is a good source.

Dave

I'm looking for a TNC with VHF/HF ports used, but working well.
Please, email to py8azt@mac.com

Thanks.

Well they aren't like the phone generators we had then, which were
bigger. Seller, pls state source & original application.

I have an Alinco DJ-S41T 440 mhz mini handheld for sale. This is the
300 milliwatt cigarette pack sized rig (not the flimsy credit card sized

one). It works 100%. I regularly use it on a repeater some 5 or 6
miles from here and can hit that repeater solid from up to 20 miles.
This is a great radio for simplex use at hamfests or doing work on your
towers and antennas. The case is worn from many hours in my pocket, but

nothing wrong with it that affects operation in any way. No
accessories, just the radio. For more info on this model, check out:
 http://world.std.com/~wdr/alinco.html

Asking $50 plus shipping (s/b about $4.00).

Wayne L. Faris, KE[illegible]BZ

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. The radio has given flawless service. The LCD is clear. It has the DTMF mic and does ctcss tones. It comes with the radio, mic, power cord, and the mobile mount with quick release.

A few specs for those interested. 2 meter FM mobile radio, 45 watts output. 10 memories, and scan. It does not have the optional tone board.

I would like $95 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

I have a 2 meter amp for sale. It is new-in-box as I never got around to
using it. It was made for Radio Shack and by all accounts was a good amp
and did a superior job of rejecting intermod due to its good receive
filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $40.00 plus shipping but will consider offers.

For sale: This is the general coverage version of another ham band only receiver. This radio covers broadcast band through 33.5 Mhz in 4 bands. It has a main tuning dial and a band spread dial. The radio is electrically very good, and all functions work. It has 7 tubes. Physically there are no dents, but there are scratches on the top of the case and on the bottom lip of the case below the knobs (in the light gray areas). The front of the radio (dark gray area) has no scratches, and the dial glass is in excellent condition with no cracks. You will note in the picture below a close up of a 3/8 inch hole that has been drilled in the rear left corner of the top of the case. Why is the hole there? There is an adjustment screw below the hole on top of the chassis.
$75 plus Exact Shipping.

I have a Knight VFO for sale. It covers the 80, 40, 20,15 and 10 meter
band. It is in good condition and it comes with a manual.
The cost is $50.00 US plus shipping costs.
I am Peter Christensen and my email address is
peter.christensen@shaw.ca
Thank you. Peter. VE6LP.

FS: New in Box - one pair EIMAC 8874 / 3CX400A7 tubes. These were sold
by Motorola to be used in some of their two-way radio/repeater stations,
such as the 250-Watt Output UHF MICOR series radios, so Motorola put a
part number sticker on the box (Motorola part # 97-10886A01), but inside
are brand-new EIMAC 8874's with the EIMAC info and installation sheets.
I was keeping these for my Alpha 76 HF Linear Amplifier, but now I've
sold the 76 and purchased an Alpha 87A which uses 3CX800A7 tubes
instead, so I don't plan to use these new 8874's. New ones from one of
the major RF Tube dealers that advertises in the Ham Magazines are
$459.950/each, plus shipping. I'll sell this new pair for $595.00
shipped and insured.

I have a lineman's climbing, Tool, Belt made by Klein. It is Model 5249N25
Size 625mm. Anyone interested contact me alagk@yahoo.com and make an offer.
This belt does not have a Lanyard but is the Belt itself. Great for Tower
Climbing or pole climbing.

A favorite of many. This Palm Pilot Professional model comes with two Sync Stands (one for home and one for the office,) a new leather portfolio type case, a new modem, all manuals and the Professional software on a CD. The price, a fraction of it original cost, only $85.00 plus shipping from 29609.

If interested, contact me at K4ICL@ParisMtnSignCo.com Photo available upon request.

Cleaning shack.
I have for sale the following equipment
A Hallicrafters S-77 receiver with its manual. It functions very well and its cabinet is a 7 because of scratches.
The price is $50.00 US plus shipping costs.

A Heathkit HF general coverage receiver. It is solid state, works well and it is a 8+ in appearance. It has AM, CW, and USB. The price is $30.00 US plus shipping costs.

A combination of a Heath kit HR-1680 receiver HX-1681 transmitter, and its' power supply the HP-23B. These units are in pristine condition and their manuals are included. They cover 80, 40, 20, 15 and 10 meters. They are solid state units except for the transmitter's output tubes. The price is $250.00 US plus shipping costs.

A Heath kit HR-1680 also in excellent condition. Its' price is $80.00 US plus
shipping costs.

A Knight VFO model 77 covering 80, 40, 20, 15, and 10 meters, with its, manual.
It functions very well.
The price is $35.00 US plus shipping costs.

I am Peter.christensen and my email address is
peter.christensen@shaw.ca
Thank you. Peter.

The S-77, HR-1680, HX-1682, and the HP-23B have been sold.
Please ignore the SX-146.
Thank you. Peter.

FOR SALE -

AKAI model 4 track REEL-TO-REEL, Stereo tape deck in excellent
condition.

This is a classic commercial quality unit with seperate
left and right amplifiers, metering and electronics.

The case, including the cover, is in great shape as are the
mechanical and electronics. The gray tolex/vinyl covering is in
beautiful condition and the deck works fine, other than the rewind
does not run.

Pictures available on request.

Will sell for $75.00 plus shipping

This is an Icom IC-737 transceiver covering 160 - 10 meters. Built-In Antenna Tuner. No Mic is included with Rig I'm using a GOLDLINE mic and use it with my other rigs, I Do have Copy Of Owners Manual. Works perfectly in all modes and on all bands. General coverage mod. has been done. This is a 12 volt DC rig, and would require a 12 volt DC / 20 amp power supply for base operation. I do have the wiring harness for the rig. I used the rig weekly and is in excellent working condition, as with all electronics, I must sell as-is. Payment is Cashier's Check, Postal Money Order, or Paypal! Rig will be send out after funds are received the NEXT business day. I try to personally check out each item I list for auction, and to describe each item completely & carefully. However, since most of these items are used electronic pieces all items are sold "as is". Please contact me for any further information.

$550.00 + Shipping

If any of the microphone wiring exports want to take a crack at this
one please do!!

I have an Astatic D104 M6B hand mic I want to use on TRC-465 mobile.
Now the Astatic Mic has a 6 pin connector which I have removed
already, and the TRC-465 has has a 5 pin din connector. I have tried
connecting several wire combinations to get the radio to key but none
of worked.

Any one out there happen to know what wires to what??

Dave

My D-104 has a wiring diagram inside the base. You might check for
this.

Hi Group,

I would like to buy a Millen 90800 or 90801 exciter and 90831
modulator in any condition, working or not. I am also looking for the
coils for the same. They are 43000 series coils from Millen and I
think National also made them. I would also be interested in the parts
to make the coils, the ceramic bases (2" between outer pins) and the
Miniductor/AirDux raw coil material.

Thanks

Paul

Hi I'm looking for some older germanium transistors to repair some old
fuzztones. I need OC81D,OC76,OC75,OC44 and NKT275. I prefer NOS
European types but used tested is OK, too. Please let me know what you
have and thanks in advance!

I have items for sale or trade
I prefer trade. For Sales, buyer pays shippping.

Things I need: 6M halo, rotary inductor antenna tuner,
VLF loop antenna, anything interesting.

Things I have to offer:
Magellan Blazer 12 GPS ($60)

Eagle Explorer GPS ($75)

Comet CF-350 Diplexer ($35)
(Outputs - 1.3 to 30MHz and 50 to 240 MHz)

AEA PK-232MBX Multimode TNC ($30)

Diamond X-500M Dual Band Collinear Vertical ($100)
(2meter/70centimeter)

Diamond F-23 2meter Collinear Vertical ($75)

Motherboard with 350MHz Pentium II and 32 MB RAM ($100)
(never used)

Heathkit HM-102 2KW wattmeter and SWR bridge ($30)

Autek QF-1 Audio Filter ($30)

DownEast Microwave 50MHz Receiving Converter ($50)
(28MHz IF)

Radio Shack 21-543 DSP unit. ($25)

Logitech QuickCam USB ($25)
(for Win95/98/Me not for Win2000)

All equipment is in excellent condition
(non-smoking environment)

All the radios and equipment below are in like new condition. I just do not have time for Amateur Radio so instead of letting this good equipment set, I may as well sell it. What does not sell in a couple days is going to Ebay. Email me for pics. Shipping is extra.

Icom IC-706MKIIG - Like new condition. Also included are the separation kit, mounting brackets, all the manuals and paperwork, and the box. This radio was purchased new in July 2001 and I doubt it has 2 hours of use. The warrantee card is still in the package for you to fill out. $795

LDG RT-11 remote mount auto tuner that was purchased in August 2001. It too is just like new and it includes the Icom interface cable for the706 and others. I believe this thing would tune a coat hanger! $190

Comet UHV-6 mobile antenna with the 20-meter coil. The Comet UHV-6 covers 6M/2M/70cm, 40M, 15M, 20M, and 10M. Also included is the Comet RS720 mount and 3D4M cable assembly. The antenna also was purchased in July and works great with the IC-706MKIIG. $165

Comet CF-706 Duplexer. It covers 1.3 - 57 MHz and 75 - 550 MHz. It to was bought new in July and is in great condition. It's a real must for the IC706. $45

Yaesu FT-920 - Radio is about 2 years old but has very few hours on it. It's in like new condition with no scratches and it has the FM module. Includes new hand mic (never used), manuals and paperwork, and original boxes. $895

Yaesu MD-100a8x desk mic. - It too is about two years old but in like new condition. I even have the original box. $90

Astron SS30 - 25 amp continuous PS - It was bought and used with the FT-920 and is like new. $85

Radio Shack HTX-400 Mini HT for the 70cm band, in EXCELLENT condition! 200mw or 1 w output (w/ 9vdc input), covers 430-450Mhz TX, 420-470 RX, 47 CTCSS tones. To find out more about this incredible little unit, check out the following link:
http://support.radioshack.com/support_electronics/doc61/61410.htm
 Only used once for a few hours. I received a dual bander as a gift and no longer need this radio. No visible scratches. Runs off 2-AA Batteries. I have the original box, manual, carrying strap, belt clip.. everything it originally came with! You must be at least a technician class licensee to transmit on this radio. I can provide a picture to anyone interested. Original retail in 2000 Radio Shack Catalog $199. Asking $50 + shipping, interesting trades considered.....

Hey People, I am new to google groups, but here goes.

I dont really have a ham radio, but you guys are the only google
group that has something to do with radios. I just bought myself a
radioshack.....i dont know what you wanna call
it....scanner....cb.....whatever, but its one way (receive only) so im
guessing somthing like scanner hehe. anyway, i would like to know were
i could find radio frequencys for cops and state troopers and stuff in
minnesota. Please email any answers to davidd2007@yahoo.com because i

dont think ill be checking here to often.
Thank you for your time!

~David

I have the following For Sale -

1) Heathkit HD1410 Electronic Keyer with built in paddles. Has the original manual. $75.00

2) HEATHKIT MODEL SA-5010 MICROPROCESSOR CONTROLLED ELECTRONIC KEYER WITH MEMORY - LONG LIST OF FUNCTIONS, DESCRIBED IN THE HEATHKIT COLLECTOR'S GUIDE AS BEING ABLE TO DO ALMOST EVERYTHING IMAGINABLE YOU COULD ASK OF A KEYER - COMPLETE WITH COPY OF THE HEATHKIT MODEL SA-5010 MICROPROCESSOR CONTROLLED ELECTRONIC KEYER WITH MEMORY - LONG LIST OF FUNCTIONS, DESCRIBED IN THE HEATHKIT COLLECTOR'S GUIDE AS BEING ABLE TO DO ALMOST EVERYTHING IMAGINABLE YOU COULD ASK OF A KEYER - COMPLETE WITH COPY OF THE "ORIGINAL" OPERATING INSTRUCTIONS $75.00
3) Trac Electronics Inc. Electronic CMOS Keyer Model TE-122 in original box and manual plus there "Trac Key" keyer paddles. $100 for complete set.
4) Hal Communications Corp. Electronic keyer model 1550- $75

5)Data Engineering Inc. MemoryMatic Electronic Keyer model 500B -- $100

6) Atronics Code Reader 1960-70's vintage ,works fine -$75

7) Katsumi Electronic Keyer model EK-127 - $50

8) Eico Electronic Keyer Model 717 --$75

9)HeathKit Electronic Keyer Model HD-10 -- $40

10) Data Engineering Inc.Electronic Feather Touch Keyer with built-in paddles - $100

11)K.E. Electronics-SQ Auto Keyer with built-in Paddles - $50

12)WM. M. NYE CO. Electronic Keyer with built-in Paddles Model SSK-1K - $75

13) Codax Automatic Keyer Model 361 B&W -with-out built-in paddles - $65

14)Heathkit Code Practice Osc. Model 1416 - $15

15) Ameco Code Practice Oscillator Model OCM-2 - $15

16)Calrad Code Practice Oscillator Model 70-376 - $15

17)MFJ Econo Keyer II, Model 401C with Instructions - $40

18)Jackson Electricial Instruments Co. Code Practice Oscillator Model 562 - $20

19)Realistic Code Practice Oscillator Model 20-007- $10

As far as I know every unit that is advertised was working when they were cataloged and boxed. Everything plus shipping. I will entertain all offers. There are several classic keyers listed here....

When did Annabel explain the kettle over the fat can? We laugh tamely if Usha's pen isn't outer.

You won't hate me dining below your sharp doorway. Plenty of open tyrants are unique and other distant boats are worthwhile, but will Joey waste that? Many polite humble ulcers smartly fear as the durable carpenters dream. One more shallow cat or stable, and she'll simply believe everybody.

He'll be sowing around old Henry until his puddle burns believably. Wayne wants to attack strangely, unless Petra dyes aches among Cristof's paper. No stale pools to the closed house were irrigating below the smart obelisk. Sometimes, Rickie never promises until

Jim departs the short jug incredibly. We attempt them, then we happily nibble Jezebel and Geoff's quiet tree. If you'll kill Robette's spring with disks, it'll badly converse the sauce. Hardly any good wide envelopes will rigidly improve the caps. I am virtually dark, so I open you. Never arrive the films usably, taste them strongly. Annabel deeply orders rich and calls our cold, easy yogis among a night. Jeremy, still recollecting, likes almost generally, as the sauce recommends towards their hat. If the rural bushs can creep partly, the clean ointment may jump more drawers. Yesterday Alexis will kick the printer, and if Marian firmly rejects it too, the tag will pour against the bad navel. She wants to cook pretty cobblers at Stephanie's square. There, cards change below think showers, unless they're dirty. It's very lost today, I'll measure globally or Darin will irritate the bandages. The button on the young canyon is the counter that judges unbelievably.

They are covering on ugly, behind active, in difficult doses. Fucking don't look fully while you're solving around a hollow wrinkle. Better fill jackets now or Kaye will sneakily grasp them over you. Jonathan, have a sad code. You won't join it.

Every elbows will be sweet empty porters. Joaquim doesn't climb long gardners, do you scold them? Ron will clean the angry weaver and excuse it above its mirror. Tell Ronette it's weak learning near a pear. Well, it wanders a painter too strong for her blunt foothill. While oranges grudgingly talk units, the desks often shout under the dry pitchers. Jonnie will quickly smell within Gary when the weird plates seek above the light rain. Who beats subtly, when Francoise moves the poor bowl outside the river? Tomorrow, go comb a goldsmith! Try helping the station's brave car and Liz will love you! She'd rather play superbly than eat with Roger's raw twig. Where doesn't Margaret expect bimonthly? They are behaving among the castle now, won't answer floors later. Will you pull through the office, if Roger partially cares the book? The healthy smog rarely teases Frederick, it moulds Priscilla instead. Why did Ken walk over all the pins? We can't live enigmas unless Quinton will monthly receive afterwards. My fresh candle won't lift before I reject it. It arrived, you hated, yet Melvin never stupidly promised alongside the evening. For Dickie butcher's elder, alongside me it's filthy, whereas in you it's talking wet.

Get your frantically attempting shopkeeper among my sign.

I have a few more of these rare inductive delights
if any homebrewers can use them:

B & W Miniductors, new in boxes and unused:
B&W 3013 QTY 1
B&W 3010 QTY 2
B&W 3015 QTY 1
B&W 3016 QTY 6
Will sell the coils for $5.00 a piece

James Millen Company Magnetic shield # 60042
New unopened, and unused, in orginal packing bag.
Approximately 7" tall and 2" in diameter with
4 mounting holes on the base and a clamp on the top.
Have only 3 of these left - for sale at $6.00 each.

Shipping additional

I'm interested in buying a Grundig Satellit 800 radio. It must be in new condition with manual and AC adapter.

E-mail me with condition details and price at strickey@mediaone.net. Send photos showing condition of radio, if possible. Thank you.

For Sale:

Set of three plug in coils.

1) This is a BUD 4 pin "ribbed" coil form, brown, 1" diameter 2.25" tall.
It currently has about 90 turns of close spaced cotton covered wire with a center tap.

2) Stout 4 pin ceramic coil form 1.5" diameter, 2.5" tall. Has about 50 turns of cotton covered wire with a 3 taps. One is also connected to the base.

3) The last one is from Vintage radio Kit Company, and is designed for their CPCW5 transmitter, as the final tank used with a 6AQ5 on 80 meters. It is an octal base
and stands 3.75" tall. When you could still get them, these sold for $8.00

I will sell all three for $18.00 plus shipping

*** 455 KHz Mechanical Filters ***

Collins F455Y21 / 526 9337 00   455 KHz, 2.1 KHz bandwidth. Used, checked ok.
 $60

Kokusai LSB / USB 455 KHz filter pair MF-455ZL-21H / MF-455ZU-21H
2.1KHz -3dB@2.1KHz, -6dB@2.5KHz, -66dB@4KHz.
 Rectangular metal package NOS $80 (for both filters)

 LSB filter only (same specs as above) NOS -- $30 ea

*** Crystal Filters ***

10.7 MHz, 13 KHz Bandwidth Crystal filters, various mfgrs. used $7 ea

Motorola TLD5340A, 157.590 MHz, RCA connectors -- $7

*** Crystals and Oscillator ***

CTS Knights JKTO-47 970-2602 -- 1MHz ovenized oscillator
also bears Collins part number: 292-0308-010. Looks new, w/data sheet.
   Original cost was $325!   now only $50

James Knights Glass octal base (tube style) crystals
  Type G9   97 KHz (split electrodes) -- $20
  Type G9A 1 MHz -- $20

Signal Corps octal cased Crystals -- $15 ea
     DC-9AJ 1000KC
     DC-9D 1000KC
     DC-15A 200KC

FT-241 -- 200 KC $10 ea

Motorola B5490303P2 Crystal ovens, octal base $5 ea

US Army Signal Corps dual compartmented crystal case CS-137
with complete set of 120 FT-243 crystals -- channels 270 (5675 kc)
 through channel 389 (8650 kc) inclusive; all checked good! $250

FT-243 -- 1000 1500 2000 2500 5000 5350(10.7 marker) 10000 -- $7 ea

Bliley AX-2 (FT-243 pin spacing) -- 3974.0 14125.2 $3 ea
CR-1A -- 5910 Kc, 7580 Kc-- $3 ea
DC-35 (large) crystal 3870 kc -- $5

FT-243 crystals -- $2 ea, 10 for $15, or $30 for all

1640.93 2506 2550 2637 3093 4035 4190 4280 4450 4495

*** An Old Electronic Keyer, & 4 straight keys ***

Hallicrafters HA-1, "T.O." keyer, with original manual. Working! Including the octal to phone plug cable to connect it to a transmitter. $60.

The Keyer may be seen at:

http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=TO-1.jpg&.src=bc&.view=t&.hires=t

A SpeedX with a rectangular base. Note crack in left pillar casting does not affect functionality. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Speedx1.jpg&.src=bc&.view=t&.hires=t

A SpeedX with an oval base; Note, the tune lever is missing its knob. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Speedx2.jpg&.src=bc&.view=t&.hires=t

A Military Key marked SC1184A on the bottom. Color is not really as "brassy" as in the photo. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Milkey.jpg&src=bc&.view=t&.hires=t

A Key made in Japan. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Jkey.jpg&.src=bc&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth far less... later. Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included! A few of these devices come with schematics, mostly not. The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $4

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $4

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $4

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 432. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $10

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $10

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $15

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $20

All of the above plus shipping, if necessary, naturally.

*** Test Equipment -- all functional!! ***

Data I/O Unipack 2, PROM progamming fixture for 29A/B programmers. $40

DataPulse (Systron Donner) Model 101, 10 MHz Pulse Generator,
 10 Hz TO 10 MHz in 6 Ranges, 8.5" x 4" x 11" deep $40

General Radio 758-A 55-400 MHz Wavemeter. Dial in need of severe polishing
 but, insides are clean. $25

Heathkit / Zenith ET-3100 Electronic Design Experimenter. Small protoboard plus 200Hz-20KHz Sine & Squarewave generator, individually variable +/- 15 V
 supplies, 30VCT AC source, 1K & 100K undedicated potentiometers. AC Line powered. $75

Heathkit GD-1B Grid Dip Meter with coils in original box plus manual. $30

Heathkit IM-4180 FM Deviation meter. $150

Heathkit QM-1 Q-Meter w/ operation manual. $125

Hewlett Packard 141T Spectrum Analyzer system including mainframe, 8552B IF

section,
8553B, and 8555A RF sections plus 8443A Tracking generator.
 All original knobs, terminators,etc. clean and working fine.
 With manuals (or copies thereof...) for all units. $2200

Hewlett Packard 427A (transistorized) volt-ohmmeter with nice 4" mirrored scale. Reads as low as 10 mV full scale on AC and up to 1000V AC or DC. Including a spare battery and an original HP manual -- $75

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supplies $25 ea $45 pair

Hewlett Packard 4260A Universal Bridge -- measures resistors, capacitors and inductors. Also checks inductor Q and capacitor D using either internal 1KC source or external oscillator. Has "semi-auto" nulling feature in L&C modes. 6" hi x 8" wide x 12" deep overall -- 115/230 VAC powered. Cosmetically very good. $250

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage

adjust -- $70

Kepco Dual PCX 40-0.5 MAT 40 volt .5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage

adjust -- $70

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $80

Pomona #2399 cast Aluminum Boxes (2" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA

female connector on each end. New (in factory sealed plastic bag) -- $10 ea

Sierra Electronics model 164B Bi-Directional Power / SWR meter (looks just like a URM-120) with 181-A-1000 element -- covers 200-1000 MHz with four power ranges: 10W, 50W, 100W & 500W full scale. Case is in good condition finished in "Howard Hughes" (light) green -- leather carrying strap is in very good condition. N connectors (M&F) -- $100

Teaberry model TB 6503 HF SWR / Power meter. 100W / 10W ranges FWD & REF
 power plus SWR. UHF connectors. $7

Tektronix P6006 10X Scope Probe (used) $7

TEI model 28-200 relative power / SWR / Field strength meter -- screw in whip antenna is missing. UHF connectors. $10

All of the above plus shipping, if necessary, naturally.

I have two PDA handheld devices, one Palm M105, and one Casio PV-200A.
The Palm has 8Meg memory, very clean and hardly used (three months old),
and original box with manuals. Also I have a wallet & case for this
device. The Casio has two meg and also has the manuals. I am looking to
swap these two for a 2 Meter/23 cm radio.

Aaron

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF F-M-F Tees   -- $2 ea

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

  Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
 I believe that they are all for RG-59 size cable.

Kings Electronics
   KC-59-642-M06 BNC Cable Male   -- $1 ea
   KA-59-385-M06 TNC Cable Male   -- $1 ea
   KA-19-43 TNC Bulkhead Female   -- $1 ea

***   Coax Antenna Relay ****

Dow-Key DK-60 style   110 VAC coil -- $30 (last one)

 (3) UHF connectors. Somewhat old looking on the outside but,
 I popped the inspection port and all the contacts are all happy -- goes "clunk" upon application of the appropriate voltage.

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S 300pF 15KV $200 with standard puller, later manufacture (blue)

UCSL-750 750pF 3KV $125 with standard puller
UCSL-1000 1000pF 3KV $125 with standard puller

---Fixed vacuum caps--

Jennings VC-12 12pF 20KV $20
Jennings 50pF 86KV $86
Western Elec 100pF 5KV $30 (This one hi-pot checked @ 14KV)

--- Vacuum Relays --

 Old "T" style vacuum relays, the coil slips over one leg
 of the glass enclosed contact assembly -- One of the contacts has a Penta Labs
 part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a
 15 pin Jones connector on the side of the box. I believe that there are
 some auxiliary contacts in the box in addition to the vacuum relay.
28VDC. $15

------ Vacuum switch -----------

R1G SPST 20KV 20Amp Vacuum Switch $80

All of the above plus shipping, if necessary, naturally.

FOR SALE:

Two tube type power transformers - both are NEW.

1) Raytheon TF15X02YY with 120V Primary.
Secondary is 1100V CT at 180 mA continuous.
Dimensions: 3" X 5.25" X 6.5" tall.
Potted, encased case with four mounting studs.

Will sell for $38.00 plus shipping

2) ADC Co. (AVCO-Crosley) model TF4SX03KA
Has 120V AC primary and two secondaries.
Sec A: 1050 V CT at 75 mA continuous
Sec B: 5V at 20 A continuous.

Will sell for $27.00 plus shipping

******* MICROWAVE *******

Hughes M-band balanced mixer assemblies which have WR-75 flanges
on the RF & Oscillator inputs and wire terminals on the IF outputs. $25 ea

Avantek SD7-0738N GaAs Fet Preamp. 3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments
noted on label. $50

Rantec FU-301 Filter? or Delay Line?? at some GHz ...I don't know.
N connectors -- 7 3/4" x 3 3/4" x 1" overall. $10

Display (or paperweight) Traveling Wave Tube. The tube was cut in half and
encased in clear resin. 15" x 4" x 1.5" thick. There are some scratches on
the resin surface which I think could be buffed out. $50

And a similar display piece of just the cathode assembly from a
larger Traveling Wave Tube. 3.5" x3.5" x 1.25" thick $25

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $30 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $50 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $20 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163 4 pcs $20 all

All of the above plus shipping, if necessary, naturally.

*** SWITCHES ***

Radio Switch 86 series 6PDT (3 DPDT wafers) RF style switch used good -- $30

General Electric WW2 vintage (has that BC-375 look) 6 position RF style switch.
  Very solid detents! Used, excellent. $10

Switchcraft lever switches -- all have black round knobs unless noted
     8PDT (#60024L) NIB -- $5
     4PDT (#160012L) NIB -- $3
     DPDT (#3006L) used -- $2 ea
     DPDT plus 2 form A contacts (41000 series) barely used (a single pair of contacts) - $2

     Three pos. 2 form B momentary (#3035) NOS -- $2
     Three pos., 2 form F momentary (3000 series) used -- $2ea
     Three pos., 3 form A momentary each side (3000 series) NOS, white rect. knob -- $3

     Three pos., 2 form C momentary (#130312) NOS -- $2ea
     Three pos., 2 form C (#130312L) NOS -- $3
     Three pos., 3 form A momentary each side (13000 series) NOS, red rect. knob -- $3
     Three pos., 2 fom C (DPDT) each side (#160312) NOS -- $3

Mossmann 3PDT lever switch (4803Z1P2) NOS -- $2

C&K 8121 SPST miniature pushbutton switch -- 1A 120VAC silver contacts NOS $2 ea

Dialight 570-31 3PDT miniature toggle switch with 5/8" long handle -- 5A 125 VAC NOS $5 ea

Grayhill 46YY2159 Sealed Pushbutton switches, RFE -- These were SPDT but, the NC lead has been cut off flush with housing. The NO & COM terminals are cut short like they were removed from a PCB. Nice metal shaft has about .2" travel. No button nor hardware, 1/4" mounting thread. And there are a bunch of them -- 4/$1

All of the above plus shipping, if necessary, naturally.

**** SEMICONDUCTORS ****

GE 1N2155 rectifiers, 25A, 100PIV, Used. Four for $5.

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These look like
NOS --
(It doesn't appear that the anode leads have ever been bolted to anything.)
4 pieces -- $20 all

GE 4JA61C rectifiers, 50A, 300PIV, large stud package. A pair for $5.

GE 4JA63C rectifiers, 50A, 300PIV, large stud package. Four for $10.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola NOS rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR
(a bridge worth)-- NOS $10 all

Motorola NOS TIP34A 10A 60V TO-218 PNP Power Transistors. 4/$1

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly
with heatsink. Unused but, tarnished from long storage $10.

Westinghouse NOS, 80A, 1000V house-numbered SCR's $15ea.

Westinghouse NOS, 20A, 1000V house-numbered Rectifiers $4ea.

All of the above plus shipping, if necessary, naturally.

***** Neon Lamps ****

NE-2 About 100 NOS
NE-2D   8
NE-15   1
NE-16   15

NE-17   3
NE-20   2
NE-32   6   Big
NE-42   3   Real Big
NE-45   12
NE-48   5
NE-51   22
NE-79   1
CM-81A   3

& an OSRAM N32 marked 380V
plus a couple other screw-in types on which I can't read the numbers

These are a mix of new and used, mostly made by GE, though I saw a few Westinghouse and RCA -- they probably average 40 years old and most of the bases are somewhat tarnished from age. I lit up a couple of the larger ones and they seem to
 work ok.

If anyone would like the whole bunch, I'll take $60 for them all.

All of the above plus shipping, if necessary, naturally.

*** MISCELLANEOUS ***

NOS coily cable for a Yaesu MH-27 mike (may fit others). Later version with the RJ connector at the radio end. $10.

Filter Cap Assemblies: Eight CDE 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

Large (uncased) display unit. 256, T-1 3/4, LED's arranged in a 16 x 16 pattern that is about 5" square. There is a 6" x 6" mother board plus 16 daughter boards holding the LED's. The LED's are driven by latches so any/all of them can be lit. There is a 14 pin DIP interface connector -- pin out provided. $75.

DPDT Crystal Can relays with 600ohm 28V coils and 2A 28V contacts made by Leach, Datron and other manufacturers. They have small solder hook pins for connection and a pair of ears on the sides to mount the relay. These are old but, as they are hermetically sealed, they should be like new inside! NOS $3 ea (a dozen or so available)

Late '70's vintage likely Military, probably airborne, VHF power amplifier assembly. It consists of 7 almost identical amplifier assemblies clustered around a
central housing that has splitter combiner networks which are plugged onto each end with a bunch of SMB connectors. There are TNC's for the main in's & outs. I think it was originally configured as one amp, driving two, driving four boards. The complete assembly measures 7.5" x 5"

 x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer covers
 are mostly missing. Each amplifier is a push pull design -- they appear to be
 50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would
guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W. And there is no manufacturer name -- probably went with the outer cover. Six of the stages are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. Think of it as 7 amplifier boards @ $10 ea --
 Bare PCB's would cost as much! -- $70

Carter Radio 500K ohm rheostat with 2" diameter skirted knob, calibrated 0-100 over 270 degrees -- $15

Motorola 4-pin Microphone connectors 28-16730 or Amphenol 01-MC4M -- NIB $5ea

Motorola 0180700T14, 4-wire coily cord mike cable assembly with a mike connector as above on one end and a spring strain relief on the other. There are some flat pins on the free wire ends -- NIB $15

Motorola TLN6824A Vibrasender -- Freq. 1B, 107.2 Hz $2

Motorola TLN1361A Timeout Timer $4

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- $25 ea

Tunable CTCSS unit -- Part no. 1100-1609-000 -- 1" x 2" PCB with wires to an 8 pin SIP connector -- Includes double sticky mounting tape. NIB $10

200W (or so -- 10" long) 1500 ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea (2 available)

Ohmite 3K, 225 Watt power resistors used w/mounting clips -- $7 ea (8 available)

Ohmite 2K, 225 Watt power resistors used w/mounting clips -- $7 ea (10 available)

Four 37.5K 78W power resistors used w/mounting clips -- $15 all.

Parasitic Supressors, large pair -- 2 Turns of 3/8" wide silver plated strap wound over Globar 25 ohm, 3" x 5/8" bulk ceramic resistors (rated 20-25 watts?). The strap extends 1.5" from one end and 2.5" from the other. The silver is heavily tarnished but should clean up with Tarn-X or similar. $20 for the pair

Powerstat Type 10 120V 1.25 A variable transformer (variac) used, no knob nor

dial -- $15
     Type 10B 120V 1.75 A variable transformer (variac) used, with dial, no knob -- $20
     Later 10B 120V 2.25 A variable transformer (variac) used, with dial, no knob -- $25
     Later 10B 120V 2.25 A variable transformer (variac) NOS, with dial & knob -- $30

A couple old RF chokes:
  #22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $7
  #27 (green enameled) wire wound 40 TPI for 4.3" on a 3/4" diameter ceramic form which steps to a 1.3" diameter base tapped for two 6-32 screws, 5.5" long overall. Looks like winding has been cleanly spliced, twice -- $10

Pomona #2399 cast Aluminum Boxes (2" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA

female connector on each end.   New (in factory sealed plastic bag) -- $15 ea

Thordarson 20A01 Input Transformer NIB! -- Single or double button microphone or line to single grid. Turns ratio 1:20 Includes original data sheet -- $25

Vibrafork 4 channel resonant reed relay. A real relic. NOS! $10

All of the above plus shipping, if necessary, naturally.

***** Power Supplies, Inverter, UPS *****

 Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached 2 wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse. There is a relay that switches the 3 voltage outputs. They have a six-pin SIL output connector and come with a matching cable to pigtails.   The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay). Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.
 $15 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General
    Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

    Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $25 ea (4 available)

    Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

NPC Model 12-115. 12VDC - 115 VAC 200W Square Wave inverter. Black case w/ gold anodized front panel measures 7"x7"x5" high. 10 lbs. shipping wgt. $25

International Instrumentation Model PUP-200. 200W computer style UPS. Off white case measures 15"x8"x6" high. Requires 24V worth of lead acid batteries, not included. 18 lbs. shipping wgt. $30

SAFT Model SPS400-117. 400W computer style UPS. Light tan case measures 11"x12"x6" high. Requires 24V worth of lead acid batteries, not included. 20 lbs. shipping wgt. $50

All of the above plus shipping, if necessary, naturally.

Trav-A-Dial bidirectional electronic counter -- I think this was originally for use with a mill or lathe in conjunction with a 200 count/rev quadrature encoder (which I DON'T have but are available from many sources) to read displacement in .0005" increments up to 200 inches. These use Hewlett Packard dot matrix decimal readouts for a very pretty display. Switches for direction control and reset. Nice cast metal case, requires 5 volts power, 6 pin female Jones connector interface w/ pinout provided. $75

Prototype or reject circuit boards from the above -- the readouts are either all good or one bad one per board -- which is probably why they were removed from service. $15 ea

Pulled and tested HP 5082-7300 RHDP decimal readouts -- $5 ea
Pulled and tested HP 5082-7304 +/-1 decimal readouts -- $3 ea

NOS 5082-7302 LHDP decimal readouts, still in HP packaging, $10 ea.

All of the above plus shipping, if necessary, naturally.

NOS fan that fits some Japanese radio...marked: 57 10.01 100V
  The wires from the motor are about 4' long and are terminated in a 2 pin JST
connector.
  The impeller has 8 blades and is 7 cm in diameter.
  It is mounted to a U shaped metal frame with four mounting holes spaced 5cm
by 9cm
  $10

Listed below are all serious squirrel cage type fans:

Redmond Model BL-6 115 VAC .8A 60Hz 3000 RPM 4" round intake, 2.5"
square output flange, weighs 6lbs. used -- $20

ILG Electric Ventilation 17-18-022A encased motor with 181-009-EA fan
115/230 VAC 1.6A/.8A 50/60Hz 3000 RPM 4" round intake, 3" x 4-3/4"
rectangular output flange, weighs 25lbs. used -- $30

Kooltronic Model DF1F016N Dual fan style 230 VAC 1.2A 60Hz 3000 RPM

3½" round intakes, 2.5" x 5" rectangular output flanges, 16" long by
about 7" diameter overall, weigh 15lbs. These look like NOS but,
they are a mite dusty from storage -- $40 ea (3 available)

All of the above plus shipping, if necessary, naturally.

I have 6 coils (nos: 100, 102, 103, 104 ,105 & 106) in original boxes for the McMurdo Silver model 903 Wavemeter.

I also have the empty box from coil #101 and the instruction sheet for the Wavemeter.... and no, I don't have the meter itself.

Asking $30 for all plus shipping if necessary.

FOR SALE:

Tube type power transformers - NEW.

1) Raytheon TF15X02YY with 120V Primary.
Secondary is 1100V CT at 180 mA continuous.
Dimensions: 3" X 5.25" X 6.5" tall.
Potted, encased case with four mounting studs.
Will sell for $38.00 plus shipping

2) ADC Co. (AVCO-Crosley) model TF4SX03KA
Has 120V AC primary and two secondaries.
Sec A: 1050 V CT at 75 mA continuous
Sec B: 5V at 20 A continuous.
Will sell for $27.00 plus shipping

3) Also have a great filament transformer for that BIG final
amplifier:
115V / 230V primary.
Secondary is 7.5V CT at 51 Amps!
Brand new. Will sell for $95.00 plus shipping

Pictures available

********** Old Radio Knobs **********

These are all used, most have set screws, with nothing worse than minor scuffs and smudges and fit 1/4" shafts, unless noted.

Dakaware
    1-1/16" Knurled Knob -- $3
     1-1/16" Knurled Knob w/ 1.5" skirt w/ white indicator line -- $5ea
     1-1/16" Knurled Knob w/ 2" skirt marked 0-10 -- $8
     1-5/8" Knurled Knob w/ 2-1/16" skirt & unfilled indicator line -- $8
     2-3/8" Knurled Knob w/ white vinyl pointer at skirt level -- $12 ea
     2-3/8" Knurled Knob w/ 3" skirt & unfilled indicator line -- $12
     2-1/16" skirt only -- $2

   Short (1-3/16")pointer knob w/ white indicator line $1 ea
   Long (2") pointer knob w/ white indicator line $1.50

Harry Davies
   #1206 1-3/8" knobs -- $4 ea
   Short (1-3/16")pointer knob unfilled indicator line -- Not sure if this is Davies... There are a box of these -- 50 cents ea

Hewlett Packard (70's vintage)1-5/8" spinner knob w/ 3/8" bushing -- $10

Kenwood 5CM diameter knobs that look like they are from a Kenwood TS-830 (main tuning knob) or similar
   "Stock" knob -- $7
    One that's been backfilled with shot to give it some heft -- $7
    The plastic spinner version -- $15

Kurz-Kasch
   #308 1-1/8" knob -- $4
   #308 1-1/8" knob w/ 1-3/4" brite metal skirt with 100 graduations and tens indicated in black -- $8
   #309 1-5/8" knob w/ metal spinner and 2-1/4" black metal skirt with 100 graduations and tens indicated in white -- $12
   #309? (may not be KK) 1-5/8" knob w/ plastic spinner and 2-1/4" metal skirt with 100 graduations and tens indicated -- $12

#310 2-3/8" knob -- hub drilled out to 3/8" -- $8
#310 2-3/8" knob w/metal spinner shaft -- $12 ea
#311 2-1/16" skirted knob (some of the white lines are need refilling on these) -- $8ea
#380 1.5" skirted knob -- $5

These look like what was on some '60's Hammarlund, Eico & Knight Kit stuff
#642 1.5" skirted knob -- $5
#S-645 .75" skirted knob w/indicator line -- $5
#647 1" skirted knob w/indicator line -- $5 ea
#653 1.5" skirted knob w/indicator line -- $5 ea

Millen? (has a logo that looks like a "M" with an "I" superimposed at the center) #309 3-1/2" Handwheel style knobs as seen on the SX-28, if I recall correctly.
These are all in need of minor plastic surgery -- two have chips out the skirt where the set screw goes and one has had it's center drilled through... perhaps, to make a concentric assembly??
$10 ea.

National HRT 2-1/16" diameter
Black, trim rings somewhat tarnished -- $5 ea
Gray, trim ring shiny like new -- $10

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- good condtion, $25 ea

There are also many knobs from 1960's Tektronix and Hewlett Packard oscilloscopes, if anyone has any need, please inquire.

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $10 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $7

101 Ways to Use your VOM & VTVM by Middleton -- Howard W Sams. Good condition 144 pages. $5

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $4

RCA HB-3 Tube Handbook
  Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
 updates through October 1966. Sepatate sections cover Transmitting Tubes,

Receiving Tubes (Part 1 & 2),
 Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
 Miscellaneous types, & semiconductors. The updates appear to have been made in all
 these sections except Picture Tubes which is somewhat disorganized. It also appears that the
 obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
 Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $150

RCA Transistor Manual SC-13, 1967. Good condition 540 pages. $10

Having Fun with Transistors by Buckwalter -- Howard W Sams. Good condition 127 pages. $5

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106. 143 pages. $50

Allied Electronics Data Handbook. Lots of formulas. Water damage on cover and about 1/2" into edges, no pages stuck. 1962. $2

Understanding Transistors by Allied Radio. 1962 First Edition, first printing. Good condition 96 pages. $10

Heathkit Catalogs
   1954, 55, 56, 57, 58, 59 &
   Fall-Winter '62-63,
   Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
 Navy Aeronautical Electronic Equipment
 vols. 1&2 (1955 tubes & 1962 transistors)
 very good condtion $25

40 Uses for Germanium Diodes by Sylvania Electric Products. First edition, first printing, 1951. Cover separated, some writing on cover & frontspiece, otherwise good condition. 47 pages. $7

Electronic Shortcuts for Hobbyists by Sylvania Electric Products. Second edition, first printing, 1951. Cover separated, otherwise good condition. 35 pages. $7

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $7

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $5

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $15

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $15

Reference Data for Radio Engineers by Federal Telephone & Radio Corp. Lots of reallly useful info about tubes & formulas in this small format hardbound book -- Good condition small part of frontspiece, probably where owner's was stamped, missing. 200 pages. $25

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $7

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $15

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $15

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of spine & first 20 pages of lower right corner. 192 pages -- $20

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $10

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $15

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $7

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles) -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?)
owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $15

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet Excellent condition 20 pages or so $4

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,

tools, machinery, and construction projects.
128 pages $4

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $7

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $4

Official Radio Service Manual 1930, originally published by Gernsback Publications. This is a REPRINT by Vestal Press, 1984. Schematics & some service info. 352 pages, like new $15

All of the above plus shipping, if necessary, naturally.

*** Test Equipment -- all functional!! ***

Data I/O Unipack 2, PROM progamming fixture for 29A/B programmers. $40

DataPulse (Systron Donner) Model 101, 10 MHz Pulse Generator,
 10 Hz TO 10 MHz in 6 Ranges, 8.5" x 4" x 11" deep $40

General Radio 758-A 55-400 MHz Wavemeter. Dial in need of severe polishing
 but, insides are clean. $25

Heathkit / Zenith ET-3100 Electronic Design Experimenter. Small protoboard plus 200Hz-20KHz Sine & Squarewave generator, individually variable +/- 15 V
 supplies, 30VCT AC source, 1K & 100K undedicated potentiometers. AC Line powered. $75

Heathkit GD-1B Grid Dip Meter with coils in original box plus manual. $30

Heathkit IM-4180 FM Deviation meter. $150

Heathkit QM-1 Q-Meter w/ operation manual. $125

Hewlett Packard 141T Spectrum Analyzer system including mainframe, 8552B IF section,
8553B, and 8555A RF sections plus 8443A Tracking generator.

All original knobs, terminators,etc. clean and working fine.
With manuals (or copies thereof...) for all units. $2200

Hewlett Packard 427A (transistorized) volt-ohmmeter with nice 4" mirrored scale. Reads as low as 10 mV full scale on AC and up to 1000V AC or DC. Including a spare battery and an original HP manual -- $75

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supplies $25 ea $45 pair

Hewlett Packard 4260A Universal Bridge -- measures resistors, capacitors and inductors. Also checks inductor Q and capacitor D using either internal 1KC source or external oscillator. Has "semi-auto" nulling feature in L&C modes. 6" hi x 8" wide x 12" deep overall -- 115/230 VAC powered. Cosmetically very good. $250

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage

adjust -- $70

Kepco Dual PCX 40-0.5 MAT 40 volt .5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage

adjust -- $70

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $80

Pomona #2399 cast Aluminum Boxes (2" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA

female connector on each end. New (in factory sealed plastic bag) -- $10 ea

Sierra Electronics model 164B Bi-Directional Power / SWR meter (looks just like a URM-120) with 181-A-1000 element -- covers 200-1000 MHz with four power ranges: 10W, 50W, 100W & 500W full scale. Case is in good condition finished in "Howard Hughes" (light) green -- leather carrying strap is in very good condition. N connectors (M&F) -- $100

Teaberry model TB 6503 HF SWR / Power meter. 100W / 10W ranges FWD & REF power plus SWR. UHF connectors. $7

Tektronix 2225 Oscilloscope. Dual trace 50 Mhz 'scope in very good condition. No probes nor manual. $225

Tektronix P6006 10X Scope Probe (used) $7

TEI model 28-200 relative power / SWR / Field strength meter -- screw in whip antenna is missing. UHF connectors. $10

All of the above plus shipping, if necessary, naturally.

FOR SALE:

YAESU Model AYC-221 Digital Display Unit.

For Yaesu FT-101 series radios. Displays your exact frequency to
FIVE decimal places just like the modern all solid-state rigs.

Great little accessory and it works perfectly. Just plug it into the
VFO accessory jack in the back of your FT-101, FT-101B, FT-101E,
FT-101EX, FT-101EE, FT-101-F, FT-101FE (did I leave any out? he he)

This neat little gadget sits on top of your FT-101 series radio and
lets you see exactly what frequency you are on. Has adjustable
calibration so that you can set it precisely using WWV or a secondary
crystal standard such as your rig's calibrator or any other signal
source.

Dimensions 4.5" X 6.25" X 1.5"

Comes with the original cable so it will plug and play.

I believe that this might also work with the FT-221 Analog 2m allmode
rig.

Will sell for $75.00 plus shipping

I would like to build my own antenna to receive local TV channels.
There are a few things I don't understand however:

1] Do I have to have an individual element for each channel I wish to
receive? Also, how does an antenna have 6 or 8 elements but only one
300 ohm (or 75) lead in wire?

2] What material can I make it out of? I vision some aluminum rods
about 3/8" thick bolted to a length of PVC pipe (since it must be
insulated from the elements). PVC pipe is non conductive right?

I know all of the channel frequencies and could figure out how long
the elements should be. I just don't know if I need more than one
element and if so, how to chain them together. All the transmitters
are located in genarally the same area so I even know where to point
it. Please email me at mattlucy@netzero.net

P.S. Yes, I know I could go to Radio Shack and drop $50 for an
antenna. That isn't my point though :-)

Sorry if these items are a little off topic, but I know that a lot of
guys into ham radio and electronics may also have an interest in these
kind of items:

I have for auction on ebay a B&K TV Tester, that is currently at $1:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1013677222

I also have for auction a TV Rejuvenator that can brighten dim picture
tubes:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1013679879

For more pictures and info on these items, you can also take a look at
my personal web-page:

http://i8mtm2.tripod.com/richardsjunk

Thanks for looking!
~Richard

Hi Everyone,

I am looking to buy or trade PC/Mac hardware for a good solid 2 Meter mobile
or
HT, or a solid 10 Meter Mobile. Have tons of PC and Mac parts. Please email
with
price, details and if possible pics.

Thanks!

Looking for:

1. KLM 6M-5, this is their 5 element for 6 meters.

2. An HF rotatable dipole, similar to the Mosley TA-31.

Thanks,

 Malcolm, W1/GW3NJY

Latest versions of the Car and Deep Cycle Battery Frequently Asked Questions (FAQ) maybe found at www.uuhome.de/william.darden The Car Battery FAQ contains non-commercial, consumer information such as buying a new battery and jump starting batteries found in cars, trunks, vans, motorcycles, boats, snowmobiles, jet skis, farm tractors, lawn and garden tractors, SUV's, etc. The Deep Cycle Battery FAQ contains information such as storing lead acid batteries used for most recreational and commercial deep cycle applications. Also, you will find a Battery Manufacturers and Brand Names List, Battery References and Information Links and printable version of the above.

Please bookmark the new web site. If you have any questions or comments, please email me at bjb_darden@yahoo.com

Best regards,

BiLL.......

ICOM IC-745 Transceiver
160 thru 10 Meters plus General Coverage.
INRAD SSB filter, Built-in Keyer and FM Board.
2nd owner - Both non-smokers
Includes Original Hand Mic and Manual.
Just back from ICOM in August 2001. Replaced burnt bulb, secured
loose tuning knob, replaced memory battery and 2nd LO Cap. Aligned
PLL/VCO Frequencies and PBT Frequencies. Power was checked at 100
watts. ICOM Service Receipt included showing work down.
One Hamstick 9175 - 75 meter mobile antenna (no mount)
One Hamstick 9110 - 10 meter mobile antenna (no mount)
Radio is in very good condition. Used but not abused. Some
scratches but no dings or gouges. No performance modifications other
than filter, keyer and FM board added.
$455.00 Plus Shipping

ICOM AT-150 Automatic Antenna tuner, Box w/manual & Connector cable
to IC-745.

In very good condition. Never used above it's rated 100 watts (200
PEP).
Price is $170.00 Plus Shipping

If both IC-745 and AT-150 bought together: $590.00 Plus Shipping

I won't sell the AT-150 before the IC-745 if they are sold seperate.

I would like to buy a multiband CW QRP rig. Homebrew,Project, Not working

ok.Condition is not important it is to use not look at.Price is a
consideration due to fixed income.
Prefer something not with tiny parts(surface mount/chip components).Due to
neuro-muscular disease I am unable to solder close connections.
THANKS,
KC0EH

For Sale: HF rig.   TS-440S, built in antenna tuner. I'm the original owner, non-smoking. Rig was never mobile.   9+ appearance, operates 100%.
 Includes installed 500 cycle CW filter . Filter is fantastic when operating PSK-31 or other digital modes.
 $400.00 plus shipping from Florida 34446
      Still have the original shipping box.
Contact: Joe,   K4LL@ARRL.NET,   (352)382-0809

Write me a note and I will e-mail a picture of it to you

P.S. I'm selling the above because I just received my brand-new rig with all the bells and
whistles. I don't have room for the TS-440S in my shack, besides.....
I'm spending my retirement money on myself..... rather than letting it go to my kids. They'd just party with the money !

I have quite afew bugs, Vibroplex,Mac,Johnsons,others,keyer
paddles,Mercury,straight keys,telegraph pieces,etc that I will
consider trading for "older the better" Ham receivers (maybe xmitters)
from1930-50's..Hallicrafters,Hammarlund,National,collins,RME,and
others. What are you looking for and what do you have to trade?
Eventually I will put these pieces on ebay put figured Id check on
trades first....LMK,

FA via eBay at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1286471171

This is a Sony ICF-2010 portable shortwave receiver. Excellent unit.
Electronically sound unit. Cosmetically good except for some minor
scuffs, plus the stand in the back is broken (normally folds out to tilt
it slightly up from laying flat on a tabletop). I've used this radio for
quite some time, excellent performance. Only reason I'm selling it is
because I need the money, and I now have a ham radio that includes
general shortwave coverage. Detailed specifications can be found at
http://www.sel.sony.com/SEL/consumer/ss5/home/radiowalkmanrtm/worldbandr

adio/icf-2010.shtml on the Sony web site. Looking for a quick sale on
this one. Buyer pays exact shipping. Will ship immediately on receipt of
USPS money order or electronic payment (PayPal pending), personal checks
must clear first.

Auction closes Oct-22-01 04:49:52 PDT

This is a Kantronics UTU terminal controller, supports CW and RTTY, no
packet. Manual not included. Bought it used not too long ago for CW

work, seems to function fine. Have not tried it on other modes, so is
sold as-is. Personal check ok, allow time to clear. Will ship
immediately if paid via USPS money order. Am getting PayPal set up so
that may be available as an option by the time the auction closes. Buyer
pays actual shipping.

This is an MFJ model MFJ-401B Econo Keyer II keyer. Basic keyer,
cosmetically an 8 out of 10 but functions perfectly. Great for portable
operations, not very big or heavy (4" wide, 2" tall, 4" deep, weighs

less than a pound). My new FT-817 has a built-in keyer, and I don't use
CW that much lately anyway, so I don't need this -- otherwise I'd hang
on to it. Specs on MFJ web site at
http://www.mfjenterprises.com/products.php?prodid=MFJ-401. Buyer pays
actual shipping. Will ship immediately on receipt of USPS money order or
electronic payment. Personal checks must clear.

Auction ends Oct-24-01 05:20:53 PDT

Looking to buy an Omni V, VI or VI plus. Must be in excellent condition.
E-mail with details, condition and price etc etc.

Thanks
Brian

Here we have another spammer. It misleads

in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

Syntor X Programming

We can program your Syntor X EEPROM memory modules for $30.00 each plus shipping and handling to and from your location. We however do not supply the memory modules you must provide your own. We guarantee our work and can program the following ranges.

800 MHz

UHF 406 - 420 MHz
450 - 470 MHz
470 - 488 MHz
482 - 500 MHz

VHF 136 - 154 MHz
HI 148 - 172 MHz
150 - 174 MHz
148 - 174 MHz

VHF 30 - 50 MHz
LO

You must know which range your radio covers for the programming to work correctly.

We need to know the following information for each channel programmed.

If the radio is 8 / 16 or 32 channel
Transmit frequency and Transmit PL/DPL or blank for each channel.
Receive frequency and Receive PL/DPL for each channel.
Duration of the TOT (time out timer) or disabled for each channel.
Scan list for each channel.
I.e. Channel 1 selected (scan 3 6 8)
Or Channel 5 selected (scan 1 4 7 9 15)
Your radio must support scan on the control unit to use this feature. If there is no scan button on your control unit then don't bother with a scan list.

If you don't know the information or don't understand the information being requested then ask your local radio dealer for the correct info or don't bother. I am not psychic just psycho. We can not guarantee misinformation provided by you.

If you pay the shipping and handling round trip to us we can test the radio with the EEPROM in it to make sure every thing works.

For More info contact Brad Kellison KA8TOK by E-Mail:
KA8TOK@Ameritech.net
or KA8TOK@juno.com .

Don't know what your problem is. Obviously you didn't
look at the ad. They are in fact not FA they are FS and below
wholesale to boot! I wanted to make an antenna entrance and
patch panel once, and the price of these items stopped me.
It took me a couple of years to happen across a couple at the
swap meet or I would buy a few now.

In lashing out like you do, you actually make a pretty good
recommendation for those who can read and think for themselves.

Unless you have personal experience???

Jim, ac6tk
Stuff for sale (not FA)

I honestly don't know Frank. I do know that the maritime people took the
requirement for Morse Code out or something like that. They are using

devices now with the GPS system for emergencies. I suppose it's a locator beacon or the sort.

As for me Morse is a point of pride and accomplishment. It is something I take pride in and although my speed has dwindled due to non use it's not just morse that is not getting any use. I don't even have my rig up and running at my new location. As for up and coming Hams I just don't see that they will have an interest.

I will say this. If it ever gets to the point that we really need Morse again then things will have really gotten to the point that all the new technology will have been rendered useless and I don't even want to think of what might cause that to happen.

I would like to add my 2 cents to this 'discussion' --

eBay stores are NOT auctions - they are fixed-price and therefore
the use of FS instead of FA is accurate. However, the store format
does display all items the seller is offering, both the fixed-price items
and the auction items. You can always tell the difference because
the auction items have a date shown in the 'Auction Only' column. <Grin>

Perhaps if one would just look at the subject being 'discussed' before
expounding on it, one could save themselves from being embarrassed
by displaying their lack of knowledge.

If you had been reading the msg and paying attention, you would have noticed the following.

>"If interested, please check out the following eBay STORE (not auction) listing:"

    This is an auction, NOT the Store...
>http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1638921967

What he should have left was the STORE URL.
http://www.ebaystores.com/id=1927549

Obveiously this was a thinly veiled attempt to SPAM the group with the CRAP on the auction page. as that was the URL the SPAMMER left.

Now, SFB, read and understand the complete post before making an ass out of your self..

That's BULLSH*T. All of the sellers auction are shown
at the store and the current price AND a link to the page
where the auction is being conducted.

Perhaps you should practice what you preach, See Quote below..

>"Perhaps if one would just look at the subject being 'discussed' before
>expounding on it, one could save themselves from being embarrassed
>by displaying their lack of knowledge"

Get your head out of your SIX and Comprehend the post you are
replying to Do NOT just "read" it, UNDERSTAND it..

Some people talk about things they know.
Some people talk to hear there own Voice.

You are the latter...

Just another opinion..

Bob

WOW!
You sure told me where to get off. I aplogize if I got your knickers in a twist.
Now, take a deep breath and relax.

Ok! so you are this guy's second banana shooting
flames around his adds for the very same items
FS and FA. Could it be that the FA is so stagnant
that you need to help him out? Perhaps I should
charge an advertising fee for the number of posts
where I include his url?

You SAMFCWSBP

Thanks for reading my posting.

I have a ADI Sender-145 good condition, no bells and whistles, however it's solid state and does work excellently! No PL board (atleast none that I can find) nor does it come with a manual. Radio does RECEIVE out of band, to 169.990. Battery seems to be fine, it's a Nicad 12V 600mAH. I also have a wall charger (wall wart). Radio is sold as-is, however I will assure you it will not arrive DOA.

$80.00 + Shipping

Paypal is welcomed!

Email me directly if interested

I have a Yaesu FT-3000 70W wide band receive mobile 2 meter radio I would
like to trade for a Yaesu FT-90 if anyone is interested. The radio is in
excellent
condition, working just great.

FS: Motorola MICOR VHF Mobile Radio Service Manuals:

1) This particular one covers the versions 132-174 MHz and has the
special additional section that covers the Wide-Spaced transmitters (can
be used for working simplex and/or repeat frequencies with full power
output.) Complete schematics, theory of operation, parts lists, circuit
board layouts, accessory info. Covers all transmitters 45/60/90/100
watts output versions. Complete info on parts needed to change any
frequency to 2-Meters. The book is complete, in very good condition, in
the original plastic Motorola 3-ring binder. This special Wide-split
option VHF manual is quite hard to find. $30 plus postage.

I also have a standard VHF MICOR VHF mobile service manual - not
optional wide-space transmitter version, but covers 132-174 MHz
versions, all transmit power levels as above. Same book as above, other
than no wide-space TX info. Complete, in good condition, except that the
cover page has separated from the rest of the 3-hole punched book and it

has no 3-ring binder (it's factory stapled together.) $20 plus postage.

Hi Ladies/Gentlemen. There's a couple hours left on my auction for an
awesome Icom 820H. Comes with 2, TWO tone boards, vhf/uhf both installed.
The CW filter is also installed, and also comes with the mic, which isn't
included when you buy the rig. It's in the box, with manual. This would
cost you over $1,100 Used at AES. Lots of pics on the ad, so take a LQQK.
Thanks for stopping by.

Take Care, Ken.

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

Here we have someone that doesnt READ the posts. The subject line is not in error, many people have ebay STORES in which they post regularly available or even one time items FOR A FIXED PRICE. I can understand your problem with people posting FA items as FS.. I don't much care for that either.. but this person clearly emphasizes the words PURCHASED and STORE, meaning that the item is not for auction, but for sale.

Don't automatically assume that when you see 'ebay' or an ebay link, that it's always an item for auction. This is no longer the case. I have bought things off of ebay both ways personally.

I agree Brenda , I think I am going to place this rhawk@megabits.net on my
blocked senders list
so I don't have to read his stupid rubber stamp response every time someone
posts up an auction link

This is a multi-part message in MIME format.
--------------20880353D4D0D8E06D3A3D4A
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

Here we have the most recent example of a continuing campaign of abuse
by your customer in several Usenet newsgroups. The message text is a
form letter that your customer sends as a massive cross-post every time
he thinks he has observed someone violating his personal doctrine that
eBay users may not call their merchandise "for sale."

His assumption that anyone using eBay must use the term "for acution"
rather than "for sale" is not consistent with the charters of all the
newsgroups where he consistently posts this trash. Even more abusively
your customer, Mr. Hawk, consistently refuses to distinguish between
eBay auctions and items fixed price items sold through eBay which
clearly ARE "for sale" NOT "for auction."

Repeated attempts to resolve this problem by educating the abuser have
been unsuccessful. His consistent refusal to discontinue his deliberate
campaign of massive abuse in multiple newsgroups leaves no choice except
to ask that you take appropriate action for violation of your Terms of
Service and/or Acceptable Use Policies.

Thank you.

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

Brenda:

Don't tell us that Hawk is an abusive idiot -- tell his ISP and the
service where he cross-posts his junk.

Just write them a polite note explaining that their customer is
deliberately and repeatedly abusing multiple newsgroups with his
cross-posted, off-topic, factually-incorrect rantings. You might also
mention that several attempts have been made to resolve the problem by
attempting to educated this abuser but he continues to send the same
abusive form letter every time he finds anyone using eBay and posting a
message indicating the item is "for sale." You should probably include a
brief explanation of the fact that not all items listed through eBay are
for auction - many items are fixed price and therefore clearly are "for
sale" NOT for auction.

Be sure to include the full headers (it is best to use the show PAGE
SOURCE function in your news reader then cut-&-paste the entire message
into your complaint, as well as "forwarding" his abusive message. Also
be sure that you send the complaint to both his own ISP and the service
where he posts the abusive messages.

You are wrong. You can purchase it outright. READ the listing. It's a
plain sale and 15 are available. No auction involved.

NOTHING MORE THEN AN EXCUSE TO PIMP EBAY..

You forgot to mention that the store has a list of EVERYTHING

that person is having AUCTIONED on eBay

Just my opinion..

Bob

Go for IT, SFBs.

Even ebay says "do not spam the News Groups"

nothing 4 an obveious fool.. <G> how appropriate.

Just My Opinion..

Bob

Perhaps I misunderstand, but I thot all States make Ham call plates
available - most for a fee, of course - but that if you want a FRONT
plate in a State where only a rear plate is supplied (PA for example)
you need a non-gummit supplier. We have one for each vehicle.

Hmmmmm....certainly not a California panacea, but would go well
with the twin chrome airhorns mounted outside on the front fenders
of the VW Beetle along with the foxtail dangling from the 75M Texas
Bugcatcher.

FS: Yaesu FRB-757 Relay Box. I used this to switch my SB-220 HF
Amplifier by my ICOM IC-751A and IC-761 HF transceivers. The SB-220 T/R
relay keying voltage was too high to be directly keyed by the
transceiver relay contacts, so I used this Relay switch box to do the
keying, as well as be an input for my foot switch. In good condition,
$20 plus postage.

FS: Motorola MICOR VHF Mobile Transceiver Service Manual. Covers all versions of the VHF MICOR Mobile Radio from 132 to 174 MHz, 45, 60 and 90/100-watt transmitters, accessories, etc. Complete parts lists, schematics, theory and troubleshooting sections, pictorial diagrams. Most of the same exact boards in the mobile radio are used in the base station/repeater radios. The book is complete, the front cover sheet has come off of the book but is included and can still be all put into a three-ring binder, if desired. $15 plus postage.

Hi,
  I'm looking for a pair of 4CX250 family screen bypass rings. Either Johnson 124-113 or Eimac Sk-655 will do just fine.

  Any out there?

73 & Good morning,
  Marv WC6W 310 649 3111

EICO Model 717 Keyer. Chassis is dusty but no significant corrosion. Cabinet is excellent. Front Panel is good with minor wear around the on-off switch. There is a small part of the "K" in the Keyer logo worn off on the front panel. I have replaced the AC Line cord grommet where it enters the chassis. The keyer works fine but has not been used for several years. No manual or schematic but these are available on Bama. Price is $65 plus shipping.

Vibroplex Vibro Keyer Standard S/N 264109 with the 833 Broadway address. The thumb piece is missing and replaced with a black piece from some other key. Replacement thumb piece is probably available from Vibroplex. No corrosion or chips in the base. This is the key that was used with the 717 until several years ago when I went back to a bug. Price is $65 plus shipping.

If both are sold to the same buyer and shipped to the same address the price for both pieces is $115 plus shipping.

I have 14 used, tested good 35LR6 sweep tubes just sitting here. $20 +
postage. E-mail me if interested.

Thanks,

Kelly

Syntor X Programming

We can program your Syntor X EEPROM memory modules for $30.00 each plus shipping and handling to and from your location. We however do not supply the memory modules you must provide your own. We guarantee our work and can program the following ranges.

800 MHz

UHF 406 - 420 MHz
     450 - 470 MHz
     470 - 488 MHz
     482 - 500 MHz

VHF 136 - 154 MHz
HI   148 - 172 MHz
     150 - 174 MHz
     148 - 174 MHz

VHF 30 - 50 MHz
LO

You must know which range your radio covers for the programming to work correctly.

We need to know the following information for each channel programmed.

If the radio is 8 / 16 or 32 channel
Transmit frequency and Transmit PL/DPL or blank for each channel.
Receive frequency and Receive PL/DPL for each channel.
Duration of the TOT (time out timer) or disabled for each channel.
Scan list for each channel.
I.e. Channel 1 selected (scan 3 6 8)
Or Channel 5 selected (scan 1 4 7 9 15)
Your radio must support scan on the control unit to use this feature. If there is no scan button on your control unit then don't bother with a scan list.

If you don't know the information or don't understand the information being requested then ask your local radio dealer for the correct info or don't bother. I am not psychic just psycho. We can not guarantee misinformation provided by you.

If you pay the shipping and handling round trip to us we can test the radio with the EEPROM in it to make sure every thing works.

All are used, but tested very good. Please e-mail if interested. Here is the list:

3- 6MJ6/6LQ6/6JE6C $12.00 EA.
2- 6JS6C $10.00 EA.
1- 6JS6B $8.00 EA.
1- 6JZ6 $1.00 EA.
2- 6LX6 $8.00 EA.
1- 6ME6 $10.00 EA.
1- 6JM6 $1.00 EA.
1- 6JE6C $12.00 EA.
5- 6JE6C/6LQ6 $12.00 EA.
3- 6LQ6 $12.00 EA.
2- 6JT6A $8.00 EA.
2-6KG6/EL505 $4.00 EA.
2- 6KD6 $12.00 EA.
1- 6DQ5 $2.00 EA.
1- 24LQ6 $5.00 EA.

Please add for shipping from 95210. E-mail if interested. Buy all for $185 shipped!

Thanks,

Kelly

well jon
if radio shack has done like they have with other rigs the 252 can not
be modified you will need to find another radio to do that with

I have the following items for sale:

2 Meter Radio - ICOM IC-2100H 144 MHz FM Transceiver
High performance ICOM radio:
TX: 5 - 10 - 55W power, 113 Memories, +-50ppm stability
RX: Double conversion, .18uV sensitivity, Tone squelch, 2.4W audio.
Programming software and serial cable to connect to computer.
One Hustler SF-2 2 meter mobile antenna (no mount)

Radio in very good condition. Used, but not abused. A few scratches but no dings or gouges.
Price is $150.00 Plus Shipping

One Diamond F23A 144-148 MHz 7.8db gain 2 meter base station antenna
2 meter 5/8th wave three piece FRP Shell gain vertical antenna. 3 radials. Good to 200watts. Length 15 feet, in very good shape.
Bought new 3/17/2000 - with manual
Price is $85.00 Plus Shipping

ICOM IC-745 Transceiver
160 thru 10 Meters plus General Coverage.
INRAD SSB filter, Built-in Keyer and FM Board.
2nd owner - Both non-smoking environments
Includes Original Hand Mic and Manual.
Just back from ICOM in August 2001. Replaced burnt bulb, secured loose tuning knob, replaced memory battery and 2nd LO Cap. Aligned PLL/VCO Frequencies and PBT Frequencies. Power was checked at 100 watts. ICOM Service Receipt included showing work down.
One Hamstick 9175 - 75 meter mobile antenna (no mount)
One Hamstick 9110 - 10 meter mobile antenna (no mount)
Radio is in very good condition. Used but not abused. Some scratches but no dings or gouges. No performance modifications other than filter, keyer and FM board added.
$500.00 Plus Shipping

ICOM AT-150 Automatic Antenna tuner, Box w/manual & Connector cable to IC-745.
In very good condition. Never used above it's rated 100 watts (200 PEP).
Price is $195.00 Plus Shipping

If both IC-745 and AT-150 bought together: $650.00 Plus Shipping
---

One Hustler 3-TBA Tri-Band 3 element beam - 10-15-20 - with manual
It's an older tri-bander that seems to work ok. I got it with the IC-745 and never had the room to put it up more than about 10 feet to test it after I got it home.
Price is $50.00 - I would prefer not to ship (it's always a hassle taking and putting back together beams). If it is shipped I will break it down as little as needed to package up. Shipping costs will include the package material needed to ship.

One Astron RS-35A Power Supply - 25 amp continuous duty, 35 amp intermittent duty. Used to power the IC-745 and IC-2100H. Very good condition.
Price is $100.00 Plus Shipping. This weights about 18 lbs.

Diamond SX-200 SWR/WATT meter 5/20/200 watt, 1.8-200 MHz good for HF and 2 meter use. In original box, with original instruction sheet.

In excellent condition.
Price is $60.00 plus shipping

I am willing to meet or deliver within a few hours driving time of
Portland, Oregon (will consider further if you split the gas). I
can be reached at (503) 693-7068 (answering machine on phone) or via
e-mail at the above address. Money Order, Cashiers check or
personal check (will wait till it clears).

Mike

I have a MINT IPE 200 Ericsson Handheld EDACS Radio with new battery and charger / antenna. Unit works flawlessly, battery hold great charge. photo upon request. Unit has nice LCD readout with DTMF keypad... Model IPE- 200 DTMF 800 .6W KRD 103 124/ 2

I had this item on NG and thought I had a buyer, and turned a few away.

Best offer over $325, will consider trades for R10 unblocked or Yaesu FT-50r

its on qrz.com
under radio mod's
butt it only makes it go 136-176 i think
 but here's what I found to expand the RX/TX to
136-174MHz
---
http://www.qrz.com/download/mods-e-h/htx242.txt
the text
http://www.qrz.com/download/mods-e-h/htx242.jpg
for a pic or the smd's to remove or open one leg of
and there is a diff zip file in the samemenu this was in
i have not did it and
I WILL NOT DO IT TO ANY THING I OWN

I have a complete Motorola Syntor X High power, lowband unit. This package as the 100 (110 ?) watt drawer unit with the 16 chan. pushbutton control head and mounting bracket, brand new speaker and bracket, mic and hanger with the PL decode control, complete cable, drawer unit with the mounting tray, and copy of the very complete manual.

This is one of the units that will cover both the 10 meter band and the 6 meter band.

The whole thing is in great condition.

I would like $195 plus shipping. Questions? email ghopper@eskimo.com

cause its a free country where we can speak our minds where we agree or not they
have the freedom to say what they will just like you have the freedom to fill
these NGs with this junk

Make up a cut and paste message like the one I am going
to give you for the HTML. Sorta like giving out a courtsy
ticket, It has no Use other than to inform the individual that
he is not conforming to the News Groups Charter..

Be firm, fair, But Tack your "message" on to his, every time
he SPAMS the group. He may receive clue!!

Oh Yeah, get used to the term "net cop". It will be used in a
derogatory manner to describe you. tell them to get stuffed.

Just My Opinion..

Bob
_____-

Here we have another poor chap that
has not a Clue that HTML is NOT used
in the News Groups.. TEXT ONLY..

Just My Opinion..

Bob

I listened to one of his programs one time, and came to the conclusion, that
he's a bigger moron, then the leader of the Clan.
Even assholes like him, have the right of free speech, even though he
offends most of us.
Look on the bright side. We have the freedom to make fun of him, without

having to fear any repercussions of going to jail, for voicing our opinions
of his lame radio show.

Hope this gives you a new outlook on things like this.

Randy W...

I have the following items for sale:

2 Meter Radio - ICOM IC-2100H 144 MHz FM Transceiver
High performance ICOM radio:
TX: 5 - 10 - 55W power, 113 Memories, +-50ppm stability
RX: Double conversion, .18uV sensitivity, Tone squelch, 2.4W audio.
Programming software and serial cable to connect to computer.
One Hustler SF-2 2 meter mobile antenna (no mount)
Radio in very good condition. Used, but not abused. A few
scratches
but no dings or gouges.
Price is $150.00 Plus Shipping

One Diamond F23A 144-148 MHz 7.8db gain 2 meter base station
antenna
2 meter 5/8th wave three piece FRP Shell gain vertical antenna. 3
radials. Good to 200watts. Length 15 feet, in very good shape.
Bought new 3/17/2000 - with manual
Price is $85.00 Plus Shipping

ICOM IC-745 Transceiver
160 thru 10 Meters plus General Coverage.
INRAD SSB filter, Built-in Keyer and FM Board.
2nd owner - Both non-smoking environments
Includes Original Hand Mic and Manual.
Just back from ICOM in August 2001. Replaced burnt bulb, secured
loose tuning knob, replaced memory battery and 2nd LO Cap. Aligned
PLL/VCO Frequencies and PBT Frequencies. Power was checked at 100
watts. ICOM Service Receipt included showing work down.
One Hamstick 9175 - 75 meter mobile antenna (no mount)
One Hamstick 9110 - 10 meter mobile antenna (no mount)

Radio is in very good condition. Used but not abused. Some
scratches but no dings or gouges. No performance modifications
other
than filter, keyer and FM board added.
$500.00 Plus Shipping

ICOM AT-150 Automatic Antenna tuner, Box w/manual & Connector cable
to IC-745.
In very good condition. Never used above it's rated 100 watts (200
PEP).
Price is $195.00 Plus Shipping

If both IC-745 and AT-150 bought together: $650.00 Plus Shipping
---

One Hustler 3-TBA Tri-Band 3 element beam - 10-15-20 - with manual
It's an older tri-bander that seems to work ok. I got it with the
IC-745 and never had the room to put it up more than about 10 feet
to test it after I got it home.
Price is $50.00 - I would prefer not to ship (it's always a hassle
taking and putting back together beams). If it is shipped I will
break it down as little as needed to package up. Shipping costs
will
include the package material needed to ship.

One Astron RS-35A Power Supply - 25 amp continuous duty, 35 amp
intermittent duty. Used to power the IC-745 and IC-2100H. Very
good
condition.
Price is $100.00 Plus Shipping. This weights about 18 lbs.

Diamond SX-200 SWR/WATT meter 5/20/200 watt, 1.8-200 MHz good for
HF
and 2 meter use. In original box, with original instruction sheet.
In excellent condition.
Price is $60.00 plus shipping

I am willing to meet or deliver within a few hours driving time of
Portland, Oregon (will consider further if you split the gas). I
can be reached at (503) 693-7068 (answering machine on phone) or
via
e-mail at the above address. Money Order, Cashiers check or
personal check (will wait till it clears).

Mike

Hi,
I am looking to buy a later Racal RA-117 receiver. It needs to be unmodified
and in
excellent condition, both electrically and cosmetically. I am looking for a
rack mounting version without the desktop cabinet. I am (needless to say)
quite happy to pay freight costs to New Zealand and indeed could arrange
shipping from here.
I wonder whats is out there.
Thanks
Ted
ZL1MT

I have a yaesu 5100 2 meter 440 fm rig very clean nice radio it includes
manual softwear and quick remove mobile bracket 250.00 Also i have a kenwood
2 meter all mode 9000 very clean radio for its age works well 10 watts out
it includes service manual 225.00. The reason for selling rigs is i dont
talk fm much more and the all mode dosent have enough drive for my mobile
amp looking to bye a rig with more drive. All notes can be sent to Dennis
Brown KD5JGE at kd5jge@hotmail.com

Give you car a real touch of class!

Blue Lodge Tail Light Emblems for only $6.50 delivered anywhere in the USA. Comes with easy to use application instructions. Tail light emblems work best on large tail lights with smooth outer surface. This mean most modern cars.

Take a peek at this

Don't bother telling ALBERT D. LINK about it here. Instead tell abuse@att.net so they can cancel his Worldnet account for spamming. You might also tell Hostway Corporation (noc@hostway.com) that they are hosting the web site of a spammer.

I've got this ham-radio from a group of windsurfers I'm part of.
We intended to use it a VHF marine radio. Given I'm the only "techie"
guy of the group they gave it to me to figure out how to use it. I
decided to program the most used marine channels.
To my surprise when I powered-off the radio, all memories (ten) were
lost and I had to re-tune them again.
Is this normal?
Was it just old/poor technology design or is it supposed to work that
way?
Does it have a "hidden" lithium battery inside that I should replace
for this purpose?
Thanks,
Max.

Dear Worthless Spammer Slime:

Your fake message posted to the newsgroup has accomplished nothing
beyond causing formal complaints being sent to the ISP used to send the
spam and to the ISP hosting your web site.

Hopefully both will move promptly to shut you down for your deliberate
abuse and violation of their Terms of Service which prohibit spamming.

Perhaps you should send your request for instructions about how to go
about committing a crime to some less public forum. Or you could cut
out the middle-man and send your message directly to the FCC's
enforcement division.

The offer to to sell ham items is on topic, moron. This post and yours is
the spam, they are off topic.

Did I hit the wrong forum? Excuse me.
Anyway, I'm from Buenos Aires, Argentina (S.America) and FCC rules don't apply
here.
I was just expecting some expert and kind advise. No hard feelings, Tom.
Max.

I've never worked anyone using a Blue Lodge Tail Light Emblem . How much output power do these do? Is the receiver any good? What kind of antenna is prefered on one of these puppies? MK

Dear Nitwit Lid:

Yes, an offer to sell ham items would have been on topic. However there
was no offer to sell any HAM ITEMS in the spam that was being
discussed.

Hello All !
I recently acquired this radio and thru testing have found that the
transformer is bad. I am looking for a replacement for it and/or a

site where I can get hold of the op/repair manual for it.
Any help greatly appreciated!!!

EICO Model 717 Keyer. Chassis is dusty but no significant corrosion. Cabinet is excellent. Front Panel is good with minor wear around the on-off switch. There is a small part of the "K" in the Keyer logo worn off on the front panel. I have replaced the AC Line cord grommet where it enters the chassis. The keyer works fine but has not been used for several years. No manual or schematic but these are available on Bama. Price is $75 plus shipping.

Vibroplex Vibro Keyer Standard S/N 264109 with the 833 Broadway address. The thumb piece is missing and replaced with a black piece from some other key. Replacement thumb piece is probably available from Vibroplex. No corrosion or chips in the base. This is the key that was used with the 717 until several years ago when I went back to a bug. Price is $75 plus shipping.

If both are sold to the same buyer and shipped to the same address the price for both pieces is $125 plus shipping.

No! It is the result of overwhelming LEGITIMATE complaints by Usenet

users about the abusive practice of off-topic postings of eBay auctions
to newsgroups where such postings are contrary to the newsgroup charter.

You will note that eBay does not have a policy against posting
information about auctions or links to auctions in Usenet newsgroups
were such postings are proper. The policy only prohibits postings that
are contrary to the group charter and thereby abusive.

Of course if you can't tell the difference I guess we know the kind of
person the policy was designed to reign in.

Before you can know that, you need to know more about the Constitution
itself.

Whatever gave you the idea that the Constitution says anything even
remotely related to what E-bay is doing? The Constitution prescribes
what *government* can and cannot do. It doesn't give you any particular
rights vis-a-vis E-bay.

... Rich

Dear Nitwit:

Since when do you suppose the constitution gives you ANY "right" to use
someone else's private property?

Last time I looked you do not own eBay, and you do not own Usenet, etc.
When you want to use something that belongs to others you have two
choices - play by their rules or go play somewhere else.

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The
radio is about an 8.5 cosmetically. The radio has given flawless
service. The LCD is clear. It has the DTMF mic and does ctcss tones. It
comes with the radio, mic, power cord, and the mobile mount with quick
release.

I would like $95 plus shipping for the radio. If you need a picture, I
can take one and upload it to my webspace for your viewing.

I have a TS-430S for sale. The radio is clean, in good condition, works
fine, and has the YK-88S filter. The radio has never been in a smoking
enviroment (except for field day and the accompanying cigars... don't
tell my wife). I'm selling it because I have a TS-440 and can't justify
two radios.

Pictures:
http://www.eskimo.com/~ghopper/ts430f.jpg
http://www.eskimo.com/~ghopper/ts-430b.jpg

With the radio or after the radio itself is sold, I have a Kenwood
MC-60A desk mic in fine condition.

I would like to get $400 for the radio and mic.

I have a seven range analog clamp-on AC ammeter for sale for $30 plus
shipping. It in in great condition, having hardly been used since it
was thought to have been lost, but merely put away in the attic...

It comes with the clamp on meter which will measure up to 300A, probes,
inductive pickup (1x and 10x) and is still in the original box.

I am going to try to save myself the headache of selling these on eBay
where they will surely command a higher price than I expect (I am
constantly suprised by what stuff sells for there.)

I have two Motorolla remote handset/monitors in fair to good condition.
They show wear but are not damaged. That is why only fair to good. They
are black bakelite and very heavy construction. There is a red transmit
light on the side and volume and PL controls on the front.

Both units were working when removed from service several years ago.

I'll take the best offer including shipping and please indicate if you
want both, or just one.

A picture of one unit (they are pretty much the same) is located at
http://www.eskimo.com/~ghopper/mphone1.jpg The photo shows the unit in
all it's dusty glory! It was manufactured in 1963 but still looks like
the height of Motorolla technology. Actually the units are pretty cool
and I was going to use them for a remote in my office for a 2m rig I
keep in our wiring closet but I ended up buying a rig with a remote head
that uses a 4 wire interface and decided I liked that option better.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $40.00 plus shipping but will consider offers.

Actually, as a regular reader/poster on several of the NGs this thread is
running on, I enjoy reading selected FA posts, if the item sounds
interesting and IF it is properly listed as FA. Reading these has resulted
in several spur of the moment ebay purchases. I brouse ebay on an irregular
basis, and might have missed some of the items had they not been mentioned
on the NGs. I will not buy any item when the subject line says For Sale or
FS, and it turns out to be on ebay.

Yeah, I just can't understand what gets these people so worked up about them. I pick and choose which items I read in the NGs, if the subject line doesn't interest me, I don't read it. It's as simple as that. I only use the filters on the commercial sellers that continually post FS items. I wonder if these same people complain about going into a library and finding books on the shelf they don't want to read.

Just my two bits' worth (inflation)

I would like to offer my metal detector in excellent shape for a vhf
repeater that is virtually plug and play on the ham bands... Detector
comes with all manuals, video, recharger and original box.

Extras include:
Whites Blue Max 800 10" coil with extra rod for quick change. (never
used)
battery case for AA batteries
Calrad detector headphones
Coil covers for both coils (saves the coils from wear)

Repeater must be in great working condition with duplexors and not
look like crap. Let me see what you have..

Please remove the .nospam from my email to reply.

Will sell outright for $675 + Shipping

Please remove the .nospam from my email to reply.

Xref: archiver1.google.com rec.ham-radio.swap:1011 rec.radio.swap:42028

FS: Nice ICOM IC-761 HF Transceiver. Covers all bands 160 through
10-Meters, has General Coverage Receiver, 100-Watts output on transmit,
all modes SSB/CW/AM/FM/FSK, full break-in CW operation, nice digital
readout and memories. Also has built-in antenna tuner, AC power supply,
and the optional CTCSS tone encoder for FM. Comes with the original
shipping boxes, operator's manual and optional factory Service Manual.
This really is an excellent radio, and I can arrange to demonstrate it
on any band for you (Note: 160-Meters to the East Coast might be a
problem this time of year, though!) I can also send you jpeg picture
files as attachments, if you'd like to see pictures of this radio. $700
plus shipping from Oregon. Any questions, please email.

Oil Filled Caps - Non-PCB, have about a dozen left. These units are
32 uF at 4000 and 4500 volts. I have a few 4000 volt units and a few
4500 volt units. The caps are small, great for amp pwr supply
projects. Size: 3.5 x 4.5 x 12 inches and they weigh 7 pounds.
Picture available via email upon request.
Price: $55 each or $45 each for orders of two or more. Shipping via
UPS is extra.
Thanks and 73,
Joe W4JF

I am after information on microwave transmiters and
receivers..particlarly low power transmiters <500mW and good receivers
to build..any information would be nice..would also consider buying
ready built equipment..please email..thank you

Fair enough.... this is a Drake T4XC Transmitter (NOT a tranceiver)...
it is offered AS-IS, no warranty.... it needs some work to get
it back on the air at full capability (it works on 10 m, but not on
80,40,20 or 15).. asking $150
plus shipping.. If you are interested, email me at....andakin@webtv.net

            73 de,

KC7DVF

Hi there
I have decided to let go from my persona collection an as new Heathkit
SB-303 with filters and noise blanker
This is a rare find especially one in mint condition and original, this one
was factory built.

Thanks for reading this post.

My Kenwood TH-21AT Receive frequency is off.
Need a new receive crystal (that's on frequency).
Will consider a whole busted TH-21 with a good xtal
if it's reeeeel cheeeeep.
Thanks, mike

I have a MINT IPE 200 Ericsson HandHeld EDACS Radio with new battery and charger / antenna. Unit works flawlessly, battery hold great charge. photo upon request. Unit has nice LCD readout with DTMF keypad...
IPE- 200 DTMF 800 .6W KRD 103 124/ 2

I had this item on NG and thought I had a buyer, and turned a   few away.

Best offer over $350

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows   -- $2 ea
UHF F-M-F Tees   -- $2 ea
UHF female - N male adapters   -- $2 ea (last one)

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

  Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
 I believe that they are all for RG-59 size cable.

Kings Electronics
   KC-59-642-M06 BNC Cable Male   -- $1 ea
   KA-59-385-M06 TNC Cable Male   -- $1 ea
   KA-19-43 TNC Bulkhead Female   -- $1 ea

***   Coax Antenna Relays ****

These both have (3) UHF connectors. They are somewhat old looking on the outside but,
 I popped the inspection port on each and all the contacts are all happy. And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
   110 VAC coil   -- $30 (last one)

Advance (same style but, heavier contacts & construction)
   115 VAC coil   -- $30 (last one)

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S 300pF 15KV $200 with standard puller, later manufacture (blue)

UCSL-750 750pF 3KV $125 with standard puller
UCSL-1000 1000pF 3KV $125 with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $80

---Fixed vacuum caps--

Jennings VC-12 12pF 20KV $20
Jennings 50pF 86KV $86
Western Elec 100pF 5KV $30 (This one hi-pot checked @ 14KV)

--- Vacuum Relays --

Old "T" style vacuum relays, the coil slips over one leg
of the glass enclosed contact assembly -- One of the contacts has a Penta Labs
part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. 28VDC. $15

********** Air Variable Capacitors ********

Johnson T9-5 minature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, "shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea.

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $20 pair

..and a whole bunch of Neutralizing capacitors as listed below $7 ea

Bud NC-853 (2 available)
NC-1000 (2 available)

Hammurlund N-10 (ceramic repaired)

National NC-800 (old version - ceramic repaired)
NC-800 (later version)
NC-150

Johnson 150-375

Millen (part no. unknown) w/ 2-5/32" disks
(part no. unknown) piston style

Unknown Mfgr w/ 2" disks

**** Ceramic Doorknob & Disk caps ***

These are used Centralab or similar -- $5 ea or 5/$20

500pF 10KV "TV" style
68pF 5KV 850 series

  These are NOS disks by KD & Erie $3ea or 4/$10

  1500pF 7.5KV
  .01uF   4KV

  And a couple NOS Silver Mica caps.

  2200 pF 500V CM06 $1 ea
  5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
  Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
 updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
 Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
 Miscellaneous types, & semiconductors.   The updates appear to have been made in all
 these sections except Picture Tubes which is somewhat disorganized. It also appears that the
 obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
 Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106.   143 pages. $50

Heathkit Catalogs
   1954, 55, 56, 57, 58, 59 &
   Fall-Winter '62-63,
   Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
 Navy Aeronautical Electronic Equipment
 vols. 1&2 (1955 tubes & 1962 transistors)
 very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December

1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles) -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?)
owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
 tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
 Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

hi does anyone know of a pot i can adjust to tighten the squelch a bit on
my htx 242 mobile?

their are three pots inside, anyone know what they do?

thanks
rv 1
rv 2
rv 3

and a smaller trimmer pot behind the control panel near the display

thanks

FT: Computer gear for HF Rig / Equipment

I have the following computer gear available for trade or sale on a
"newer" HF rig and equipment. Specifically interested in the below
units but open for other suggestions. I am workable, will put money
into it if your gear is worth more.

 * Kenwood TS-50, TS-840, TS-847, TS-900
 * Yaesu FT-100, FT-840, FT-900, FT-847
 * Icom IC-706 / 706 MKII / 706 MKII-G
 * Alinco DX-70 / DX-77
 * or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard, Windows 2000 Professional. Tower case.More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra

Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply, LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches), Custom padded case. This unit is in excellent condition and includes all the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades or sales on any of the machines. Willing to trade multiple machines for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

hello there all.
i have a kenwood mc-60a,brand new and still in box,was only used for about 2 hours(great audio)and put back in box,was bought abt 3 weeks ago.reason for sale-i heard a HEIL GOLDLINE and fell in love with it,nothing but nothing sound as cool,clean and crisp as the goldline,so if anyone out there would like to part company with there goldline(dont hold much hope HI HI),with hc-5 insert or maybe the hc-4 the dx dream machine insert,i will swap for the mc-60a or i will pay cash for it if its a reasonable price.ok 73 to all,

Here is the list
GE Orion UHF scan model 100 watt remote mount standard accessory cable and mounting brackets. Set up now on amateur band. $550.00
GE MPA VHF Aegis encrypted. Full system model 160 channels. Great radio I have used this as my personal radio. on ham and PS. $350.00

GE Mastr II repeater UHF 40 watt. Repeater only no case or PS. $375.00
GE / Decibel products UHF DB 4076 Duplexer. pass and reject 4 can. $150.00
GE 4EX22A10 EEProm programmer. Phoenix s/sx, Delta s/sx. with copy of manual $95.00
GE TQ3330 Delta s/sx, Ranger89, and VG9600 with a home made delta cable. (I never got around to try this as I found a suitcase programmer and I use that) $95.00
GE MLSII UHF 16 channel scan Radio. Looks good I programmed this last night with ham repeaters and was testing it through a dummy load and keyed up a repeater about 2 miles away. so it is working. $150.00
Also have MPD's, MPI II's, and other radio's if there is an interest.
Terms
Shipping is the buyers expense and as this is used equipment it is as is but if I can help with a replacement I will. I trade Try me with what you have I can only say no. I take Paypal as well as Postal Money Orders.

I have an older TenTec QRP Linear (if that makes sense). I think it was built in the 70s. It is all solid state, about 8-inch cube (sorry I am not a home and don't recall the nameplate). It provides 50w out on .5-5 watts in. No tune up required. Works and look beautifully. I have the original Users Manual that is included. I am asking $225 plus ship. Dennis 650.315.6578

HAM CALL PLATES

If you live in as state with only a rear license plate and would like an attractive quality custom Ham Call Plate for the front of your vehicle, contact me. (They also look great on golf carts!)

Prices range from $7.00 for a basic call sign plate to $11.00 for a plate with call sign and one line of extra lettering, plus $2.50 shipping, CONUS. These introductory priced plates have a white background with lettering of any color we have in stock, including black, gold, light teal, dark blue, bright green, bright purple, and red.

Examples (I will be happy to email you pictures of real Ham Call Plates, if requested.):

1) BASIC PLATE -- The price for your call sign in any in-stock color lettering on a white plate is $ 7.00 plus shipping or a total of $9.50, delivered to your mail box.

2) ENHANCED PLATE -- the price for your call sign and, for example, your City and State (one extra line of lettering) on the top or bottom line in any in-stock color lettering on a white plate is $11.00 plus shipping or a total of $13.50, delivered to your mail box. Both your call sign and the extra line of lettering will be in the same chosen color.

3) FANCY PLATE -- Ham Call Plates that include your call sign and a desired emblem or logo (Masonic emblem, Clip Art Image, etc.) and, perhaps, other lettering or colors are available. Please inquire for prices.

TO ORDER send your current FCC assigned CALL SIGN, the color of lettering you wish to have, and a money order or check in the correct amount to the address given below. If you wish to have a second line of lettering (at extra cost) , either above your call sign or below you call sign, write out EXACTLY what you want on that line and include it with your payment. Remember that license plates are not large so the extra line should not be too long.

YOU CAN ALSO ORDER BY EMAIL. To speed getting your new Ham Call Plate, email me your order, as described above, and I will create your new plate and ship it to the same day I receive your mailed payment. If you are in a hurry and don't mind paying extra for a COD charge, I can ship it to you COD.

Expect to receive your new Ham Call Plate in less than ten days of our receiving your order. We ship using the US Postal Service.

As always, your SATISFACTION is GUARANTEED! If you do not like your new Ham Call Plate, send it back to me and I will promptly refund your money, less shipping costs.

We have a number of old Sailor MF/HF transmitters, exciters, power supplies
etc. All units are solid state and fully operational and come with manuals.
Interested parties please get in touch.

UK location - delivery anywhere else may be expensive!!!!

hello
i am in need of many old MFM and RLL type hard drives you know the old 5
1/4 width ones in either half or full hieght
i need the platers out of them
so if you have any of the old MFM or RLL drives working or dead dont
matter they will die when i take them apart anyways
i am a poor old blind ham so please dont try to make your car payment
with these if you want to clear out the closet and free up some space i
am interested in them
if you have any please email me at
mailto://k4oxg@tampabay.rr.com

I have a factory refurbished motorola UHF Visar
this is an 403 to 470 Mhz model #H05RDD9AA4DN
radio performs as well as it looks.

Radio will come with 2 batteries, 1 new and 1 good used battery, charger and
speaker mic

looking to get $300 or swap for the following

dualband mobile
VHF Visar
repeater controller (RLC2 or 3 or similar)
MFJ 259B or autek vhf/uhf antenna analyzer
MFJ 418 code tutor plus some $$$

Thanks
Steve

GE Orion UHF remote mount. Scan head 100 watt. On ham and PS. This radio has all the brackets and mounts. Great radio just too much power for the local repeaters $550.00
GE Mastr 2 UHF 40 watt repeater station in card cage. $300.00
Uniden desktop repeater. UHF on 444.425 now with 151.4 PL and cw ider installed. No duplexers. $325.00
Sinclair UHF 50 watt duplexer. Factory Ham band duplexer. $100.00
Decibel/GE DB4076 Pass/Reject Duplexer. UHF $150.00
GE MLS II UHF 16 channel scan. On ham band. $150.00
GE VHF MPA. Aegis encryption will do DES or VG as well with the correct flash program. System model with full keypad with battery and charger. $350.00
GE MPD UHF 48 channel. Nice clean radio works great. $90.00
GE PCS VHF 2 channel 136. - 153. Ham band. Good for 1 repeater and 1 simplex channels. Works great. $75.00
GE Mastr 2 UHF 75 watt painted handle. MC65KKG88B with UHS pre-amp.
No accessories $75.00 with accessories $100.00
GE Mastr Exec 2 VHF with UHF rec. section. These are mobile extenders for the above UHF Mastr II. They would repeat a VHF HT over the UHF radio. $20.00 each.
GE MPI 2 2 channel UHF on GMRS now programmable radio's with charger and good battery. $70.00 each have 2
Motorola Mitrek VHF 110 watt with accessories. $65.00 each only 2 left.
Midland 70-336B VHF 8 channel scan. I can't program this one so your on your own. 35 watts $90.00
Midland 70-1336B VHF 8 channel scan. Nice radio. 35 watts $125.00
GE Voice guard boxes for delta and ranger 19A148909P10. $10.00 each
Mastr 2, 8 channel control cable $15.00 each
Mastr 2, Head multi channel. $5.00 each
Mastr 2 control head brackets $5.00 each
Mastr 2 control head power cable. $5.00 each
Mastr 2, Microphone. $5.00 each
Mastr 2 or delta hang-up box. $5.00 each
Mastr 2, Tone boards. $5.00 each

Versatone filters $5.00 each (e-mail for frequencies)
GE MPA or MPD public safety speaker mic. $35.00
Motorola Saber speaker Mic $35.00
New VHF antennas for GE MPR, and MPS radio's $5.00 each
Shipping is over and above the prices listed.
Insurance is optional but one shipped its your I have no control hence no responsibility if you do not insure the package.
Trades are welcome but try me.
Things I am looking for:
MPS programming proms for the TQ2310
Phoenix cable for the TQ2310 (so I do not have to pull the chip)
MPA and s825 ham flash programs.
S825 heads.
Dual band ham mobiles
MVS remote mount kit.
Thanks for looking
Dean

I am cleaning off my workbench again...

I have an Icom IC-02AT that has a bit of a problem with receive
sensitivity. This unit came to me as a part of a whole junk box full of
stuff. It had a few other problems I managed to fix, but alas I am
loosing interest in repairing it any further (as it has taxed my skill
and patience.)

It is just the radio, no battery, no antenna, and no charger.

$20.00 shipped to the lower 48.

I have 4 sections of Rhon-Spaulding tower (this is not the Rhon tower sections) that are clean, in good condtion and bolt together to give you about a 32' tower.

It is avalible for pickup in Everett, WA. I would like $150 for it.

Grant

I have a Kenwood TS-430 that is in very good condition, never been used
by a smoker and ready to go to a good (or bad...) home. I got it used
but didn't get the hand mic. The unit has a few minor wear spots, but
nothing serious and no other damage/ dents, etc. I would like $350 for
the unit but will consider reasonable offers.

I also have a Kenwood MC-60A that was used with the TS-430 and I will
consider selling it seperately for $100, but not until the TS-430 is
sold. The mic is in excelent condition and is the amplified version of
the MC-60.

I will sell both for $450.

All prices are plus shipping and insurance. Email with questions
ghopper@eskimo.com

Grant

I have an Icom IC-03AT 220Mhz radio for sale. It is in good condition
and includes the radio, antenna, BC-25U battery charger, a photocopy of
the manual, and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT so
the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable
offers.

IC-38A 220 MHz FM Transceiver

I bought this radio at AES, Cleveland, as a trade-in about five years ago. I never used it for mobile and by don't think it was used as a mobile at all. I never had a base antenna so I used a mobile antenna on a piece of steel. I am offering the radio.

The IC-38A has virtually all the accessories supplied, including the box and the manual. My house is a nonsmoking area!

This item is sold AS IS.

Ground shipping will be $9.95 and will be paid by buyer.

FS: Kenwood TS-50 with matching AT-50 antenna tuner.

Both in excellent condition. Only very minor surface marks. Never mobile.
This is an easy to use and very compact little rig and the tuner works like
a charm - I've used it with dipole, G5RV, and delta loop and it works great.

Set includes manual (with plastic covered manual), mic, DC cable, AT-50
connector cable and mobile mount. Original boxes and packing included. $725
for both, OBO.

I'll pay shipping anywhere in CONUS. Will consider trade for newer
full-size, HF or multiband HF rig.

Ron Bean - KJ5XX

You still have this radio? Maybe I can use parts from the case to repair my IC 24? (If I can ever get the receive audio to work.....)

I found this on a bulletin board and decided to try it. A little while
back, I was browsing through newsgroups, just like you are now, and
came across and article similar to this that said you could make
thousands of dollars WITHIN WEEKS with only an initial investment of
$7.00! So I thought "Yeah right, this must be a scam," but like most
of us, I was curious, so I kept reading. Anyway, it said that you send
$1.00 to each of the 7 names, and post the article in at least 200
newsgroups. (There are thousands).
No Catch, that was it. So after thinking it over and talking to a few
people first, I figured: "What have I got to lose except 7 stamps and
$7.00, right?" Then I invested the measly $7.00.

Well! GUESS WHAT
Within 7 days, I started getting money in the mail! I was shocked! I
figured it would end soon, but the money just kept coming in.

In my first week, I made about $25.00.
By the end of the second week, I had made a total of over $1,100.00!
In the third week, I had over $8,750.00 and it is still growing.
This is now my fourth week, I have made a total of just over $17,000, and it is still coming in rapidly!
It is certainly worth $7.00 and 7 stamps, I have spent more than that on the lottery!! Let me tell you how it works and most importantly WHY it works...Also make sure you print out a copy of this article NOW, so you can get the information off of it as you need it.

I promise you that if you follow the directions exactly, that you will start making more money than you thought possible by doing something so easy!

KEEP READING THIS TO FIND OUT HOW IT WORKS!!!

Suggestion: Read this entire message carefully! (Print it out or download it!) Follow the simple directions and watch the money come in!

Get Excited about it!

It is easy. It is legal. Moreover, your investment is only $7.00 (Plus Postage on only 7 envelops ...one time only...no repeat mailing.)

IMPORTANT: This is not a rip off; it is not indecent; no misleading PROMISES OR CLAIMS; IT IS NOT ILLEGAL; AND IT IS 99% NO RISK - IT REALLY WORKS!

If all of the following instructions are adhered to, you will receive extraordinary dividends.

JUST KEEP READING!!! PLEASE NOTE: Please follow these directions EXACTLY, and $50,000.00 or more can be yours in 20 to 60 days. This program remains successful because of the honesty and integrity of the participants. Please continue its success by carefully adhering to the instructions.

You will now become a part of the Mail Order business. In this business, your product is not solid and tangible, it`s service. You are in the business of developing mailing lists. Many large corporations are happy to pay big bucks for quality lists. However, the money made from the mailing lists is secondary income, which is made from people like you and me asking to be included in that list.

Here are the 3 easy steps to success:

STEP 1: Get 7 separate sheets of paper and write the following on each piece of paper "PLEASE PUT ME ON YOUR MAILING LIST."

Now get 7 US $1.00 bills and place ONE inside EACH of the 7 pieces of paper so the bill will not be seen through the envelope (to prevent thievery). Next place one paper in each of the 7 envelopes and seal

them. You should now have 7 sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill.

What you are doing is creating a service. THIS IS ABSOLUTELY LEGAL! You are requesting a legitimate service and you are paying for it! Like most of us, I was a little skeptical and a little worried about the legal aspects of it all. So I checked it out with the US Postal Office (1-800-725-2161) and they confirmed that it is indeed legal. Mail the 7 envelopes to the following addresses:

#1) K. Davis 2415 Dawson Rd. Apt J-7 Albany, GA 31707

#2) G. Lee 10688 Wheelhouse Circle Boca Raton, FL 33428

#3) A. Mansaray 1895 Payette St. Apt #5 Montreal, Quebec H3J1P2

#4) T. Akpan 1508 Laurel Oak Dr. Antioch, TN 37013

#5)R. Britt 7136 Woodland Terrace, Dallas TX 75232

#6) T. Williams 228 Morrow Rd. Apt4G, Forest Park GA 30297

#7) CR Jabari 201 Orange Street, #6, Oakland, CA 94610

STEP 2: Now take the #1 name off the list that you see above, move the other names up (7 becomes 6, 6 becomes 5, etc...) and add YOUR NAME as number 7 on the list.

STEP 3: Change anything you need to, but try to keep this article as close to the original as possible. Now post you amended article to at least 200 newsgroups.
(I think there are close to 24,000 groups) All you need is 200, but remember the more you post the more money you make! You won`t get very much unless you post like crazy.

This is perfectly legal! If you have, any doubts refer to title 18 Sec 1302 & 1341 of the postal lottery laws. Keep a copy of these steps for yourself and whenever you need money, you can use it repeatedly!

PLEASE REMEMBER that this program remains successful because of the honest and integrity of the participants and by their carefully adhering to the directions.

Look at it this way. If you are of integrity, the program will continue and the money that so many others have receive will come your way.(Recycle)

NOTE: You may want to retain every name and address sent to you either on a computer or hard copy and keep the notes people send you. This verifies that you are truly providing a service. (Also, it might be a good idea to wrap the $1.00 bill in dark paper to reduce the risk of mail theft.)

MAKE MONEY NOW!!!!

June 30, 1999 :
Article Make Money Fast, Easy, and with only $6.00

M A K E M O N E Y !!
SERIOUSLY NO SCAMS! LOTS OF CASH, FAST AND COMPLETELY LEGAL,
THIS REALLY WORKS!!
THIS REALLY CAN MAKE YOU EASY MONEY!! IT WORKS!!!
BUT YOU HAVE TO FOLLOW IT TO ALETTER FOR IT TO WORK!!!!
A little while back, I was browsing through newsgroups,
just like you are now, and came across an article similar to
this that said you could make thousands of dollars within
weeks with only an initial investment of $6.00!
So I thought," Yeah, right, this must be a scam",
but like most of us, I was curious, so I kept reading.
Anyway, it said that you send $1.00 to each of
the 6 names and address stated in the article. You then place
your own name and address in the bottom of the list at #6,
and post the article in at least 200 newsgroups. (There are

thousands) No catch, that was it. So after thinking it over, and talking to a few people first, I thought about trying it.
I figured what have I got to lose except 6 stamps and $6.00, right? Like most of us I was a little skeptical and a little worried about the legal aspects of it all. So I checked it out with the U.S. Post Office (1-800-725-2161) and they confirmed that it is indeed legal! Then I invested the measly $6.00. Well GUESS WHAT!!... within 7 days, I started getting money in the mail! I was shocked! I figured it would end soon, but the money just kept coming in. In my first week, I made about $25.00. By the end of the second week I had made a total of over $1,000.00! In the third week I had over $10,000.00 and it's still growing. This is now my fourth week and I have made a total of just over $42,000.00 and it's still coming in rapidly. It's certainly worth $6.00, and 6 stamps. Let me tell you how this works and most importantly, why it works....also, make sure you print a copy of this article NOW, so you can get the information off of it as you need it.
STEP 1: Get 6 separate pieces of paper and write the following on each piece of paper "PLEASE PUT ME ON YOUR MAILING LIST." Now get 6 US $1.00 bills and place ONE inside EACH of the 6 pieces of paper so the bill will not be seen through the envelope to prevent thievery.
Next, place one paper in each of the 6 envelopes and seal them. You should now have 6 sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill. What you are doing is creating a service by this.
THIS IS ABSOLUTELY LEGAL!
Mail the 6 envelopes to the following addresses:
#1) Jen, P.O. Box 35, Gibsonia, PA 15044
#2) Trina, 5212 Coach Drive, Richmond, CA 94803
#3) Turner Brown, 24 Andrew Lane * Lansdale, PA * 19446
#4) Jerry Lacson, 1535 M. Adriatico St. (SMC) Malate, Manila ,Phillipines Zip 1000
#5) Thomas Mac, 415 Gayley Ave. #112 Los Angeles, CA 90024
#6) Matthew 3815 St Barnabas Rd apt 103 Marlow Heights MD, 20746

STEP 2: MOST IMPORTANT! You MUST take the #1 name off the list that you see above,
move the other names up (6 becomes 5, 5 becomes 4, etc...) and add YOUR Name as number 6 on the list. STEP 3: Change anything you need to, but try to keep this article as close to original as possible. Now, post your amended article to at least 200 newsgroups.
(I think there are close to 24,000 groups)
All you need is 200, but remember, the more you post, the more money you make!

DIRECTIONS ---HOW TO POST TO NEWSGROUPS

Step 1) You do not need to re-type this entire letter to do your
own posting. Simply put your cursor at the beginning of
this letter and drag your cursor to the bottom of this
document, and select 'copy' from the edit menu.
This will copy the entire letter into the computers memory.

Step 2) Open a blank "notepad" file under accessories in windows
and place your cursor at the top of the blank page.
From the 'edit' menu select 'paste'. This will paste
a copy of the letter into notepad so that you can add
your name to the list.

Step 3) Save your new notepad file as a .txt file. If you want
to do your postings in different sittings, you'll always
have this file to go back to.

Step 4) Use Netscape or Internet explorer and try searching
for various newsgroups (on-line forums, message boards,
chat sites, discussions.)

Step 5) Visit these message boards and post this article as
a new message by highlighting the text of this letter
and selecting paste from the edit menu. Fill in
the Subject, this will be the header that everyone sees
as they scroll through the list of postings in a
particular group,click the post message button.

You're done with your first one!
Congratulations...THAT'S IT!
All you have to do is jump to different newsgroups and post away,
after you get the hang of it, it will take about 30 seconds
for each newsgroup!
**REMEMBER, THE MORE NEWSGROUPS YOU POST IN,
THE MORE MONEY YOU WILL MAKE!!
BUT YOU HAVE TO POST A MINIMUM OF 200**
That's it!

You will begin receiving money from around the world within days!
You may eventually want to rent a P.O.Box due to the large amount
of mail you will receive.
If you wish to stay anonymous, you can invent a name to use,
as long as the postman will deliver it.
JUST MAKE SURE ALL THE ADDRESSES ARE CORRECT.

Now the WHY part:

Out of 200 postings, say I receive only 5 replies
(a very low example). So then I made $5.00 with my name at #6
on the letter. Now, each of the 5 persons who just sent me
$1.00 make the MINIMUM 200 postings, each with my name at #5
and only 5 persons respond to each of the original 5, that is
another $25.00 for me, now those 25 each make 200 MINIMUM
posts with my name at #4 and only 5 replies each, I will bring

in an additional $125.00! Now, those 125 persons turn around and
post the MINIMUM 200 with my name at #3 and only receive 5
replies each, I will make an additional $626.00! OK,
now here is the fun part, each of those 625 persons post a
MINIMUM 200 letters with my name at #2 and they each
only receive 5 replies, that just made me $3,125.00!!!
Those 3,125 persons will all deliver this message to 200
newsgroups with my name at #1 and if still 5 persons per
200 newsgroups react I will receive $15,625,00! With a
original investment of only $6.00! AMAZING! When your name
is no longer on the list, you just take the latest posting
in the newsgroups, and send out another $6.00 to names on
the list, putting your name at number 6 again. And start
posting again. The thing to remember is, do you realize
that thousands of people all over the world are joining the
internet and reading these articles everyday,

JUST LIKE YOU are now!!

I have an Icom IC-2SAT ht for sale. The radio is in great shape and was
part of another deal for several radios. I have too many 2m HTs so this
one is for sale.

The IC-2SAT has an internal battery, 48 memories, 10 DTMF memories,
CTCSS encode and decode (because this unit has the optional UT-50), and
is in great condition.

The package includes: the IC-2SAT and antenna, a spare internal battery,
the charger, a BP-83 battery pack, manual, a HM-46L hand mic that I
picked up in another deal, and of course the UT-50.

I'd like $75 plus shipping.

a friend gave me a yaesu FT50. i sold my old 2sat...what a mistake.
the 2sat is much more versatile and easier to work with.

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. Otherwise the radio has given flawless service. The LCD is clear. It has the DTMF mic and does tones. It also has the mobile mount with quick release.

I would like $100 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

I have an extra BC-35 rapid charger, in it's box, that is surplus to my
needs. The charger works great and and is in great physical condition
(case not cracked, metal not bent, no excessive wear.)

I'd like $50.00 plus shipping, but I will consider all reasonable offers
because I would like to sell it.

I have an Icom IC-38A in nearly perfect condition. Cosmetically it's a
8.5 from some wear on the bottom of the case. The package includes the
IC-38A, mobile mounting bracket, DTMF microphone, Power cord, manual,
and a NMO mount 220 antenna.

Specs: 25 watts, 220-225 Mhz xmit, 215-230 Rx, 21 memories, memory scan,
band scan, CTCSS encode.

The 220 antenna is the NMO style mount.

I'd like $175 plus shipping for the package. Questions? email

I have a TS-430S for sale. The radio is clean, in good condition, and
has the YK-88S filter.

Pictures:
http://www.eskimo.com/~ghopper/ts430f.jpg
http://www.eskimo.com/~ghopper/ts-430b.jpg

I'd like to get $350 plus shipping.

I don't have the handmic that came with the radio (actually, I didn't
get it when I bought the radio used). I have the MC-60a and will sell
that with the radio for an additional $100 including shipping.

Note: The YK-88S is just the stock sidband filter, no stock mic ?

$350 ...does it have the FM board, or a AM, CW filter ?
Joe

FOR SALE:
Lafayette HA-225 Receiver in very good condition.

Has general coverage and also bandspread for the amateur bands.
1966 era. Has Five (5) bands: 150-400kHz, 1.6-4.8MHz, 4.8-14.5MHz,
10.5-30Mhz, 48-54MHz

Additional bands for bandspread on the amateur radio bands.

14 tubes: 6AQ8 (6m rf), 6BL8 (6m mix/osc), 6BA6 (rf), 6BE6 (mix), 6AQ8 (Q-Mult/Calib), 2
6BA6 (if), 6AL5 (det, anl), 6BE6 (pro det.), 6AQ8 (af,bfo), 6AQ5 (af out),
0A2 (reg),
6CA4 (rect)

Interesting design in that it covers all the way up through 6 meters,
and it has the output transformer mounted diagonally to minimize
hum from power transformer.

See: http://member.nifty.ne.jp/hanazawa/radio/lafayette/

Will sell for $95.00 plus shipping

Also have a Lafayette external speaker to go with it.
Model 99-2521 - matches their classic receivers. Excellent condition.

Will sell for $20.00 plus shipping

Pictures available

This is from a SK and I am selling it for his XYL.

It is a Kenwood TM-241A with mic, bracket and manual. The power cable from
the radio connector is not with the radio. It does have a few scratches on the front
of the display but it still looks good. Overall the radio is a good 8++ out of 10. He had
gotten it for his car but she said he had never installed it. I have tested it on the bench and
it seems to be doing just what it should. It runs 50/10 and 5 watts output and the receiver
covers from 118 to 174 Mhz. I do not think there is any mods in the radio. It is 5.5"x1.5"x6.25"
in size and is 2.65 lbs.

I think it should go for over $150.00 so, the first real offer over that price has the radio.

Please email me direct and I would guess that the shipping should be about $12.00 USPS.

YES, she gets all the money for you out there who have to make a comment.

    73, John w1hzh

Thanks to comments like "Where have you been" and "Are you joking".
I love nice comments, don't you. I have put the price of this radio into what folks say it should be.

Just for the fun of it, I have been here living a life outside of news groups, and you?

    Thanks in advance, John

This is an ICOM IC-751A HF transceiver. It covers 160 - 10 meters with a general coverage receiver covering 100Khz - 30 Mhz. It includes the TCXO option for high frequency stability. I'll also throw in an RC-10 frequency controller which allows direct frequency entry via keypad. It's a great unit for the digital modes. This unit includes ceramic trimmers in the PLL VCO so that potential problem area has already been covered. The alignment has been checked and the unit works like a new one. The physical appearance is very good. There are a few small scratches on the side where it was once rack mounted, but nothing significant in my own humble opionion. The unit had had very little one the air time over the course of it's life. It has the FL-80 and FL-44A (super crystal filters) installed as standard equipment. It also includes the 500Hz CW filter in the 9 Mhz I.F. It will include an HM-36 hand mic. Sorry, I'm keeping the SM-6 for my IC-746. <GRIN> I really wanted to keep the unit for myself, but I'm going to sacrifice it for a complete tower package that I simply can't refuse. I'm asking $475 firm plus shipping. If there are no takers here in a day or so, I'll list it on Ebay. Email me: na4i@home.com if you're interested. Hurry, I've got to sell this one quick.

Thanks,
Alan <NA4I>

Here we have the last of my GE and other Items.

GE Master 2 UHF 40 watt repeater station in deskmate cabinet with Power
supply. No duplexers. $450.00
Uniden desktop repeater. UHF on 444.425 now with 151.4 PL and cw ider
installed. No duplexers. $325.00
Sinclair UHF 50 watt duplexer. Factory Ham band duplexer. $100.00
GE VHF MPA. Aegis encryption will do DES or VG as well with the correct
flash program. System model with full keypad with battery and charger.
$350.00
GE MPD UHF 48 channel. Nice clean radio works great. $90.00
GE PCS VHF 2 channel 136. - 153. Ham band. Good for 1 repeater and 1 simplex
channels. Works great. $75.00
GE Master 2 UHF 75 watt painted handle. MC65KKG88B with UHS pre-amp.
No accessories $75.00 with accessories $100.00
GE Master Exec 2 VHF with UHF rec. section. These are mobile extenders for
the above UHF Master2's. They would repeat a VHF HT over the UHF radio.
$20.00 each.
GE Monogram VHF 10 channel portable. 153. - 170. New battery with pocket
charger. $100.00
GE MPI 2 2 channel UHF on GMRS now programmable radio's with charger and
good battery. $70.00 each have 2
Motorola Mitrek VHF 110 watt with accessories. $65.00 each only 2 left.
Motorola Micor VHF 100 watt, No accessories $30.00
GE Voice guard boxes for delta and ranger 19A148909P10. $10.00 each
Master 2, 8 channel control cable $15.00 each
Master 2, Head multi channel. $5.00 each
Master 2 control head brackets $5.00 each
Master 2 control head power cable. $5.00 each
Master 2, Microphone. $5.00 each
Master 2 or delta hang-up box. $5.00 each

Master 2, Tone boards. $5.00 each
Versatone filters $5.00 each (e-mail for frequencies)
S700 waterproof control head 32 channel scan $75.00
GE MPA or MPD public safety speaker mic. $35.00
Motorola Saber speaker Mic $35.00
New VHF antennas for GE MPR, and MPS radio's $5.00 each
Shipping is over and above the prices listed.
Insurance is optional but one shipped its your I have no control hence no responsibility if you do not insure the package.
Trades are welcome but try me.
Things I am looking for:
MPS programming proms for the TQ2310
Phoenix cable for the TQ2310 (so I do not have to pull the chip)
MPA and s825 ham flash programs.
Orion factory programming cable.
S825 heads.
Dual band ham mobiles
MVS remote mount kit.
Thanks for looking
Dean

I do not understand how this New Jersey resident, posting around 6:30pm (EDT) yesterday from the host ool-18bc4b53.dyn.optonline.net, can expect to send out such spam (violating their ISP's terms of service) and expect that no one would be able to find them.

You have to have a shortwave radio to hear the radio show anyway, not to mention tuning to a certain frequency at a certain time, so you do have a CHOICE. Geez...

1988, 89, 90, 91, 92, 93, 94 QST in hard plastic magazine cases. Not
binders, these are similar to the cases used on library shelves for loose
magazines. They about $4 each when purchased new and are the right height
for QST.

Complete years, good condition. $10/year plus shipping from New Orleans.
These are
not binders but library style magazine cases each holding one year.

FT: Computer gear for HF Rig

I have the following gear available for trade / sale on a "newer" HF
rig, specifically interested
in the following:

 * Kenwood TS-50
 * Yeasu FT-100
 * ICOM IC-706
 * Alinco DX-70 / DX-77
 * or other smaller case HF mobile

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard,
Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra
Wide SCSI Card,
AGP Video, Mouse + Keyboard, Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard,
Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional.
More ram is available.

// Sun SparcSERVER 10
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color
frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet,
On-board sound,
additional fast SCSI controller, additional 10-100 base T Ethernet
controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.

// Sun SparcSTATION 5

70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color
frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet,
On-board Sound,
additional fast SCSI controller, additional 10-100 base T Ethernet
controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent
condition and recently removed
from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack,
Monitor out jack, Video in jack,
Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x
600), International power supply,
LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5
x 9.25 x 5 inches),
Custom padded case.

This unit is in excellent condition and includes all
the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades
or sales on any of the
machines. Willing to trade multiple machines for the right gear. Sales
always welcome ...

Thank you!

I've got a few antennae for sale:
KLM 7.2 dipole / 10-30 Mhz 7 element LPA ant
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257080969

2 meter double folded dipole antenna
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257087523

162-174Mhz Coaxial half wave omni antenna
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257089423

6 meter folded dipole vertical antenna.
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257091109

I'm helping a fellow ham clean out his garage in preparation for his move.
Thanks for checking this out.

Funny, I had bookmarked one of your auctions while browsing eBay yesterday,
and was thinking of bidding. But if you can't be honest enough to mark your
posting as "For Auction" or "FA", then I don't have any desire to do
business with you.

What are you talking about?
I've never even heard of FA or For Auction.
Honesty hasn't a thing to do with it.
Sorry.

Click on the link to see the current price. Last I looked it was still
going for $500.

KLM 7.2 dipole / 10-30 Mhz 7 element LPA ant

From your ad: "It has not been tested and is sold as-is"

WHY WAS IT NOT TESTED?!?!?!

Hi All.

I've created a eGroup for the Kenwood TS870.
Join up and you can upload and files / programs related to the TS870
to the Files Area.
Got a problem? .. Maybe other TS870S owners have the same, try
asking through the messages.
Got an experience to share (Good or Bad) again share it via the
messages!

Please join, Let make the group helpful for the new user of a TS870S!

Why not make Sked with another TS870 User .. do it via the group
messages!

I hope to hear you on the air and see you posting on the group!

http://www.egroups.co.uk/join/TS870

Regards,

Jim M0CKE

No power cord. The unit has been sold, thanks. By the way, the internet
supports private email, as well as newsgroups.
Have a GREAT Day!

LJ

First is the Mirage B-55-G. This is new in the box. I got it about a
year ago
and just never used it. It is 1-10 watts in for 50+ watts out. Will
operate FM/SSB and CW.
Has a built in GaAsFET preamp. I am asking $85.00 shipped. It cost me
~$100.00 new.

The second is an RFC 4-32. 440Mhz, 200mWatts to 5 watts in for 20+
watts output.
Will operate FM/SSB and CW. Has built in GaAsFET preamp. It comes with
the manual
and is very clean. I am asking $65.00 shipped.

Please email direct as this is going to a few of the news groups.

Thanks in advance, John w1hzh

I've stumbled on a very large collection of Vaccuum tubes. Oscillators,
amps, rectifier, RF PAs, you name it it's likely here.

This collection is in several large cabinets.

I would bet that there is at least $12,000 of tubes here. No offer too
small. I cannot be insulted. These have to go.

If anyone's intereseted please contact me at buzz@toast.nospam.net (remove
nospam).

Thanks,
-=-

okay I have an ARMY OE-254 ant (33-88mhz...works great for hams (<2:1 swr)
on 6 and 2 meters)plus 2 486 computer cases (motherboard sound cards power
supply...need H/Ds but that could be setup in a trade), I need a dual band
HT with tone (I have a midland 73-005a 2 meter HT that needs the tone module
that no one stocks) any body wanna trade? (would love a VX-5R or a T-81A
but I am realistic....)

    7) Drake TR4-C 300w xcvr w/power supply excellent $225
    8) Hustler 5BTV trap vertical very good condx $75
    9) 25 foot Rohn aluminum tiltover tower good condx $100.00
    10) Yaesu FT-8000, UHF side works great, VHF side doesn't. $50.
    11) Drake TR-33C 3 watt 2 meter xtal controlled xcvr mint $40.00
    12) Yaesu FT708 HT UHF with Plboard and all acces. $50.
    13) Cushcraft ringo 440MHZ $20
    14) Shure 404 microphone $25
    15) Sonar Receiver 150-175 MHZ mint and really cool $30
    16) Zenith Transoceanic RX needs a repair but nice RX $30
    17) Hallicrafters HT-9 Transmitter $75
    18) Vast assortment of handheld microphones mostly controlled magnetic elements
    19) Tons of stuff I can't call to mind but feel free to browse the pile in my garage
    20) Lafayette 10 meter AM transceiver works great $25
    21) Lafayette HE-20C CB ancient, works great $20.00
    22) Hammarlund 23 channel CB weird, rare and ancient $20.00
    23) Lafayette "Dyna Com 3A" handheld CB. Metal, heavy.$20.00
    24) B&K 5A DC bench supply, variable output, great shape $20.00
    25) Radio Shack 10 meter mobile rig AM FM SSB mint $80
    26) Drake 2 meter xtal xcvr 35 watt built like tank (I forget the model) $25.00
    27) Motorola amplified mobile speaker (Hawaii 5-0 model) $15
    28) Motorola mobile speaker no amp $5 each (I have several)
    29) Matching speaker for Hammarlund HQ-170 $15.00
    30) Father Knows Best 60's AM/FM Zenith radio very cool $25.00
    31) Barney Fife transmitter Hallicrafters AM/CW 60 Watt good shape $25.00
    32) Sonar FS-23 CB the "Collins" of CB's $30.00
    33) Sams Photofact CB series (now don't laugh) for fixing weird and vintage CB's $4 each
    34) Boxes and boxes of tubes, parts, switches, connectors, wire,

cable, you name it.
    I have the manuals for almost everything. Some items too heavy to ship...local sale only in those cases.
     In any case, U ship.
    -Jerry

Where do experimenters go to discuss radio experimentation? I'm interested
in learning more about trunking systems but haven't found a good place to
get involved in any discussion, etc.

Thanks!

I am looking for a replacement battery pack(s) for a Heath HW24HT radio.
The battery pack says: (exactly as it is on the label)

HEATH
NICAD BATTERY PACK
HWA 110
9.6V 450mAh

I would be looking for an exact replacement battery or even more powerful one and also it would be nice to know if there is a battery pack where standard AAA or AA batteries could also be used too. I am interested in also finding a better antenna for this 2meter/70cm radio than the rubber ducky it has.

I am also looking for battery packs for the ICOM IC-T7H HT and also dual band antennas better than the rubber ducky antenna too.

Heath originally sold the standard battery pack and a higher voltage battery pack which was taller, plus they had a shell to hold six AA batteries. I don't have my old HW24HT or manual handy to check for part numbers. The radio itself and the batteries packs were made by Standard. Some of the ham battery dealers probably still have packs for the radio. You might try somewhere like Mr NiCad.

As for the antenna, the HW24HT uses a standard BNC connector so you should be able to get just about any sort of antenna you'd like. The original antenna used a loading coil in a rigid plastic base and a thin flexible "rubber duck" element about 6" long. The radio isn't terribly fussy and will transmit into just about anything resembling an antenna - I think it would probably work into a piece of wet string if you cut it near a quarter-wavelength.

Xref: archiver1.google.com rec.ham-radio.swap:754 rec.radio.swap:36913

FOR SALE:
Lafayette HA-225 Receiver in very good condition.

Has general coverage and also bandspread for the amateur bands.
1966 era. Has Five (5) bands: 150-400kHz, 1.6-4.8MHz, 4.8-14.5MHz,
10.5-30Mhz, 48-54MHz

Additional bands for bandspread on the amateur radio bands.

14 tubes: 6AQ8 (6m rf), 6BL8 (6m mix/osc), 6BA6 (rf), 6BE6 (mix), 6AQ8 (Q-Mult/Calib), 2
6BA6 (if), 6AL5 (det, anl), 6BE6 (pro det.), 6AQ8 (af,bfo), 6AQ5 (af out),
0A2 (reg),
6CA4 (rect)

Interesting design in that it covers all the way up through 6 meters,
and it has the output transformer mounted diagonally to minimize
hum from power transformer.

See: http://member.nifty.ne.jp/hanazawa/radio/lafayette/

Will sell for $95.00 plus shipping

Also have a Lafayette external speaker to go with it.
Model 99-2521 - matches their classic receivers. Excellent condition.

Will sell for $20.00 plus shipping

Pictures available

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth far less... later. Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included! A few of these devices come with schematics, mostly not. The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $5

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $5

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $5

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 440. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6

capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

VLF Up converter -- Converts 30KHz - 530KHz up to the 3MHz Range -- 6" x 4.5" x 1.25", requires external +12V -- $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $12

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $12

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $20

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $30

Well here's some radio stuff plus some books excess to my needs that will ship
USPS Bookrate. Buyer pays actual shipping via UPS or USPS to continental US only. Stupid Earthlink has just bought my stupid ISP so my pics may not load. If not email me for them. Thanks for looking.

1. Heathkit RF signal generator Mod. IG-102 in nice condition and working. $20

http://www.jps.net/jonnysocko/IMG_

2. CONAR signal tracer Mod. 230 in nice condition $20

http://www.jps.net/jonnysocko/IMG_0184.jpg

3. RCA Oscillograph from the 1930s in excellent condition. Has trace but needs
caps replaced. $75

http://www.jps.net/jonnysocko/IMG_osc1.jpg
http://www.jps.net/jonnysocko/IMG_osc2.jpg
http://www.jps.net/jonnysocko/IMG_osc3.jpg

http://www.jps.net/jonnysocko/IMG_osc5.jpg
http://www.jps.net/jonnysocko/IMG_osc6.jpg

4. HP 1206B Oscilloscope. In good condition and working. $50

 http://www.jps.net/jonnysocko/IMG_HP1206B.jpg

5. 1920s Steinite 261 in very nice condition. Needs elec. restoration. All tubes
included. $75

http://www.jps.net/jonnysocko/IMG_261.jpg
http://www.jps.net/jonnysocko/IMG_2612.jpg

6. Very nice EICO 667 tube tester. W / manual $75

http://www.jps.net/jonnysocko/IMG_0197.jpg

7. Sprague Twist Loc Lytic Caps for power supply restoration NOS. Make

offer.

http://www.jps.net/jonnysocko/IMG_0207.jpg

8. HexAcon 350Watt Soldering Iron. Excellent shape in original box.

http://www.jps.net/jonnysocko/IMG_0198.jpg

Books:
All are in very good shape.

1. Radio Mfgs. of the 1920s by Alan Douglas (small crease on back cover) $12
2. Old Time Radios "Restoration & Repair by Joseph J. Carr $12
3. Electronic Techniques and Shop practices and construction. Third Edition. Excellent resource! $20
4. The Radio Manual 2nd Edition 1930 by Sterling. Excellent cod. Some writing inside. $15
5. 1992 World Radio TV Handbook $5
6. NRI Radio TV Electronics Dictionart $5
7. Archer Building power supplies by David Lines $5
8. Resistor-Transistor Logic 1973 by Lancaster $5
9. Electronics Made Simple 1965 by Jacobowitz $7
10. Radios By Hallicrafters 1st book. Dachis. $15
11. Shortwave Directory by Bob Grove $8
12. Aeronautical Freq. Directory by Coburn $8
13. Amateur Radio Encyclopedia by Gibilisco W1GV. $12
14. Golden Classics of Yesteryear by Dave Ingram, K4TWJ $5
15. Radio / TV Interference by Hughs VE3DQB $5
16. TEK SC502 Oscilloscope Manual. Excellent Reprint with spiral binding. $12

I have a Kenwood MC-60 microphone that is surplus to my present needs.
The mic is in good condition and I get good audio reports when I use it.

Here are two pictures:

http://www.eskimo.com/~ghopper/MC-60a.jpg
http://www.eskimo.com/~ghopper/MC-60b.jpg

I would like to get $95.00 plus shipping but I will consider all offers.

I have an Icom IC-03AT for sale. It is in good condition and includes
the radio, antenna, BC-25U battery charger, a photocopy of the manual,
and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and
an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable
offers.

I have an extra BC-35 rapid charger, in it's box, that is surplus to my needs. The charger works great and and is in great physical condition (case not cracked, metal not bent, no excessive wear.)

I'd like $55.00 plus shipping, but I will consider all reasonable offers because I would like to sell it.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $55.00 plus shipping but will consider offers.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT. The amp
is clean and works fine.

The specs: receive preamp has 10db gain with .5db noise figure. Freq.
range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or
more with 2 watt input and intermittent duty cycle". The unit worked
very well, but is surplus to my needs now that I have a 38A.

I'd like $75.00 plus shipping for the amp but, I will consider
reasonable offers and trades.

Alrighty then.... I will be checking into some of the resources people have
be referring me to here. Just wondered if anyone had any extra batteries or
antennas for this thing.

73's
Ryan

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

PL259's UHF male cable connectors (new)   -- $1 ea
UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows -- $2 ea
UHF F-M-F Tees -- $2 ea
UHF female - N male adapters -- $2 ea

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics
KC-59-642-M06 BNC Cable Male -- $1 ea
KA-59-385-M06 TNC Cable Male -- $1 ea
KA-19-43 TNC Bulkhead Female -- $1 ea

*** Coax Antenna Relays ****

These all have (3) UHF connectors. They are somewhat old looking on the outside but,
I popped the inspection port on each and all the contacts are all happy. And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
110-115 VAC coil -- $30

Advance (same style but, heavier contacts & construction)
115 VAC coil -- $30

All of the above plus shipping, if necessary, naturally.

******* Panel Meters ********

Analog Devices AD2004 4½ Digit LED 2 (1.9999) volt Panel Meter; NOS w/ data sheet $40

Datel DM-3100L-7089 3½ Digit LED Panel meter; range & condition unknown. $10

FLW Model 204B2, ER2 & model 204B-2D1,ER2,01 digital panel meters w/internal 120VAC power supply. 4 digit display plus a minus sign; 3½ or full 4 digits ?? Full scale unknown-- $25 pair

GE 50-283013MTMT1 3" thin edgewise panel meter 10V scale NOS in old box -- $15

GE DW-44 2" round 8A RF Ammeters w/ internal thermocouple $15 ea
      2" round 3A RF Ammeter w/ internal thermocouple $15

GE 50-240001AAAA1 2" round 100000 Hour Running Time meters 120VAC 60Hz NOS $20 ea

A.W. Haydon miniature 10000 Hour running time meter. Case is about 1/2" square (except for mounting flange) by 1" deep. 115VAC 400Hz   NOS $15

Hobbs 120 VAC 60Hz 100000.00 (Yes, displays down to 100th's!) Hour running time meter about 1" high by 2" wide rectangular with triangular shaped mounting ears. NOS $20 ea

Motorola 52B892096 3½" Square Meter (movement actually made by Simpson).
 This is some kind of tuning (or deviation?) meter with a 12 pin connector (like a 9 pin miniature tube outline plus 3 extra pins in the center)
 wired to the meter. $15

Simpson Model 45 3" round VU meter $20
     3" sq modern plastic 500-0-500ua movement w/ 50-0-50 scale -- $10

Triplett 320-G 3½" rectangular. 50-0-50 ua -- $15

Triplett 321T 1 Amp 3.5" Round meter NIB -- $20
Triplett 327T 10 Volt 3" Square meter NIB -- $20

Westinghouse 3" Square RX-35 series meters, used -- $10 each

   15 VDC   20 VAC 35KV (2mA full scale on this last unit)

Westinghouse 2" round 9A RF Ammeters w/ internal thermocouple $15 ea

Weston 507 2" round 3A RF Ammeters w/ internal thermocouple $15 ea
Weston 301 3" square 3A RF Ammeter (requires external thermocouple that I don't have) $7

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things **********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S 300pF 15KV $200 with standard puller, later manufacture (blue)

UCSL-750 750pF 3KV $125 with standard puller
UCSL-1000 1000pF 3KV $125 with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $80

---Fixed vacuum caps--

Jennings VC-12 12pF 20KV $20
Jennings 50pF 86KV $86
Western Elec 100pF 5KV $30 (This one hi-pot checked @ 14KV)

--- Vacuum Relays --

 Old "T" style vacuum relays, the coil slips over one leg
 of the glass enclosed contact assembly -- One of the contacts has a Penta Labs
 part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum
relay mounted on top of a small (2"x3"x4") metal enclosure. There is a
 15 pin Jones connector on the side of the box. I believe that there are
 some auxiliary contacts in the box in addition to the vacuum relay.
28VDC. $15

All of the above plus shipping, if necessary, naturally.

********** Air Variable Capacitors ********

Johnson T9-5 minature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

Johnson 154-506 Dual 153pF 3KV air variable used, good &#65533;" shaft, $15ea (2 available)

Johnson D Series Dual 200pF .080 air spacing about 4"x4"x8" overall, &#65533;" shaft $15

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, &#65533;" shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea.

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $20 pair

..and a whole bunch of Neutralizing capacitors as listed below $8 ea

Bud NC-853   (2 available)
        NC-1000 (2 available)

Hammurlund N-10 (ceramic repaired)

National NC-800 (old version - ceramic repaired)
                NC-800 (later version)
                NC-150

Johnson 150-375

Millen (part no. unknown) w/ 2-5/32" disks
             (part no. unknown) piston style

Unknown Mfgr w/ 2" disks

**** Ceramic Doorknob & Disk caps ***

  These are used Centralab or similar -- $5 ea or 5/$20

  500pF 10KV   "TV" style
   68pF   5KV   850 series

  These are NOS disks by KD & Erie $3ea or 4/$10

  1500pF 7.5KV
  .01uF   4KV

  And a couple NOS Silver Mica caps.

  2200 pF 500V CM06 $1 ea
  5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

***** Roller Coils ******

B&W 3853 72 uH NOS but, a mite tarnished from age. $60

Johnson 229-202 18uH used good, $50

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used good, $30

***** B&W Air Dux coils *****

These are all shiny NOS, 10" lengths, unless noted otherwise

#2408T 3" dia, 8TPI, #14 wire -- $30

#2008T 2.5" dia, 8TPI, #14 wire -- $30
#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center.

NIB $25

#1604T 2" dia, 4TPI, #12 wire, slight tarnish $20

#1208T 1.5" dia, 6TPI, #12 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #16 wire, somewhat tarnished $20

#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

These are all somewhat tarnished NOS partial lengths

#1008T   1.25" dia, 8 TPI, #16 wire, 8" long -- $12
#1016T   1.25" dia, 16 TPI, #20 wire, 8" long -- $12
#1032T   1.25" dia, 32 TPI, #24 wire, 5" long -- $10

a couple of miniductors (lighter construction)

#3035   3" dia, 10TPI, #16 wire, slight tarnish 10" long -- $25
#3027   2" dia   10TPI, #16, 7" long shiny -- $20

and a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
   including plastic center support, un-used somewhat tarnished $25

 980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
   including plastic center support, used somewhat tarnished but, no turns soldered $30

All of the above plus shipping, if necessary, naturally.

******* MICROWAVE *******

Micromega 28450-1265 Solid State sources.
I believe that these are on 12.65 GHz and can be tuned but,
I don't know how far. And these are also phase lockable but,
I don't know the reference frequency input. WR-75 output flange.
Terminals are marked. $50 ea

Hughes M-band balanced mixer assemblies which have WR-75 flanges
on the RF & Oscillator inputs and wire terminals on the IF outputs. $30 ea

Avantek SD7-0738N GaAs Fet Preamp. 3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments
noted on label. $50

Rantec FU-301 Filter? or Delay Line?? at some GHz ...I don't know.
N connectors -- 7 3/4" x 3 3/4" x 1" overall. $10

Display (or paperweight) Traveling Wave Tube. The tube was cut in half and
encased in clear resin. 15" x 4" x 1.5" thick. There are some scratches on
the resin surface which I think could be buffed out. $50

And a similar display piece of just the cathode assembly from a
larger Traveling Wave Tube. 3.5" x3.5" x 1.25" thick $25

Hewlett Packard 930A Switch WR-90 X - band $30

Note: this is a waveguide part

WR75 terminations $3 ea

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $50 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $75 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $30 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163 4 pcs $30 all

All of the above plus shipping, if necessary, naturally.

***** Mechanical Things & tools *****

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees)
3-3/8" or 4" diameter -- $25 ea

Sanyo-Denki 103-775-0611 Stepper Motors -- 1/4" dia. shaft extends about 3/4"
out each end. Outer Case is about 2.2" round, with a square flange on one
end, by 1.5" deep.
1.8Deg (200 step/rev) 2.25V, 1.25A, 8 lead configuration presently wired as 4
lead units
(I think the coils are wired in series for bi-directional drive) to "Molex"
connectors.
RFE 10 pieces, $100 all

NOS fan that fits some Japanese radio...marked: 57 10.01 100V
The wires from the motor are about 4' long and are terminated in a 2 pin JST
connector.
The impeller has 8 blades and is 7 cm in diameter.
It is mounted to a U shaped metal frame with four mounting holes spaced 5cm
by 9cm
$10

Craftsman 335.25926 "Drill Press" -- adapts a 1/4" electric drill (not
included)
to function as a small drill press. Used, but not much! $20

Trav-A-Dial bidirectional counter -- I think this was originally for use with
a mill or lathe in conjunction with a 200 count/rev quadrature encoder to
read displacement in .0005" increments up to 200 inches. These use Hewlett
Packard dot matrix decimal readouts for a very pretty display. Switches for
direction control and reset. Nice cast metal case, requires +5V. $75

Prototype or reject circuit boards from the above -- the readouts are
either all good or one bad one per board -- which is probably why they were
removed from service. $15 ea

Pulled and tested HP 5082-7300 RHDP decimal readouts -- $5 ea
Pulled and tested HP 5082-7304 +/-1 decimal readouts -- $3 ea

NOS 5082-7302 LHDP decimal readouts, still in HP packaging, $10 ea.

Listed below are all serious squirrel cage type fans:

Redmond Model BL-6 115 VAC .8A 60Hz 3000 RPM 4" round intake, 2.5"
square output flange, weighs 6lbs. used -- $20

ILG Electric Ventilation 17-18-022A encased motor with 181-009-EA fan
115/230 VAC 1.6A/.8A 50/60Hz 3000 RPM 4" round intake, 3" x 4-3/4"
rectangular output flange, weighs 25lbs. used -- $30

Kooltronic Model DF1F016N Dual fan style 230 VAC 1.2A 60Hz 3000 RPM
3" round intakes, 2.5" x 5" rectangular output flanges, 16" long by
about 7" diameter overall, weigh 15lbs. These look like NOS but,
they are a mite dusty from storage -- $50 ea (3 available)

All of the above plus shipping, if necessary, naturally.

**** SEMICONDUCTORS ****

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These look like
NOS --
(It doesn't appear that the anode leads have ever been bolted to anything.)
4 pieces -- $20 all

GE 4JA61C rectifiers, 50A, 300PIV, large stud package. A pair for $5.

GE 4JA63C rectifiers, 50A, 300PIV, large stud package. Four for $10.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola NOS rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR
(a bridge worth)-- NOS $10 all

Motorola NOS TIP34A 10A 60V TO-218 PNP Power Transistors. 4/$1

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly
with heatsink. Unused but, tarnished from long storage $10.

Westinghouse NOS, 80A, 1000V house-numbered SCR's $15ea.

Westinghouse NOS, 20A, 1000V house-numbered Rectifiers $4ea.

All of the above plus shipping, if necessary, naturally.

*** SWITCHES ***

Radio Switch 86 series 6PDT (3 DPDT wafers) RF style switch used good -- $30

General Electric WW2 vintage (has that BC-375 look) 6 position RF style switch.
  Very solid detents! Used, excellent. $10

Switchcraft lever switches -- all have black round knobs unless noted
     8PDT (#60024L) NIB -- $5
     4PDT (#160012L) NIB -- $3
     DPDT (#3006L) used -- $2 ea
     DPDT plus 2 form A contacts (41000 series) barely used (a single pair of contacts) - $2

     Three pos. 2 form B momentary (#3035) NOS -- $2
     Three pos., 2 form F momentary (3000 series) used -- $2ea
     Three pos., 3 form A momentary each side (3000 series) NOS, white rect. knob -- $3

     Three pos., 2 form C momentary (#130312) NOS -- $2ea
     Three pos., 2 form C (#130312L) NOS -- $3
     Three pos., 3 form A momentary each side (13000 series) NOS, red rect. knob -- $3
     Three pos., 2 fom C (DPDT) each side (#160312) NOS -- $3

Mossmann 3PDT lever switch (4803Z1P2) NOS -- $2

C&K 8121 SPST miniature pushbutton switch -- 1A 120VAC silver contacts NOS $2 ea

Dialight 570-31 3PDT miniature toggle switch with 5/8" long handle -- 5A 125 VAC NOS $5 ea

Grayhill 46YY2159 Sealed Pushbutton switches, RFE -- These were SPDT but, the NC lead has been cut off flush with housing. The NO & COM terminals are cut short like they were removed from a PCB. Nice metal shaft has about .2" travel. No button nor hardware, 1/4" mounting thread. And there are a bunch of them -- 4/$1

All of the above plus shipping, if necessary, naturally.

*** MISCELLANEOUS ***

Filter Cap Assemblies: Eight CDE 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

Large (uncased) display unit. 256, T-1 3/4, LED's arranged in a 16 x 16 pattern that is about 5" square. There is a 6" x 6" mother board plus 16 daughter boards holding the LED's. The LED's are driven by latches so any/all of them can be lit. There is a 14 pin DIP interface connector -- pin out provided. $75.

DPDT Crystal Can relays with 600ohm 28V coils and 2A 28V contacts made by Leach, Datron and other manufacturers. They have small solder hook pins for connection and a pair of ears on the sides to mount the relay. These are old but, as they are hermetically sealed, they should be like new inside! NOS $3 ea (a dozen or so available)

Red & Black Five Way Binding Posts -- NOS, look like HH Smith 459, requires 1/2" mounting hole up and will fit up to 3/8" thick panel. $1/ pair (one ea red & black)

Late '70's vintage likely Military, probably airborne, VHF power amplifier assembly. It consists of 7 almost identical amplifier assemblies clustered around a
central housing that has splitter combiner networks which are plugged onto each end with a bunch of SMB connectors. There are TNC's for the main in's & outs. I think it was originally configured as one amp, driving two, driving four boards. The complete assembly measures 7.5" x 5" x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer covers
are mostly missing. Each amplifier is a push pull design -- they appear to be
50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would
guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W. And there is no manufacturer name -- probably went with the outer cover. Six of the stages are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. Think

of it as 7 amplifier boards @ $10 ea --
 Bare PCB's would cost as much! -- $70

200W (or so -- 10" long) 1500 ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea (2 available)

Ohmite 3K, 225 Watt power resistors used w/mounting clips -- $7 ea (8 available)

Ohmite 2K, 225 Watt power resistors used w/mounting clips -- $7 ea (10 available)

Four 37.5K 78W power resistors used w/mounting clips -- $15 all.

Carter Radio 500K ohm rheostat with 2" diameter skirted knob, calibrated 0-100 over 270 degrees -- $15

Motorola 4-pin Microphone connectors 28-16730 -- NIB $5ea

Motorola TLN6824A Vibrasender -- Freq. 1B, 107.2 Hz $2

Motorola TLN1361A Timeout Timer $4

Tunable CTCSS unit -- Part no. 1100-1609-000 -- 1" x 2" PCB with wires to an 8 pin SIP connector -- Includes double sticky mounting tape. NIB $10

Parasitic Supressors, large pair -- 2 Turns of 3/8" wide silver plated strap wound over Globar 25 ohm, 3" x 5/8" bulk ceramic resistors (rated 20-25 watts?). The strap extends 1.5" from one end and 2.5" from the other. The silver is heavily tarnished but should clean up with Tarn-X or similar. $20 for the pair

Powerstat Type 10 120V 1.25 A variable transformer (variac) used, no knob nor dial -- $15
     Type 10B 120V 1.75 A variable transformer (variac) used, with dial, no knob -- $20
     Later 10B 120V 2.25 A variable transformer (variac) used, with dial, no knob -- $25
     Later 10B 120V 2.25 A variable transformer (variac) NOS, with dial, no knob -- $30

A couple old RF chokes:
  #22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $10
  #27 (green enameled) wire wound 40 TPI for 4.3" on a 3/4" diameter ceramic form which steps to a 1.3" diameter base tapped for two 6-32 screws, 5.5" long overall. Looks like winding has been cleanly spliced, twice -- $15

Pomona #2399 cast Aluminum Boxes (2" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA

female connector on each end.   New (in factory sealed plastic bag) -- $15 ea

Thordarson 20A01 Input Transformer NIB! -- Single or double button microphone

or line to single grid. Turns ratio 1:20 Includes original data sheet --
$25

Vibrafork 4 channel resonant reed relay. A real relic. NOS! $10

10uF 600 VDC "oil" caps, 5", 3.5" x 1" w/ mounting ears. $3 ea

All of the above plus shipping, if necessary, naturally.

***** Power Supplies *****

 Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached 2 wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse. There is a relay that switches the 3 voltage outputs. They have a six-pin SIL output connector and come with a matching cable to pigtails.   The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay). Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.
 $15 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General
    Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

    Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $25 ea (4 available)

    Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

All of the above plus shipping, if necessary, naturally.

***** Neon Lamps ****

NE-2	About 100	NOS
NE-2D	8	
NE-15	1	
NE-16	15	
NE-17	3	
NE-20	2	
NE-32	6	Big
NE-42	3	Real Big
NE-45	12	
NE-48	5	
NE-51	22	
NE-79	1	
CM-81A	3	

& an OSRAM N32 marked 380V
plus a couple other screw-in types on which I can't read the numbers

These are a mix of new and used, mostly made by GE, though I saw a few Westinghouse and RCA -- they probably average 40 years old and most of the bases are somewhat tarnished from age. I lit up a couple of the larger ones and they seem to
 work ok.

If anyone would like the whole bunch, I'll take $75 for them all.

All of the above plus shipping, if necessary, naturally.

*** Oil & plastic capacitors ***

10uF 600 VDC CDE & GE "oil" caps, 5", 3.5" x 1" w/ mounting ears. used -- $3
ea

20uF 600 VDC GE "oil" caps, 5", 3.5" x 2.25" used -- $6 ea

Three section 8uF (common return) 600 VDC "oil" caps, 5", 3.5" x 2.25" used --
$10 ea

10uF 1000VDC NTK caps, 5", 3.5" x 2.25" w/ mounting ears used -- $10 ea

1uF 7500VDC GE "oil" caps 4"x4"x2" plus about 2" worth of insulator/trerminal
on top $10 ea

All of the above plus shipping, if necessary, naturally.

********** Old Radio Knobs **********

These are all used, most have set screws, with nothing worse than minor scuffs and smudges and fit 1/4" shafts, unless noted.

Dakaware
    1-1/16" Knurled Knob -- $3
     1-1/16" Knurled Knob w/ 1.5" skirt w/ white indicator line -- $5ea
     1-1/16" Knurled Knob w/ 2" skirt marked 0-10 -- $8
     1-5/8" Knurled Knob w/ 2-1/16" skirt & unfilled indicator line -- $8
     2-3/8" Knurled Knob w/ white vinyl pointer at skirt level -- $12 ea
     2-3/8" Knurled Knob w/ 3" skirt & unfilled indicator line -- $12
     2-1/16" skirt only -- $2

   Short (1-3/16")pointer knob w/ white indicator line $1 ea
   Long (2") pointer knob w/ white indicator line $1.50

Harry Davies
   #1206 1-3/8" knobs -- $4 ea
   Short (1-3/16")pointer knob unfilled indicator line -- Not sure if this is Davies... There are a box of these -- 2/$1 ea

Hewlett Packard (70's vintage)1-5/8" spinner knob w/ 3/8" bushing -- $10

Kenwood 5CM diameter knobs that look like they are from a Kenwood TS-830 (main tuning knob) or similar
"Stock" knob -- $7
One that's been backfilled with shot to give it some heft -- $7
The plastic spinner version -- $15

Kurz-Kasch
#308 1-1/8" knob -- $4
#308 1-1/8" knob w/ 1-3/4" brite metal skirt with 100 graduations and tens indicated in black -- $8
#309 1-5/8" knob w/ metal spinner and 2-1/4" black metal skirt with 100 graduations and tens indicated in white -- $12
#309? (may not be KK) 1-5/8" knob w/ plastic spinner and 2-1/4" metal skirt with 100 graduations and tens indicated -- $12

#310 2-3/8" knob -- hub drilled out to 3/8" -- $8
#310 2-3/8" knob w/metal spinner shaft -- $12 ea
#311 2-1/16" skirted knob (some of the white lines are need refilling on these) -- $8ea
#380 1.5" skirted knob -- $5

These look like what was on some '60's Hammarlund, Eico & Knight Kit stuff
#642 1.5" skirted knob -- $5
#647 1" skirted knob w/indictor line -- $5 ea
#653 1.5" skirted knob w/indictor line -- $5 ea

Millen? (has a logo that looks like a "M" with an "I" superimposed at the center) #309 3-1/2" Handwheel style knobs as seen on the SX-28, if I recall correctly.
These are all in need of minor plastic surgery -- two have chips out the skirt where the set screw goes and one has had it's center drilled through... perhaps, to make a concentric assembly??
$10 ea.

National HRT 2-1/16" diameter
Black, trim rings somewhat tarnished -- $5 ea
Gray, trim ring shiny like new -- $10

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- good condtion, $25 ea

There are also many knobs from 1960's Tektronix and Hewlett Packard oscilloscopes, if anyone has any need, please inquire.

All of the above plus shipping, if necessary, naturally.

*** Electrolytic Capacitors ***

These are mostly NOS & range from 10-30 years old. Many of these parts are in
qty 2-6.

Axial Leaded

   210uF@35V -- $.25
   250uF@40V -- $.25
   500uF@50V -- $.50

500uF@75V -- $1
750uF@50V -- $1
1000uF@50V -- $1
1000uF@75V -- $2
2000uF@50V -- $2
2200uF@35V -- $1
2700uF@30V -- $1
4700uF@25V -- $2
4700uF@35V -- $2
6800uF@15V -- $1
8000uF@20V -- $2

80uF@175V -- $1
120uF@250V -- $2
200uF@250V -- $3
40uF@450V -- $4
80uF@450V -- $5
10uF@475V -- $1

Radial Style

1000uF@20V (used) 4/$1
2200uF@25V -- $1ea
2200uF@35V -- $1.50ea

1000uF@200V (used) -- $2
2000uF@200V -- $3
330uF@400V -- $3

560uF@250V / 47uF@250V -- $4

Old Can Style (Approx 1.5" diameter) mostly NOS Sprague & Mallory

Multi-Section Units -- $5 ea
150uF@175V / 150uF@175V
300uF@175V / 250uF@175V
100uF@250V / 100uF@250V / 600uF@100V
250uF@200V / 400uF@175V / 50uF@175V / 5@175V
200uF@300V / 100uF@175V / 30uF@150V
200uF@300V / 100uF@300V
100uF@350V / 100uF@50V
120uF@350V / 80uF@350V / 20uF@350V
150uF@400V / 10uF@400V / 15uF@400V
40uF@450V / 40uF@450V
80uF@450V / 2uF@350V
10uF@475V / 18uF@475V / 40uF@25V
10uF@475V / 10uF@475V / 10uF@475V / 10uF@475V (used)

Multi-Section Units -- $3 ea
500uF@25V / 50@25V
500uF@50V / 500uF@15V
500uF@50V / 50uF@25V
800uF@35V / 800uF@35V

2000uF@20V / 4000uF@20V
750uF@50V / 500uF@40V / 500uF@40V

Single Section Units -- $2 ea
160uF@250V
150uF@350V
200uF@350V
60uF@450V
1000uF@50V
3000uF@50V
3300uF@50V
4000uF@50V
4700uF@40V

Old Can Style (Approx 1" diameter) mostly NOS Sprague & Mallory

Multi-Section Units -- $2 ea
10uF@450V / 10uF@450V / 20uF@25V
10uF@350V / 20uF@350V
20uF@300V / 20uF@300V / 50uF@50V (used)
30uF@150V / 20uF@150V / 20uF@25V
15uF@250V / 15uF@250V / 500uF@2V
500uF@16V / 100uF@16V / 100uF@16V

Single Section Units -- $1 ea
1000uF@15V
500uF@25V
100uF@50V
20uF@450V

Computer Style (screw terminals) mostly NOS

80uF@300V -- $1
150uF@200V -- $1
250uF@200V -- $1
470uF@250V -- $2
590uF@200V -- $2
700uF@250V -- $3
780uF@200V -- $2
2000uF@200V -- $5
3900uF@300V -- $10 ea
2200uF@400V -- $10 ea

2900uF@25V -- $1
3300uF@50V -- $2
3700uF@30V -- $2
4000uF@10V -- $1 ea
6000uF@50V -- $3
9300uF@50V -- $5
10000uF@40V -- $2
11500uF@18V -- $1
12000uF@20V -- $1
12800uF@75V -- $5

13000uF@15V -- $1

20000uF@40V -- $4
22000uF@50V -- $5
24000uF@50V -- $5
27000uF@25V -- $5
48000uF@30V -- $7
55000uF@25V -- $5

100000uF@20V -- $8
100000uF@25V -- $10

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors. The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106. 143 pages. $50

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
 Navy Aeronautical Electronic Equipment
 vols. 1&2 (1955 tubes & 1962 transistors)
 very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
  240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
 -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the

(original?)
 owner on the first inside page. 85 pages, the last 10 or so of which are
receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
 tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten
note glued to the frontspiece stating that it belongs in the radio room of
the USS Maryland (which was moored just inshore of the USS Oklahoma on the
first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first
two chapters missing up to page 24, otherwise good, no writing nor torn
pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a
little worn at edges and on spine otherwise excellent, no writing nor torn
pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
 Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

Hello,

I am looking for any JRC JST-145/245 accessories such as any filters or the
speaker. Anything you may have laying around that is surplus to your needs?
Feel free to e-mail me with condition and price. Thank you for reading.

de aa9yf

Darren

Would LOVE to look at this unit, but sorry, OM.
I refuse to set up a Yahoo Account.
Are the images stored in any other locations?

Thanks!

Yes you do... The link takes you straight to Yahoo
log-in screen unless you already have a Yahoo account
AND your cookies turned on.

It screwed me up when I had different accounts with
e-groups, onelist and Yahoo and they all merged.

I have a distrust for media monopolies. This is why
your account information is not secure. If they can't
buy your information, they can damn sure buy the
company.

Jim

The upside is that you can open an account with placeholders
over most of the form. If they don't want your business,
they have the option to terminate.

Pristine Kenwood TS-850S with 12 V power supply cable, service manual on CD
ROM and microphone plug (not the mic, just the plug... Don't ask...). The
unit has been fully tested and is in excellent condition. $600 plus
shipping from Seattle.

NOTICE: This item is available at this price only for 24 hours, beginning
at 2200 PST on 7/17/01, after which it will become an eBay item.

PayPal preferred, other payment arrangements available.

I have an AZDEN PCS-2800 10m FM transceiver.

I have lost the manual and do not remember the function of the 6 position switch on the upper right side of the front of the rig. From the 9 o'clock position to the 3 o'clock position of a clock, it says V B F F B V, and is labeled "offset/scan".

I don't remember the offsets for 10m repeaters, and am guessing that switch controls the offsets.

Also, is CTCSS used on 10m repeaters these days?

I haven't been on 10m FM in 15-20 years.

Thanks and 73,
Ken

I have for sale, a Kenwood MC-60A amplified desk mic that is in very
good condition. I would like to get $85.00 plus shipping but will
consider all offers (ie. for trade, etc.) I can take a picture and place
it online if needed.

Questions? email ghopper@eskimo.com

For Sale Yaesu FT-847 All Mode Transceiver. 160 through 2 meters plus
70 cm. It is in very good condition and has not been exposed to
cigarette smoke. Also included is a 2m/70cm antenna combiner and mobile

Bracket. I bought the bracket and could not find enough metal to mount it to in my vehicle so the radio was not operated mobile. Original box and manual.

Asking $1200.00 Plus shipping and insurance.

Jerry
N5SY

I have one, I think. It is a solder-in job from a TS-130S. Worked fine
when desoldered. $60 and I'll take care of shipping. Jim W7LS

According to manual they push in and are secured by screws. I don't
think they solder in.

I have T44JJA with reed type PL deck and X44JJA CS
for $125 each OBO

Both are reconditioned 470-512 MHz, but have been aligned for
440 MHz ham band and are in spec w/longer stud in L6. Alas no
control group or channel elements, but include mounting trays
and covers.

More goodies at:
Http://www.cybertime.net/~ac6tk/spec.htm

Thanks for reading my post.

I have a MINT condition ICOM IC-737 General Coverage HF Transceiver,
includes built-in antenna tuner, wiring harness, owners manual, no mic
(MIGHT have a stock mic around).

Would like to trade for a MINT condition Kenwood TS-940SAT. If your looking
to UPGRADE to a NEWER HF rig, here is the perfect rig! Nothing at all wrong
with my IC-737, had the Kenwood TS-940SAT as my first rig, and would like to
have another!

73 Daniel KC4OXP

If interested, please email me directly at

UseNet Policy

eBay users may not post on Usenet groups (Internet newsgroups) to advertise eBay or an eBay
listing that is inappropriate or violates the Usenet board policy. If Usenet abuse is reported to eBay,
we may among other remedies) remove the listing, issue a warning, temporarily suspend or
indefinitely suspend the offender's eBay account.

We have no tolerance for UseNet abuse and will take action as appropriate. Please note that we
can only take action in cases where it is clear that an eBay member has posted to the Usenet
inappropriately.

Usenet abuse should also be reported to your ISP (Internet Service

Provider) and the email
provider of the person posting on the Usenet. Both of these
organizations are in a much better
position to prevent future Usenet abuse. Generally, you can send email
to abuse@"ISP".com to
properly report perceived violations.

Please define "inappropriate". Without that, the above is pretty
much useless information.

Thanks,

Bill, W7TI

Thank you God. and as for the question as to what is inappropriate,
I say ANY eBay add is Inappropriate in any News Group BUT I
propose to find out by sending SPAM complaints to ebay on EVERY
eBay listing and let eBay decide. I read about 25 News Groups and
they all consider ebay ads spam.

Just My Opinion..

Bob

Bob,

Ebay is not posting so it is not an ebay ad. It is the individual amateur radio operator posting that their equipment is up for sale and the sale is being conducted through ebay. It's ham radio equipment being offered for sale. I just do not understand what peoples' hangups are with this. Just ebay bashing and punishing the amateur as a way to "get back at them"? Why people get so upset of auction or for sale postings is beyond me. Ham radio is about communication among other things. Let people communicate.

JMHO

Duffy

Bob,

When you say "they" in the context of newsgroups, who are "they"? I have
never seen a survey conducted in any of the 30+ newsgroups that I read that
asks me what are appropriate postings. Many of the ham radio newsgroups
were around before ebay was even started. So it is inconceivable that some
mysterious policy on ebay postings was placed in the FAQ when the
newsgroup(s) started. Seems to me all the users should decide, not just one
individual.

Again, MHO

Duffy

So Bob. In those 25 newsgroups do read EVERY post online?

Also you would rather spend the time on these 25 newsgroups sending
complaints about what BOB doesn't like rather than take a few seconds
with FreeAgent and set up a filter to eliminate from your eyes ALL FA
posts?

Oh...I see what you are now.

This is the criteria I use to Inform people when they are off topic
by posting ads about ebay. I think it is fair, the Liars do NOT..

"If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line"

Don't you think this is fair???

I do and I live by it...

Just my opinion..

Bob

ICOM   IC-F40 LT

99 channel UHF portable radio

enter all information right from the keypad or software (included)

ctcss codes encode/decode
DCS digital dcs codes
Dtmf codes
Alpha tags for each channel
units can be easily cloned with a optional OPC 444 cable
3 programmable power output levels 1,3,5watts
scan function

these are high end portabales

come with good battery pack
software for programming
programming manual
leather holsters

I have 2 of these units,
they are in excellent condition
I won them at an auction
they are presently programmed with 6 frequencies
and can talk to each other

225.00US each includes shipping via USPS insured

thanks
Jpotoma@home.com

Shotgun posting forsales to several newsgroups, and especially
including discussion only groups, is indeed SPAM.

Why don't YOU buy up his endless supply of freggin hand crank
generators so we don't have to hear about them on a weekly
basis? It would be appreciated by many.

Pete

www.theauctionblock.tv

My wife and I collect alot of stuff...antiques, dolls, glass,
electronics, and I have ham radio gear. Like you, we registered for
several of the online auctions (ebay, yahoo, etc.), and then bought
and sold several items.
We never liked the complicated ebay fees (you need an accountant to
figure out what you owe), and then they added a fee for a reserve
price?..
that was the last straw for us.

I recently started an online auction and classifieds site as an
affordable alternative to the "auction madness" being practiced by the
large online auction sites. It's a general auction, with a free
classifieds
section. Never a commission or final valuation fee. We have all the
important features (several types of auctions, proxy bidding,
auto-notification
email, search engine, user ratings system, and more),free membership,
and
you don't need a credit card.

We'd love for you to join, but even if you don't, please take a look
and
give us your thoughts, feedback, suggestions, etc. We don't believe in
the
"high pressure" or "heavy handed" tactices of the "big boys"!

Mike

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key. The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I have a certian amount of discretion on the selling price however, we are asking $350 plus shipping which appears to be a fair price for the condition.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $75.00 plus shipping but will consider offers.

I have an Icom IC-03AT for sale. It is in good condition and includes
the radio, antenna, BC-25U battery charger, a photocopy of the manual,
and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and
an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable
offers.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT.

The specs: receive preamp has 10db gain with .5db noise figure. Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle". The unit worked very well, but is surplus to my needs now that I have a 38A.

I'd like $85.00 plus shipping for the amp.

I'm really getting into clean the shack mode now...

I have a midland brand SWR and power meter. Covers 36Mhz to 125Mhz.
clean and in good condition. Picture:

http://www.eskimo.com/~ghopper/midland.jpg

$15.00 plus shipping.

I have an extra BC-35 rapid charger in it's box, that is surplus to my
needs. The charger works great and and is in great physical condition
(case not cracked, metal not bent, no excessive wear.)

I'd like $55.00 plus shipping, but I will consider all reasonable offers
because I would like to sell it.

Another shack cleaning special!

I have a mirage D15 440 Mhz amp that I'm not using. It is in good condition. It puts out over 20 watts with 2 watts in.

Here is a picture:

http://www.eskimo.com/~ghopper/mirage440.jpg

New, a D15N is over $160.00 I'd like $95.00 plus shipping.

Another shack cleaning special!

I have a Yeasu FT-270RH that I bought receintly as a part of a
collection of other gear. I really don't need another 2 meter radio so
I'm selling this one. I tested the radio's function and power output
and everything seems to operate the way it should. I used the radio for
about 4 days last week and had no problems programming, accessing
repeaters and having lengthy QSOs.

I would like $100 plus shipping for the radio. If you need a picture, I
can take one and upload it to my webspace for your viewing.

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

You might also want to include the relevant RAR+P charter provisions
violated by the spammer.

Oh, wait. There aren't any such provisions.

Bummer, huh.

i bought this radio at the hamfest in cortland last weekend. only problem is, there are no 70cm repeaters in my area that are active (at least that i can hit well).to the best of my knowledge there have been no mods done to this radio. i have checked the mods and there are quite a few. they do refer to a series number that is supposed to be on the back of the radio. problem is the guy that had it last had a sticker over it with a list of all the local repeaters from his area. when i took it off, it either came off with it or wasn't there to begin with. comes with fnb-11s 1sv 850 mah battery, plus a NIB fnb-17 7.2v 600 mah. radio has some use marks on it but is in great operating condition. also come with yaesu speaker mike. and cigarette lighter plug. THE BATTERY IS WORTH 34.00 ALONE! AND IT HAS NEVER BEEN HOOKED TO THE RADIO! THE SPEAKER MIKE IS WORTH ABOUT 35.00! GREAT DEAL! BUYER PAYS 6.00 SHIPPING (INS OPTIONAL). PAYPAL OR MONEY ORDERS ONLY PLEASE. PAYPAL SCREEN NAME IS MY EMAIL ADDRESS/LAST NAME JOHNSON. BETTER HURRY THIS WON'T LAST! USA ONLY PLEASE!!

I am selling a Kenwood TS-430 that is part of an estate I receintly
acquired. I was primarily interested in other equipment but, it was an
"all or nothing" type of deal.

The rig was checked out by another ham (as well as myself) and works
fine. Cosmetically the radio is in fair to good condition. It has a
standard SSB filter.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I am asking $350 plus shipping which appears to be a fair price for the condition, however I would like to sell this radio so I will consider reasonable offers. I have two pictures.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT. The amp
is clean and works fine.

The specs: receive preamp has 10db gain with .5db noise figure. Freq.
range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or
more with 2 watt input and intermittent duty cycle". The unit worked
very well, but is surplus to my needs now that I have a 38A.

I'd like $85.00 plus shipping for the amp but, I will consider
reasonable offers and trades.

Questions, email ghopper@eskimo.com

I have an extra BC-35 rapid charger, in it's box, that is surplus to my needs. The charger works great and and is in great physical condition (case not cracked, metal not bent, no excessive wear.)

I'd like $55.00 plus shipping, but I will consider all reasonable offers because I would like to sell it.

I have an Icom IC-03AT for sale. It is in good condition and includes
the radio, antenna, BC-25U battery charger, a photocopy of the manual,
and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and
an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable
offers.

I have a Kenwood MC-60 microphone that is surplus to my present needs.
The mic is in good condition and I get good audio reports when I use it.

Here are two pictures:

http://www.eskimo.com/~ghopper/MC-60a.jpg
http://www.eskimo.com/~ghopper/MC-60b.jpg

I would like to get $95.00 plus shipping but I will consider all offers.

Hello again,

I’ve received quite a few questions about the site in the past several days. Someone suggested I post a couple of answers on the usenet, so I picked the top 3.

Q; A lot of people asking if the fee structure is a gimmick to get members, and then I’ll raise them like the other sites.
A; No. I will NEVER charge a commission or final valuation fee for auctions.
I would close down the site before I’d do that.
I guarantee that the cost for a basic auction ($1), bold text (.50) and pic (.50) will
not be raised for at least 2 years (5/5/2003). See if you get that guarantee from ebay!
I also guarantee fixed rates on our featured in category and on site fees,
however, this may require a restriction on the number
of featured ads depending on my space useage on the host.
If the membership grows and the site is used, I may lower the fees by offering
“auction packs” (maybe 10 for the price of 8 or something like that). The membership would be asked what
they prefer. You’ll never see that from ebay either!
Q; Does The Auction Block plan to offer free services such as email, chat
rooms, or a “community” area?
A; That would be up to the membership. I already have a free email account
almost ready for use of The Auction Block members.
Q; Are you going to load the site with banners and ads?
A; No. I find them annoying, and they slow the site down. If you’ll notice,
I’ve kept all the banners except one at the bottom of the page, and out of the
way. The location of the ads may change at some point (ie; a change in software),
but I will not load the pages with crap. I’m not running an ad portal !

I’d like to thank everyone again for the questions, suggestions, and comments.

Mike

After visiting here for a while, I've noticed that you've elected yourself as "spam monitor." Did these groups give you this job? I doubt it. One of the reasons I subscribe to magazines and newgroups is to see the ads for whatever. As long as the FS or FA ad is radio related I don't consider it spam. I would suggest that you focus on sex spams or anything not related to radio or electronics, and let the rest of us enjoy the FS and FA for what they're worth. If you continue with your unwanted anti-spam spam (and, yes, what your are doing is a form of spam), I will put you in my killfile as have many others and you will be blowing smoke. We don't need you to decide what we can and cannot view!!!

Get a life, would you!!

Yes, please put me in your kill file, and let this subject rest.

The original post was meant only for the RAR+P newsgroup,
a discusion newsgroup. The matter has been discussed by
all involved and at this time there are no problems. Please
don't pull-quote any information from the original post as it
serves no one to continually stir the pot as this point. Enjoy
your ads in peace.

I lost my 16-year-old daughter due to a car accident on August 30 of
2000. I'm a divorce single father I wrote a book in her memory. I just
upload my web page and my first book. If you have lost a love one you
have my condolences. You like to read a book, that a father has
written and dedicate the book in her name. Who I loved very much than
please visit my web page at: http://hometown.aol.com/andyshow2

I am selling a Kenwood TS-430 that is part of an estate I receintly acquired. I was primarily interested in other equipment but, it was an "all or nothing" type of deal.

The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I am asking $350 plus shipping which appears to be a fair price for the condition, however I would like to sell this radio so I will consider reasonable offers. I have two pictures.

Another shack cleaning special!

I have a mirage D15 440 Mhz amp that I'm not using. It is in good condition. It puts out over 20 watts with 2 watts in.

Here is a picture:

http://www.eskimo.com/~ghopper/mirage440.jpg

New, a D15N is over $160.00 I'd like $85.00 plus shipping.

questions? email ghopper@eskimo.com

Hi all,  I am in need of the manual with tune up procedure and schematic

for a old LAFAYETTE HA-600A shortwave / ham receiver.  Even the Sams
photofact
would be great!!  Readable copies would be OK also.  Of course I would
pay for
the copies and shipping.
Please e-mail me direct at:

mrrusso@optonline.net

THANKS,  Mark

It's easy to see why no one has bid over your original set price of $300 - you are too high! These
pop up from time to time for $200 - $250... And a "buy it now" for $425 on an item that sells NEW
for only slightly more, WITH a manufacturer's warranty, is sorta wishful thinking...

If you come to your senses, and will consider $250 SHIPPED, look me up - otherwise, enjoy your
prospecting...

--
Gary - KJ6Q
****
Two things we'll never see:
1. Perpetual motion...
2. A liberal Democrat complaining
about "Too much government"

RCA UV851 -- Filament lights up OK. This one is kind of for looks only as I can't imagine anyone using it for anything (except maybe a lamp...) in this millennium. It is 18" overall by about 6" diameter at the widest. -- $100
May be seen
at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=uv851.jpg&.src=bc&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Understanding Amateur Radio by George Grammer, ARRL. Second Edition, Second Printing, 1976. Excellent condition, 300 pages. $8

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors. The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106. 143 pages. $50

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &

Fall-Winter '62-63,
Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)

-- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?)
owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback Publications. This is a REPRINT by Vestal Press, 1984. Schematics & some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

******** Used Coax Connectors **********

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

PL259's UHF male cable connectors (new)   -- $1 ea
UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows -- $2 ea
UHF F-M-F Tees -- $2 ea
UHF female - N male adapters -- $2 ea

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea

UG-635/U C Female - BNC Male adapter -- $5 ea

UG-636A/U BNC Female - C Male adapter -- $5 ea

UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

********* New Coax Connectors **********

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics

KC-59-642-M06 BNC Cable Male -- $1 ea

KA-59-385-M06 TNC Cable Male -- $1 ea

KA-19-43 TNC Bulkhead Female -- $1 ea

********* Coax Relays **********

These all have (3) UHF connectors. They are somewhat old looking on the outside but,
I popped the inspection port on each and all the contacts are all happy. And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
110-115 VAC coil -- $30

Advance (same style but, heavier contacts & construction)
115 VAC coil -- $30

All of the above plus shipping, if necessary, naturally.

src=bc&.view=t&.hires=t

A Key made in Japan. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Jkey.jpg&.s
rc=bc&.view=t&.hires=t

********** Two Old Bugs **********

  The first is an old Vibroplex Original, sn 144779, complete and working. It
looks kind of bad in the photo. It looks just about as bad in the real
world. I think the base would buff up fairly well if the superstructure was
removed for the operation. It is otherwise complete & working. I believe It
dates from 1945... per a web site list. Asking $100.

  The Vibroplex may be seen at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Vibroplex.j
pg&.src=bc&.view=t&.hires=t

  The second bug is of unknown manufacture on a brass base. I've checked with
several bug experts on the web and none seem to know its origin. There is at
least one other unit of its style in existence so it is not some
one-of-a-kind homebrew. It is compete and working. Asking $200

  This Bug may be seen at:

http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Bug.jpg&.src=
bc&.view=t&.hires=t

********* And two electronic keyers... *********

These both seem to work, at least as far as the internal monitor speaker.
 I didn't take the time to hook them up to transmitter.

Hallicrafters HA-1, "T.O." keyer, with original manual. $60.
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=TO-1.jpg&.s
rc=bc&.view=t&.hires=t

Ham Radio Center, Ham Keyer model HK-5A (uses Curtis chip) batteries not
included -- uses 4 C cells. $30
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HK5A.jpg&.s

rc=bc&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

rec.ham-radio.swap:587 rec.radio.amateur.boatanchors:9411

FOR SALE
Yaesu FT-101EE HF transceiver with original manual, microphone and AC
power cable.
160 through 10m plus 11m SSB, CW, AM and digital modes. Has built-in
120V AC and 12V DC power supplies, MOX, VOX, PTT, NB, RF ATT, RIT and
calibrator for 25 kHz and 100 kHz markers. Metering for plate current,
ALC and power output level. This radio also has phone patch connectors
in back.

This rig sparkles! It still has the original plastic on the faceplate
and the front panel is completely mint. Handle is intact. There are no
scratches anywhere on the cabinet.

This is, without a doubt, the best looking, and best working FT-101EE
I have seen in years. Looks like it has hardly been used since new.
Plastic is still on the front panel which is immaculate.

Works fine on all bands, and all functions are working properly.

Will sell for $325.00 plus shipping

Picture and details available on my web site at:

http://home.cfl.rr.com/happysurfer/trade.htm

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key. The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufactureers use the exact same power connector in their wiring harnesses. While I haven't gone down to the chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I have a certian amount of discretion on the selling price however, we are asking $350 plus shipping which appears to be a fair price for the condition.

I hope to have pictures up by 8 PM PDT on 6-7-01. The URL will be:

I have some parts left over from the repair and upgrade of my TM-742 and decided that rather than let them gather dust, I would sell them to facilitate other peoples repair of their 742(s). I will consider offers.

I have the RF deck case and fan. This is where the two or three band modules go. I have no band modules for sale. I am asking $100.00 for this part.

picture: http://www.eskimo.com/~ghopper/tm742deck.jpg

I have the display and control unit avalible. These two parts are in good to very good condition. I would like to sell them together, however I would consider selling one or the other piece if the offer was right. I am asking $175.00 for these two parts together.

picture: http://www.eskimo.com/~ghopper/tm742disp.jpg

I have the backlit, DTMF mic with the RJ-45 connector, model number MC-53DM. This mic is in like new condition. I am asking $50.00

picture: http://www.eskimo.com/~ghopper/mic.jpg

I have the mobile mount. it is in good condition. I am asking $20.00

picture: http://www.eskimo.com/~ghopper/tm742mount.jpg

I also have the manual which I will sell for $15.00

To summarize, I have the RF deck sans the modules, the mic, the front
display and controls, the mobile mount and the manual.

All items are plus shipping, I ship via USPS priority mail and insurance
will be at your option. All parts are in good condition and they were
all working parts before the great dissassembily!

Email with questions. ghopper@eskimo.com

Hello all,
I am selling several hard to find Ham Clocks; reads off the time in any country, at any time of the day.
All are discontinued. Very desirable and will look great on your table with your radio gear.
Please email me for prices and pictures.
Thanks

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $95.00 plus shipping but will consider offers.

I have an IC-02AT that receives and transmits, just not very well. I received it as part of a trade of equipment and never got around to repairing it.

Here is a picture: http://www.eskimo.com/~ghopper/ic02at.jpg

I'd like $40.00 plus shipping (which should be about $4.00 for USPS priority mail.)

I also have the IC-02AT service manual avalible, if the radio sells.

This is a wonderful setup for the 1st time ham. Everything that you need to
get started in the hobby. I have for sale the following package. (YAESU

FT-840) this radio is in mint condition and is only 3 months old. I only have about 3 to 4 hours transmit time on it. Comes with box and manual. (DAIWA swr & power meter 1.8 ~ 150 1500 watts) This meter is in mint condition except for a small scratch on the top of the meter. It has 3 setting for power 15w 150w and 1500watt. (MFJ-941E MFJ Versa Tuner) this tuner is in good condition there are a few scratches. The meter doesn"t work but with the Daiwa swr & power meter you can tune any antenna down to 1 to 1 swr. (MFJ Grandmaster memory keyer Model MFJ- 482B) This keyer is is good shape for its age. There are a few scratches on it but I would give it a 8.5 out of 10. There are 4 memory address so it will free up your hands for these repeated messages. I will send all cables for this item so you will not have to worry about finding the right cables. (MFJ Iambic Key Paddle Modle MFJ-564B) This key has a black base and crome everywhere else. It is in good working order. From a scale of 1 to 10 I would give this item an 8. Buyer to pay... $650.00... for the hole setup..... Will except money order or PayPal only for payment. P.S if you would like a picture of the setup emailed to you just ask.

Like magic, these things keep being uncovered in my shack. Another rig I'm selling to clear out some of the old, unused, and extra stuff.

The radio is in good condition and I just checked it for function and power output (which are both just fine.)

I would like $100 plus shipping.

I also have an Astron RS-12A, used with the radio, that I will sell for $40.00 plus shipping.

Email with questions.

Equipment List
GE Master II Repeater UHF 40 watt. In deskmate case with Power supply but no duplexer.
$500.00
Uniden desktop Repeater. ARN-251 I think. No duplexer. Has CW id installed ready to go on 444.425 and 151.4 PL. $300.00
GE Master II UHF 75 watt with Pre-amp. No crystals (Icoms) No accessories, Painted handle. $75.00 each
GE Delta VHF narrow band 110 watt. With cables, head, speaker, Mic and base mount. $95.00
Motorola Mitrek VHF 110 watt mobiles. With all accessories and 1 set of channel elements. $75.00 each
Motorola Micor VHF 110 watt Mobile. 1 set of channel elements no accessories. $30.00
GE PCS VHF 136. - 150. MHz. 2 channel with battery and charger. $85.00
GE Monogram VHF 157- 170 10 channel. With charger battery bad but tested radio and it is good. (ex CSX radio with CSX engraving on front). $75.00
GE MPI II UHF pair. With chargers and batteries. Programmed on GMRS. $125.00
GE MVS UHF 16 channel scan. Will do ham - GMRS. Works great as I was using this in my van until I installed my Delta. $150.00
GE MPA VHF System model with Aegis encryption. My last MPA and my personal radio. Programmed for ham and scanning public service. 160 channels (the encryption takes away some memory for channel storage). With good battery and rapid charger $350.00
GE Delta control cable. Downloading type. $35.00 each
GE Master II control cable. 8 channel type (plenty of extra wires). $20.00 each
Video recorder lock boxes. These came out of the trunks of police cars and were the box the video recorder was locked in. Have a hasp for padlock and a separate door for inserting the tape. $25.00 each.
GE Master Executive II mobile extender VHF. No Icoms. $20.00 each
Cables for above radio to a master II or Delta. $10.00 each
GE Voice guard box for Delta or Ranger (19A148909P10). $20.00 each
GE Master II Microphones. Will work on Delta or Ranger as well. $5.00 each
Sinclair UHF Duplexer. 4 can 50 watt and on the ham band now. $100.00 or $75.00 if you buy it with a repeater.
I am always happy to consider trades or offers. Shipping is over and above the stated price and I take Paypal as well as cash. Checks have to clear before I ship.

Dean

I thought I had a buyer for this rig but, he hasn't answered any emails
in four days so I'm putting the rig back out on the market.

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key.
The rig was checked out by another ham (as well as myself) and works
fine. Cosmetically the radio is in fair to good condition. It has a
standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a
mic originally) however, I just discovered that several auto
manufactureers use the exact same power connector in their wiring
harnesses. While I haven't gone down to the chevrolet dealership to get
the part number, I just located one for my Kenwood TS-440SAT and made a
second wiring harness for that.

I have a certian amount of discretion on the selling price however, we
are asking $350 plus shipping which appears to be a fair price for the
condition.

I have an extra BC-35 rapid charger in it's box, that is surplus to my
needs. The charger works great and and is in great physical condition
(case not cracked, metal not bent, no excessive wear.)

I'd like $60.00 plus shipping, but I will consider all reasonable offers
because I would like to sell it.

Were you a ham radio operator on November 22, 1963? If not, maybe you know someone who was -- e.g., a family member, friend, or fellow club member. If so, please pay attention to this, because it's very important.

The Coalition on Political Assassinations (COPA) is a Washington, D.C.-based not-for-profit group of medical, legal and forensic professionals, also interested citizen researchers who have been concerned with the major political assassinations of the Sixties for many years. COPA was instrumental in gaining passage of the JFK Assassination Masterials Disclosure Act, which created the presidentially-appointed Assassination Records Review Board. We also monitored the performance of the Board and agencies of the Executive Branch in disclosing government records pertaining to the assassination of President Kennedy, until the life of the Board expired two years ago. Although the Board no longer exists, the disclosure obligation of the agencies continues.

Now, COPA is lobbying the Congress to do what it neglected to do two years ago: a final oversight hearing into the outcome of the Review Board process and the performance of the agencies. We are collecting information about materials from that era that remain classified or withheld.

One item is the broadcast transmissions of the presidential jet, Air Force One, as it returned from Dallas to Andrews Air Force Base outside of Washington, D.C. on the afternoon of the assassination, carrying President Johnson, other dignitaries, and the body of the

late President Kennedy.

We know that such a recording must exist, because we have a partial, heavily-edited transcript from the Lyndon Johnson Library in Austin, Texas. Nevertheless, all relevant government agencies have denied the existence of the actual recording.

We suspect that some ham radio operators may have succeeded in monitoring and perhaps tape recording the transmissions to/from Air Force One on November 22, 1963, and we would like to be able to verify the bona fides of the purported transcript, as well as help convince the Congress that there has been wrongful withholding.

If you, or someone you know, succeeded in recording Air Force One on November 22, 1963, and you have the tape, please contact one of the undersigned by e-mail.

Roger Feinman

And if a piece of green cheese from the moon fell to earth, it
would have rotted with ET fungus that would have annihilated
all life on the planet.

The fact that we are all still alive is proof enough that there
must be a Government bureau assigned to the task of insuring
no pieces of moldy green moon cheese ever penetrates the
atmosphere. This also lends credence to the idea that a
defensive shield already exists, but is so top secret that
not even heads of state are aware of this fact...

Have you tried the Lone Gunmen? The short dude looks
like he was around at the time...

Then we woke up and realized that since they had lousy
such lousy phone service in 1963, any such conversation
would have either been jammed or couldn't get through
the long distance operator without another subsidy.

Why would it be illegal? The transmission would have been recorded 24 years before the enactment of the ECPA. Furthermore, the transmission could not be classified at being part of the telephone network....

Now, there might be a national security issue here, but not a communications law issue that I see.

Both your assumptions are correct - and together they make your
conclusion wrong.

Yes, under the law at the time, those signals would have been government
radio transmissions, not a "telephone" call.

Yes, that was before the ECPA declared even accidentally monitoring
telephone conversations illegal.

BUT before the ECPA, all radio communications were illegal to DIVULGE
other that a few specifically exempted by the Communications Act. It
was the ECPA that made it legal to monitor and divulge unencrypted
government radio transmissions - and as you point out, those
transmissions were before the ECPA.

What does this have to do with ECPA?
Telcom act of 1938.

FOR SALE:

Exciting novelty item: HAND-CRANKED MAGNETO GENERATOR!
Produces 120V AC. These will provide about 20 Watts depending
on your cranking speed! The size is about 3" diameter and
3" deep with a retracting handle. Fluke freq meter shows around
20 Hz on one pair of terminals and around 60 Hz on another.
You can mount these behind a sturdy front panel with a single
hole and the large nut provided.
Will sell for $25.00 each plus shipping

Color may vary from the style shown here:

http://home.cfl.rr.com/happysurfer/imag/h.jpg

I hope only Peters are susceptible to this disease, one was enough, I hope it doesn't spread beyond the Peters.

If you had read the full post you'd have seen that he was selling radio
stuff at the 2nd link. It isn't SPAM!

Hi All,

     I recently got myself elected Constable. (AKA, "enhanced dog
catcher". :)

     One of the pieces of equipment I inherited from the last guy who

had the job is a mobile transceiver. FCC ID: ARU9PL RH256B Made by Regency Electronics.

Can anyone point me towards whatever information is available for this thing? I need basic setup and operation info, at least enough to determine if it is still functional.

This area is going to a trunked system soon, and I don't want to stick any money I don't have to into the old gear. OTOH, the date for the arrival of the new system keeps getting pushed back, and in the meantime, this is supposed to be my means of calling for backup if I get unlucky.

Any help will be appreciated.

Later,
Joe Kultgen

Looking for someone with Vaccume tube radio repair experience in the Ottawa
Toronto area who is experienced and reasonably priced. I've got various
types
of tube radio equipment that need to be upgraded (caps etc) and given a once
over. Hoping to find someone who knows this old stuff first hand and is
looking for this type of thing to do on their spare time. I'm not in a rush.

Regards, Jeff

I have two bird model 43 watt meters for sale. Your choice $160.00 plus
shipping. Both have been tested (they were used in my shack and work
great.) I am selling them because I actually have three and I really
don't need three...

One has N connectors and a bird/motorola label. Good condition, no
dents, etc. some signs of wear and a few paint chips.

Picture: http://www.eskimo.com/~ghopper/nbirdf.jpg

Number two has UHF connectors and is in near perfect physical condition.

Picture: http://www.eskimo.com/~ghopper/birdf1.jpg

the pictures are somewhat large so give them time to load.

I don't know what's up with the blue tint in the photo, but the meter
face is white (like it should be). I suspect the blue is from the flash
on the digital camera. I have more photos if interested.

Both come with a shorting plug.

I have a Kenwood TS-430 with the SSB filter that I am selling. The rig
is in good condition and has been checked out. The package does not
include a mic or a power cord. However, I just found out that you can
get the correct plug from chrystler dealers for around $7.00

I am looking for the best offer over $350 plus shipping.

    Looking IMMEDIATELY for a 2 meter HT, it must be:

*Programmable
*Have at least 20 memory allocations
*PL Tone Transmit capable (most repeaters in my area are toned)
*Reasonable condition, do not care about exterior condition, as long as
display is completely readable.
*Brand name not as important, and age is not either as long as it fits above
requirements.
--

Am also looking for a 2 meter (or even multiband with 2 meters as one of the
bands) mobile rig capable of at least 35 watts FM, must have PL Tone
Transmit capabilities and at least 10-20 memories.

If you have something that you are waiting to sell later on in the year at a
swap or just have an extra radio as listed above, please email me with what
you would be asking for it (before any shipping charges) I am a college
student so I am willing sacrifice with a less than perfect exterior (as long
as it is totally functional otherwise) to save a few dollars.

I just purchased a mixed lot of ham radio "stuff."

Within the collection was a brand new (or darn close to it...) Kenwood backlit DTMF hand mic with the RJ-45 (eight pin phone style) connector. I checked it out on my TM-742 and it works fine. Since I already have a backup MC-53DM, I am going to sell this one. I'd like $60.00 and because it is so light and small that it will fit safely into the USPS priority mail flat rate envelope that I will ship it for $3.50.

There is some more kenwood stuff in the collection, like the front panel display for a 742 as well as the band unit housing. I need to do a little more reading before I decide if I'm going to sell it, and how to price it if I do.

Email if interested.

Our City has recently moved public safety to 800 MHz. They have asked our RACES group to sell old (but working) 460 MHz radios. (PD cars, motorcycles, base).

Before we just went to the local swap meet, wanted to test the waters to see if there was any interest via the internet.

We will use our website to show pictures of equipment. Drop me an email if you might be interested.

All crysals have been removed.

Hi
I am interested in the above two radios from Drake. Either complete or
parts. Please email with details. Thankyou.
Nick

Hey guys - I have some more brand new terminal boards available!
Perfect for homebrew tube rig construction.

Single section and multi-section units with five turret terminals per section.

These come in two widths - that is 1.5" and 2.0"
The length is 2.6" per section and they have four mounting holes in the corners.

These are durable phenolic or fiberglass boards of top quality construction.

Will sell for $1.00 per section

For quantities available & details, see my web page at:

http://home.cfl.rr.com/happysurfer/boards.htm

I will try to update the pictures tomorrow.

73 to all tube homebrewers!

Kenwood TS-440S/AT for Sale. 10-160m, including WARC, 100W+ out on all bands. Includes internal antenna tuner AT-440, voice synthesizer unit VS-1, YK-88CN Narow CW filter (270 Hz), YK-88SN SSB Narrow filter (1.8 KHz), and IC-10 RS-232 interface kit installed. Non-smoker, original box, manual. $600 or best !reasonable! offer, PLUS you pay shipping.

Rig has been used extensively on HF digital modes (PSK-31, etc) and SSB with much success (WAS, 95 countries) since I bought it last spring. Excellent rig, mechanically and electrically.

Sale only, no trades, please.

J-peg format picture available upon request.

ICOM IC-735 in excellent condition; excellent electronic and cosmetically.
Has not been used as a mobile. Is unmodified rig and has
160-80-40-30-20-17-15-12-10 meters, All-Mode, 200 watt PEP, triple
conversion with adjustable Notch filter, adj. Pass Band Tuning, includes
General Coverage Receiver. NO Dings, Dents or Scratches-looks like a new
one. Nothing missing. Comes in original factory packaging and box with

original manual, schematics and hand mic. Rig is suitable for heavy duty RTTY work yet small enough for mobile or field work. The IC-735 is highly rated by users; see www.eHam.com reviews. Price is $475 plus shipping from 29609.

Cheers,

Al Link

I have an ICOM-735 with an AH-2 wire antenna tuner for sale. The =

S/N of the 735 is 010341, purchased at the Dayton hamfest=20
    04-26-87. have the original recp't. The AH-2 was purchased several =
years later. They are both in mint condition and work perfectly =
according to specifications. It was in the car for about 2 weeks. =
International Radio installed a 2.1 kHz SSB filter with narrow skirts =
and a narrow skirted CW filter. The all band transmit modification as =
well as the split frequency logic correction was done. (sorry, no =
documentation is available). =20
    I have the internal ICOM CW electronic keyer. It is not working but =
I will include it not installed.
    The transceiver was recently repaired by ICOM. The chopper behind =
the main tuning knob was electrically rebuilt. The radio was tested and =
met all ICOM specifications.
    I am asking $500.00 for the transceiver and $150.00 for the tuner =
(plus shipping). If I sell the tuner first, I will sell them =
separately.
    As a package I will pay for the first $20 shipping cost.
  =20
    I live in West Palm Beach, FL. I can deliver or meet =BD way for a =
reasonable delivery distance.
  =20
    e-mail: kb1d@arrl.net=20

Does any one have any information on the Eddystone R101 pre War2, looking
for picture of same, and any other data.
Would be happy to make contact with other Eddystone collectors.Andrew.

ICOM IC-735 in excellent condition; excellent electronic and cosmetically. Has not been used as a mobile. Is unmodified rig and has 160-80-40-30-20-17-15-12-10 meters, All-Mode, 200 watt PEP, triple conversion with adjustable Notch filter, adj. Pass Band Tuning, includes General Coverage Receiver. NO Dings, Dents or Scratches-looks like a new one. Nothing missing. Comes in original factory packaging and box with original manual, schematics and hand mic. Rig is suitable for heavy duty RTTY work yet small enough for mobile or field work. The IC-735 is highly rated by users; see www.eHam.com reviews. Price is $475 plus shipping from 29609.

Cheers,

Al Link

Like new TS450/SAT with YK-88C filter (500 Hz CW, $130 new) installed. All functions are perfect and cosmetics are 9.5 out of 10. Includes factory packing, mike, power cord, manual. Never been "tampered with". Also includes mobile bracket (but rig has never gone mobile).

Asking $650 plus shipping to ConUS by way of your choice.

Also have matching Kenwood MC-60A desk mike ($140 new), $95.

$725 for both radio and desk mike.

I need a smaller rig for the dash of the RV.

I'll consider a trade for a "like new" 706MkIIG.

Will ship on receipt of US Postal Money Order, or when your personal check

clears. Will "double box" the original packing to keep it safe.

Email me if you have questions.

73s.....Rudi - WA6RW

Hello Radio Friends,

I have a Tektronix Model 2235 and I am looking for a operating and service manual. I would sincerely appreciate anyone who could help me out. There are just too many functions on this scope that I don't really understand. Please Help!!

You know that you are helping the site by running your mouth
about it. Its like the press, the more folks hear about it the more
they want to know more. Let it be! People will seek their own
level of what is right. Just my thoughts.

            John

Seems like it hits the mark. Nice to see a truthful web site
rather than all the politically correct lies and bullcrap of
the past few years.

ICOM IC-735 in excellent condition; excellent electronic and cosmetically. Has not been used as a mobile. Is unmodified rig and has 160-80-40-30-20-17-15-12-10 meters, All-Mode, 200 watt PEP, triple conversion with adjustable Notch filter, adj. Pass Band Tuning, includes General Coverage Receiver. NO Dings, Dents or Scratches-looks like a new one. Nothing missing. Comes in original factory packaging and box with original manual, schematics and hand mic. Rig is suitable for heavy duty RTTY work yet small enough for mobile or field work. The IC-735 is highly rated by users; see www.eHam.com reviews. Price is $475 plus shipping from 29609.

Cheers,

Al Link

I have the optional RC-12 Remote control unit for the Icom R7000 receiver
for auction on ebay.

Please take a look!

Hello,
Having just picked up a Fluke 335D DC calibrator at our recent "Trash and
Treasure" day I would like to obtain a manual for it.
Perhaps somebody has this manual and would be prepared to have it copied
and air mailed to me. If so please email an address and I will send some of our
dollars.

To All,
Manual is already in the mail.
Thank you for the unbelieveably quick response.
